

### COUNTY ASKED TO PAY MAN DAMAGE CLAIM OF \$2500

P. A. Linscott, through his attorney, has made demand upon the Multnomah county commissioners for the payment of \$2500 for the loss of a portion of his hand because of alleged improper treatment at the county hospital. The matter has been referred to District Attorney Evans and the superintendent of the hospital.

Linscott says while he was working at the plant of the Grand Box company June 24 he injured his left index finger and went to the county hospital for emergency dressing, but that before he realized the situation the finger was amputated. He says large slivers of wood were left in his hand and that this caused general infection which later resulted in his losing a part of the hand.

"I have recently learned that the gentleman who termed himself a doctor in charge of the hospital is a Mr. Padden and not a licensed physician but a medical student," says Linscott in his statement to the commissioners.

### CITY MUST GET COUNTY'S LEAVE TO CUT PAVEMENT

The city of Portland hereafter must make formal application to the county of Multnomah when any of its departments wish to cut into paving on county roads or otherwise obstruct such highways. Formal notice to this effect is to be sent to the city authorities by the county commissioners.

This follows a complaint by Roadmaster William Hatchel that the city water department has made cuts through the paving just laid at the intersection of Columbia boulevard and Interstate avenue, and his suggestion that the city should be required to proceed the same as a private citizen in such cases.

### Federal Agents Go To Attend Hearing Of Captain Agidius

Internal Revenue Agents W. R. Wood and J. J. Higgins will leave for San Francisco shortly after Thanksgiving to attend the commissioner's hearing for Captain S. V. Agidius, former commander of the barkentine Hawaii, who has been charged with attempting to smuggle opium into Portland by means of a false compass.

Assistant United States Attorney Charles Reames may accompany them as special prosecutor. Federal agents examined the captain's personal effects here Monday, but were unable to find any more opium.

The captain is said to have delivered \$10,000 worth of opium last week to a local apartment house, but to have failed to call for his money. Between the time of delivery and the time of payment, government officials were notified. It is believed the sea captain became suspicious, as he left immediately for San Francisco, where he was arrested Sunday. The hearing will be November 29.

### Court Makes Cost Of Funeral on Par With Estate Left

The cost of funerals must not be out of keeping with the value of estates left by decedents. This was a maxim emphasized by the action of Presiding Judge Tazewell Monday when he refused to approve of a bill for \$295 for the funeral of Michael Erceg. Erceg was driving a herd of cattle along the Linn-ton road when he was struck by an automobile, his skull was fractured, and he died soon thereafter at St. Vincent's hospital. He left a small estate. Judge Tazewell had given his approval to a bill for \$185 for the funeral, but he balked Monday when it was represented to him that an error of \$100 had been made in the adding of the charges and that the funeral expenses would be \$285. "I think the charge of \$195 for a funeral is ample for an estate of the size left by Erceg," said the court. "This court will allow no more."

### SPECIFIC WORDING URGED ON KLAMATH DAM AGREEMENT

Wording of the California-Oregon Power company contract with the government for raising the height of the dam at the head of Link river in Klamath county should be made more specific before construction work is continued, in the opinion of members of the special committee of the Klamath Falls Chamber of Commerce, which held a hearing on the case last week.

J. W. Brewer, field secretary of the State Chamber of Commerce, was chairman of the committee before which the hearing was held and upon his return to Portland this morning outlined details of the hearing.

### PROPOSAL YEAR OLD

Proposal was made more than a year ago that the power company raise the waters of upper Klamath lake six feet. Proceedings were held up with the claim that the power company would appropriate this excess water for their own use and for irrigation of California lands. The contract was held up by Secretary of the Interior Lane.

The hearing was called last week to determine whether the power company should proceed with the work. Members of the committee were: Brewer, Ben S. Morrow of the Water Works department of Portland, J. A. Gordon, Klamath Falls; George Offield of Merrill and Charles T. Darley, county engineer for Klamath county.

At the hearing the company declared that land which would be inundated by raising of the dam would be properly paid for and that the excess waters were intended only to maintain an adequate reserve for power development during the dry seasons. Fear had been expressed after the company provided the minimum of 100-acre feet per day for the Oregon land, the remainder of the water would be diverted to the California land.

The company declared that this was a misunderstanding and said that the contract could be made clearer. Reports on the meeting will be forwarded to Washington, D. C.

In addition to the specific survey of the Hill lines' terminals, the president's council will be urged to make any other recommendations prompted by their general survey of the city toward the improvement of other terminals, including in their plans the possible erection at no distant day of a union station to compare favorably with the handsome and thoroughly modern union
