

FARMER-LABOR PARTY IS THIRD; TOPS SOCIALISTS

Chicago, Nov. 18.—(U. P.)—The Farmer-Labor party polled more than a million votes for its presidential ticket, according to tabulation complete today and announced by Frank J. Esper, secretary of the national committee.

"The Farmer-Labor party is now the third party, having polled a larger vote than the Socialists," said Esper. "Our ticket was placed before the voters in only 19 states, owing to technicalities and local conditions. Had the Farmer-Labor ticket been placed on the ballot in every state more than 2,000,000 votes would have been cast.

"We are elated with the results of the election. It means the party is here to stay. Though the actual results gave us very few offices, we believe we have laid the groundwork for a successful party."

Esper said the only offices gained were two representatives and one senator in the Washington state legislature.

"We also polled more votes for our presidential candidate in Washington than the Democrats did for Governor Cox," said Esper.

This means, Esper said, that the judges and clerks at polling booths in Washington will be Republicans and Farmer-Laborites at the next election. The Democrats, he said, by running third lost the right to have members of their party officiate at the polling booths.

The heaviest vote for the third party in any city was polled in Detroit. There Parley P. Christensen, the Farmer-Labor candidate, received 65,000 votes. The state of Missouri, Esper said, cast 65,000 votes for Christensen.
