

'SUTHERLAND AND WEEKS LIKELY AS CABINET MEMBERS

By George R. Holmes

New York, Nov. 5.—(U. N. S.)—Two of the 10 men who will constitute the next cabinet and assist President Warren G. Harding in directing the destinies of the nation for the four years beginning March 4, next, have already been tentatively selected by the president-elect, it is believed.

While cabinet-making is yet in the speculative stage, a summer spent on the Harding front porch in Marion revealed the activities of several men, activities which were a vital factor in providing the unprecedented Republican victory, and those close to Senator Harding do not believe that places can be denied these men.

WEEKS AND SUTHERLAND

One of them to whom a cabinet post is assured is ex-Senator George Sutherland of Utah. Sutherland was at Marion most of the summer. He was perhaps Senator Harding's closest adviser and confident. He is by long odds the leading candidate for the attorney-generalship. He is a lawyer by profession and an ex-chairman of the American Bar association.

The other man who is considered as cabinet certainty is ex-Senator John W. Weeks of Massachusetts. Weeks was one of the most influential members of the Republican executive committee, the organization nominally responsible, at least, for Tuesday's avalanche. Senator Weeks is an Annapolis graduate, conversant with naval affairs, and indications point to his succeeding Josephus Daniels as the head of the American navy.

FOUR FOR SECRETARY

The secretaryship of state, the most important post which Harding will have to fill, is one that already is causing the president-elect and his advisors considerable perturbation. Four names so far have been prominently mentioned for this post—Elihu Root, Henry Cabot Lodge, Philander C. Knox and Herbert Hoover.

Unless there arises unseen developments before the "picking" season is over, it is believed that Root's name can be disregarded. Those close to Harding say that he does not consider himself or the present Republican heads under any particular obligations to Mr. Root, and it is a known fact that Root's European activities during the heat of

the campaign were causing the Republican heads grave concern.

It is doubtful if Senator Knox's health would permit him to assume so important a post. Senator Lodge has protested that he does not desire a cabinet position and Herbert Hoover's position is not generally known. It is believed Herbert Hoover will have a responsible position in the next government in any event.

HOOPER'S HELP RECOGNIZED

Hoover's espousal of the Republican position on the league at a critical time is recognized and the Republican chieftains are truly grateful. They recognize him as one of the best informed men on world affairs in America.

For secretary of the treasury four names have been mentioned prominently—Governor Frank O. Lowden of Illinois, Frank Vanderlip of New York, George Reynolds, Chicago banker, and that of Weeks, already mentioned for the navy. There is a warm personal friendship between Lowden and Harding. The Illinois governor retires from public life on January 1 and it is known that Harding feels that his knowledge and wide executive experience, particularly in financial measures, should not be lost to the public.

PERSHING IS ALSO MENTIONED

Secretary of war is another cabinet position which is causing much scratching of heads. But for the prejudice against making an army man head of the department, it is believed that General Wood or General Pershing would draw the post. The latter is retiring from the army anyway and certainly no man has a wider knowledge of American military affairs or European than has the late commander in chief of the A. E. F. The name of Julius Kahn of California, chairman of the house military affairs committee, also has been mentioned.

It is considered a certainty that Ohio will have one member of the cabinet. If the picking was to be done today, Ohio probably would get the postmaster generalship. There are two prominent Ohioans for this post—Walter F. Brown, ex-Progressive leader of Ohio, who comes from Toledo, and Harry M. Daugherty, Harding's personal adviser on matters political. Other names heard in this connection are Will H. Hays of Indiana and Charles D. Hilles of New York.

WALLACE FOR AGRICULTURE

For secretary of agriculture Henry A. Wallace, prominent publisher of a national farm publication, is mentioned. Wallace is from Iowa.

For secretary of the interior, Herbert Hoover has been the center of much speculation because he is an engineer, a conservation advocate and is familiar with the conditions of the Great West. Gifford Pinchot, Pennsylvania state forester, has been a frequent visitor to Marion this summer. He also is much concerned with conservation and interior matters.

Few names have been heard as labor and commerce possibilities. For the latter John J. Esch of Wisconsin has been mentioned. Each collaborated with

Cummins of Iowa in the framing of the Cummins-Esch railroad bill, which Senator Harding described during the campaign as the "most progressive piece of federal legislation passed in a decade."

Each was defeated in the Wisconsin primaries this summer.

Senator Harding probably will not devote serious consideration to forming his cabinet until after his month's vacation. Meanwhile he will be the recipient of thousands of suggestions and no little pressure from many quarters relative to his appointments.

Opium Owner Fined

Long Hing paid a fine of \$25 this morning after being convicted of having opium in his possession. He was arrested by Lieutenant Robson and Patrolmen Harms and Nutter.

Former Governor West Gave \$503 to Help Chamberlain

Salem, Nov. 5.—Oswald West, former governor of Oregon, contributed \$503.88 toward the candidacy of George E. Chamberlain for reelection to the United States senate, according to his statement filed with the secretary of state's office here.

Other campaign statements have been filed, as follows: George Neuner Jr., Roseburg, Repub-

lican, for district attorney, Douglas county, \$42.

Franklin F. Korell, Portland, Republican, for representative, Eighteenth district, nothing.

J. E. McClintock, Roseburg, Democrat, for state senator, Fifth district, \$22.19.

John Y. Richardson, Portland, Republican, for presidential elector, nothing.

W. C. North, Republican-Democrat, for representative, Eighteenth district, \$15.

Walter H. Evans, Portland, Republican, for district attorney for Multnomah county, nothing.

George A. Gore, St. Helens, Republican, for district attorney, Columbia county, nothing.

Willard H. Wirtz, Prineville, Democrat, for district attorney, Crook county, nothing.

Steve Says—
Sure I remember those big boats with half dozen or so cylinders. There's one at the museum now.

News Item - Jan-24-1929--
Bill Spivens' old friend Jim Tarp - now a rancher - met Bill and they renewed old times - going back to 1920. About that time many were still using big expensive autos that cost for gas and up-keep a ridiculous amount. They were comparing then with the present great system of the efficient Fields Motor Car Company System of sales and service stations. They remarked how odd it seems to think people ever drove other than a Chevrolet.....

The Gas Co.'s "Mathematical Problem"

- Question 1 How many heat units are in 1 ton of solid fuel which contains 10,000 heat units to the pound?
- Answer _____
- Question 2 How many of these heat units per ton are actually available from such fuel for House Heating purposes based on the "Tests of Coal and Briquets" (Bulletin 27 U. S. Bureau of Mines), which show that under the most perfect test conditions, there is a waste of 55% of the heat units, leaving only 45% of the heat units available for house heating?
- Answer _____
- Question 3 How many heat units are available from one cubic foot of our Gas, (which contains 570 B. T. U.'s, i. e., British Thermal or Heat units per cubic foot), when the gas is used through a Gasco-furnace, which shows a loss of only 9% and therefore makes 91% of the heat units available?
- Answer _____
- Question 4 How many cubic feet of our Gas does it therefore take to equal the number of heat units actually available for House Heating from the one-ton of solid fuel?
- Answer _____
- Question 5 At 50c per 1000 cubic feet, how much cheaper would that be for Gas than for solid fuel at the present price of \$17.50 ton?
- Answer _____
- Question 6 What would our House-heating Gas have to sell for per 1000 cubic feet in order to equal, in actually available heat units, one ton of said solid fuel which costs \$17.50 per ton?
- Answer _____

CONDITIONS

Answers must be filled in on an ad clipped from one of the newspapers. Only one person in a family can secure a prize, although several may answer. Every competitor MUST be a resident of Portland. Do not show calculation in the answers, only the result obtained. Answers must be sent to "Gasco," 203 Gasco Bldg., Portland, Or. No answers arriving after November 10 will be considered. Answers may be ornamented in black or colors.

PRIZES

First prize will be \$30.00; second prize \$25.00; third prize \$20.00; fourth prize \$15.00; fifth prize \$10.00; sixth prize \$5.00; seventh prize \$4.00; eighth prize \$3.00; ninth prize \$2.00, and tenth prize \$1.00.

In awarding the prizes, correctness of the answers will be the chief requirement, but the attractiveness of the replies will also count in selecting the winners.

The committee will announce its findings on November 13, in the four daily newspapers of Portland.
