

CUMMINS WOULD RESTORE CLAUSE ON ANTI-STRIKE

By J. Bart Campbell
Washington, Nov. 19—(I. N. S.)—A fight over compulsory arbitration of strikes by the federal government is anticipated by members of congress during the approaching short session.

Senator Cummins (R.) of Iowa, chairman of the senate interstate commerce committee, said today he would seek to have restored to the transportation act the anti-strike provisions adopted by the senate, but rejected by the house, during the last session.

He believes, he added, "a campaign of education" would convince organized labor that the anti-strike provisions would insure railroad employees receiving a "square deal" in disputes between them and their employers.

Two Oregon Men Get Park-to-Park Association Offices

Two Oregon men were selected officers of the new National Park-to-Park Highway association, organized last week at Denver. Will G. Steel of Eugene, "Father of Crater Lake," was elected as one of the five vice presidents, and Sydney B. Vincent, publicity manager for the Chamber of Commerce, was elected director for Oregon.

It is the purpose of the new organization to link up the national parks of the West with a paved highway. Portland would be on this highway, as a half way point between Ranier national park and Crater Lake park.

Fir Tree 'Showers' Clutter Up Lawn; Abatement Sought

The tidy soul of Ruth Bryan has been vexed to a point past endurance by the falling pine needles, cones and branches of fir trees on property adjoining her well-kept residential grounds. She filed suit Thursday against the Friendship Masonic Home association, owners of the property on which the trees stand, asking the court to give her \$400 damages and order an abatement. She says that at times trees or their branches have fallen on the roof of her home, breaking shingles and ruining electric wiring, besides doing other damage and that her lawn is littered by the debris.

The logical place to buy your clothes

Economical—Convenient

Satisfactory—Sensible

THE nearest of Fahey-Brockman's three great upstairs stores is the logical place to buy your clothes.

Low prices—good values

These are only two of the excellent reasons why you should join the hosts of our thousands of satisfied customers who make this their Clothing Headquarters.

\$10 Saved on every garment

is another sound reason, as is also the freshness of our stock. Our enormous, constant buying and selling keep our entire stock right up to the minute in fabric and fashion.

No cold storage stuff here

Our consistent policy of selling the public only the best obtainable goods at rock-bottom prices ALL the year around assures you that here, at least, there won't be plamed off on you aged stuff that is impaired in quality or style, however cheap it may seem in the ads. We refuse now, as always, to trifle with public confidence.

Meantime we are meeting a big every-day demand on our huge stock of this season's high-class Suits and Overcoats in every conceivable style, weight and fabric at the particularly attractive prices

\$20—\$25—\$30—\$35

These prices are made possible only by our famous economical policy and are particularly attractive when you remember the quality and freshness of our goods. Needless to say, we continue to do a brisk business in higher priced garments that run as high as \$50 in some cases, but never a penny above it.

Reputation-

Next to the test of years of service, values in plumbing equipment can be measured best by the REPUTATION of the manufacturer and the reputation of the local distributor.

Thomas Maddock was the first to make sanitary earthenware plumbing fixtures in America. The leadership then secured has been maintained throughout three generations of the Maddock family. And today the Maddock plant is the largest single factory in America devoted exclusively to the manufacture of earthenware plumbing fixtures.

This is the experience, the leadership and the facilities upon which the Thomas Maddock's Sons Company reputation was built. We know our reputation is in safe hands because we sell and recommend plumbing fixtures bearing the Maddock Anchor trade-mark.

Our display of this equipment is now ready. Come in and see how these modern fixtures will add to the convenience of your home.
