HELP WANTED—MALE 1

WANT AD TALK TO FARMERS

The study of employment from the farmer's standpoint has taught us that the farmer like all business men wants to know not only employment conditions but the people with whom he deals. Employment is governed by the market. The price of merchandise, the price of food products, the price of clothing, the cost of farm machinery and the cost of labor all enter in the study of employment.

For 21 years this office has handled employment, studied employment, watched the labor conditions and market changes. We have tried to be honest with the employer and the employe. We have tried to build up a stable business on business lines. Have we succeeded in doing this? Do not take our word that we have but ask your neighbor, ask the business men of Portland. Ask any one who has had dealings with the "Old Pioneer." You can easily ascertain this information. Every one knows of the "Pioneer."

We helped "Pioneer" the employment business in Oregon. We helped blaze the trail and our standing based on 21 years of successful effort we are willing to have you investigate. We are willing to have the spotlight of publicity turned on our record.

The season is now open for wood cutting, land clearing and grubbing. We can furnish you men who have their own drag saw outfits, who will take your cord wood cutting contracts. This work brings from $2 to $2.75 per cord, according to the timber, land and other conditions to be contended with. We have hand men available for cutting wood by the day or by the cord.

We have men wanting to clear and grub land at from $60 to $100 per acre, according to the class of clearing. We have men who will slash your brush for you.

We have farm hands, milkers, stockmen, lessees for your land; in fact we have everything in the way of labor available.

We feel there is a change coming along many lines but we also feel certain that the change will be beneficial. The farmer must produce capacity crops and we are here to help him do so. The organized effort to beat down the price of commodities produced by the farmer has reached the lowest level that will prevail. The market is at its lowest at the close of the season following the crop production, and this being an election year the tumble came and the worst has passed. The new administration will stablize conditions and prices will again become normal following the first of the year. The farmer who neglects to get his crops in the ground and who does not prepare for the coming year will lose money. We want to see the farmer go ahead and we are here to help him as best we can.

Our phone is Broadway 2278. Phone or wire rush orders our expense.
