

MEAT PRICES ARE DOWN WITH BANG

By Hymas H. Cohen
Complete demoralization of both live stock and dressed meat prices is shown in the wholesale trade and consumers are entitled to get at least a portion of this reduction.
It appears that some of the meat markets are shading their quotations on veal and hogs to consumers, some of the cuts being about equal to the lowered buying value, but in general the retail trade is

not following the wholesale declines closely.
The public is complaining bitterly in this regard and those merchants who are close to the public pulse are trying to meet new conditions. Others are still asking high prices for goods that cost them much less money.
In the meat trade there is no excuse for keeping meat values to consumers out of line with wholesale conditions, stocks being purchased from day to day and there is no excuse to having high priced stock on hand.
The public has begun to learn to shop for its meats where it can get the quality it wants at the most favorable prices.
Utah Man Appointed
Washington, Nov. 18.—(U. P.)—President Wilson today made the recess appointment of Frank K. Nebeker of Utah to be assistant to the attorney general.

Former Head of Grazing Division Portland Visitor

T. P. MacKenzie, formerly head of the grazing division of the United States forest service here, now commissioner of grazing in British Columbia, arrived Thursday to attend the livestock exposition.
In his campaign against grasshoppers, MacKenzie has met little success. He sought to poison, but only two of the 40 varieties of grasshoppers would take the poison. He also sought to introduce a fungi disease, but only the same two varieties were susceptible. So MacKenzie is trying to protect his ranges

by building fences and allowing the grass to grow on portions of the range in the spring and trying to get ahead of the grasshoppers.
MacKenzie is accompanied by G. V. Copely, assistant grazing commissioner, who has gathered an enormous collection of forage plants of the range.

Flu Causes Death In Bethel; Four Ill

Amity, Nov. 18.—The "flu" has broken out again in the Bethel section south of here. The entire family of M. A. Lynch was stricken and Wednesday night the daughter, Miss Alice, died from the disease. The father, mother and two sons are confined to their beds and are in a serious condition.

Inviting as your own kitchen—

The large kitchens in which Tillamook Cheese are made are as clean and fresh as the most particular housekeeper could demand.

Great, shining vats and utensils, white walls, white-clad workers—and through the windows, glimpses of the cool, green valleys that are ideal for dairying.

Do you wonder that Tillamook Cheese has a superior flavor?

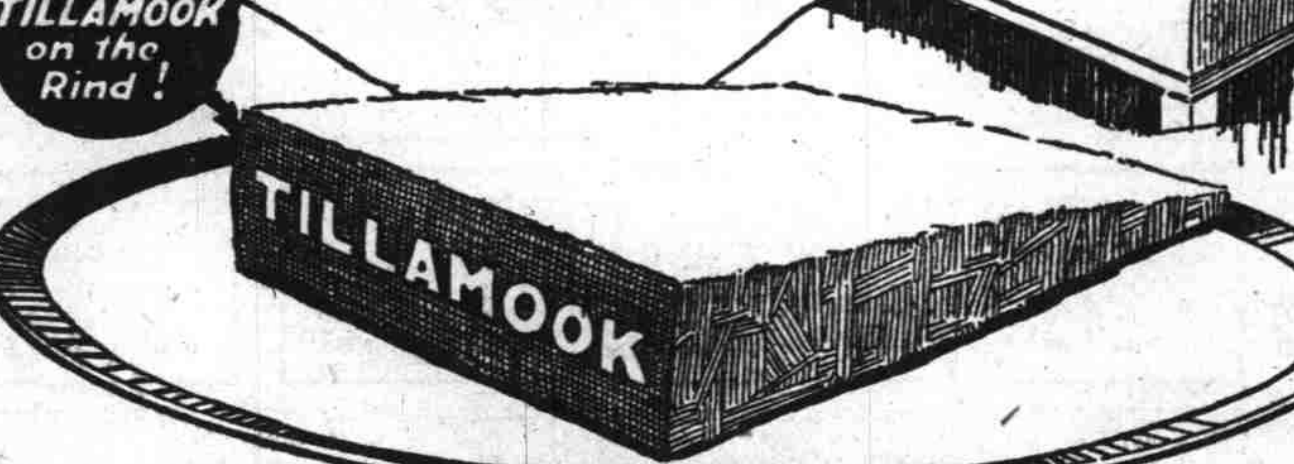

In food value, Tillamook Cheese precedes meat, eggs, bread, potatoes and eleven other staples. Five quarts of full cream milk are used in making a pound of "Tillamook." It is rich, creamy, mild—delicious cooked or uncooked.

The best grocers sell Tillamook—either by the slice or in family sizes of 6 and 14 lbs.
