

A daily digest of newspaper opinion from the leading newspapers of the country will be an editorial page feature of The Journal in the near future. Watch for it.

PASSPORTS TO IRELAND WILL BE APPROVED

Committee of "Americans Who Wish to Investigate Conditions Not to Be Barred by United States or Great Britain."

By David Lawrence

Copyright, 1920, by The Journal
Washington, Nov. 27.—The committee of five Americans who plan to investigate conditions in Ireland will have no difficulty about their passports. The British government has determined to take no official cognizance of the matter and the British embassy here is treating the request for the approval of passports in much the same way as it would treat the request of any American citizen.

Similarly the department of state will issue passports to the committee in the same routine way that passports are given to any Americans who want to go to Great Britain on pleasure or business. There had been some talk in the last few days that the department of state might decline to issue passports on the ground that the visit of the committee might be regarded as an interference in the politics of another country but the commission, on the other hand, is an entirely private affair, and its request for passports does not differ from that of five newspaper men or any other group of individuals who want to write about conditions in another country.

The department of justice will not be responsible for the reports or utterances of the committee any more than it is for the writings of American correspondents residing in Ireland or anywhere else in Europe.

BRITAIN HAD SAY

Of course, it was entirely within the right of the British government to refuse approval to the passports of the commission. Frequently, during the war, the United States refused to issue passports to the French or British governments would refuse to approve them and the would-be passengers were turned back at the steamers by the officers of the ship because none of the steamship companies would accept passengers.

U. S. Court 10 Days Behind Schedule; Judge Bean Is Due

Federal Judge Charles Wolverton announced from the bench Saturday that he expected Judge R. S. Bean back November 30, provided nothing further develops in San Francisco to delay his departure. Judge Bean has been sitting in the Bay City for Judge Maurice T. Looming, who was confined to his bed. Judge Wolverton has made every effort to keep up with the court docket, but cases came in faster than he could try them. The court is 10 days behind schedule and has cases booked ahead until next February.

King Constantine On Way to Athens

London, Nov. 28.—(U. P.)—An unconfirmed report today said King Constantine of Greece left Venice Saturday for Athens.

Stanfield Faces Big Task Job Hunters Are Active

By Ralph Watson

The fleeting days that have passed and gone since the election have been busy breeding an ever increasing crop of federal office seekers. The desk of Senator-elect Stanfield, at Ontario or Weiser, or wherever it now is, has been piled high with urgent missives of self commendation telling of deserving deeds done and vast hunger for political reward. Some of these, notably those of Jack Day and Clarence Hotchkiss, both of whom yearn to be United States marshals, were sent forward by wire, the normal advance of the United States mail evidently being too slow for their avid eagerness. Biddy Dowell, formerly chief of the Portland fire department, is said to be the latest bid to have blossomed forth in the plot marked off and reserved for potential marshals. All of which is somewhat disturbing to County Chairman Day and Secretary of the State Central Committee Hotchkiss, to say nothing of the peace of mind of Ferdinand E. Reed, who also yearns and yearns.

WANTS MILLER'S JOB

Then, too, Jack Peare of La Grande has sprung into the fray. He would like to lift the official seal of Colonel Milton A. Miller, collector of internal revenue, just as soon as it is politically possible for such lifting to be done. Peare is the chairman of the county central committee of Union county and confers, aside from things personal, that Eastern Oregon ought to be recognized and that he is the proper vehicle through which the recognition should be entrusted out to public acclaim.

Clyde C. Huntley of Oregon City, on the other hand, has an entirely different view of the situation. He contends that Clackamas county stood as a bulwark in the late conflict and that it would be nothing more fitting for the lightning

Woman's Leg Broken When Autos Crash

Severe Injuries Sustained by Miss Katherine Bonifer as Result of Collision.

Miss Katherine Bonifer, 188 East Seventeenth street, is in the Good Samaritan hospital with her right leg broken, one rib fractured and numerous cuts and bruises over her body, as the result of an automobile collision at 8:30 o'clock Saturday night, at Broadway and Williams avenue.

She was riding in an automobile with Andy Miller, police patrol driver on the second night relief, traveling north on Williams avenue, when their car was struck by the automobile of S. P. Jennings, 448 East Twenty-second street north, who was proceeding eastward on Broadway. Miller's car was overturned and badly smashed.

Dr. Rose of the emergency hospital gave first aid and ordered Miss Bonifer sent to the Good Samaritan hospital. Jennings was booked at the police station and is to appear in the municipal court Monday morning to answer the charge of reckless driving.

Peter Doctor, street cleaner, who resides at 723 1/2 street, was struck by an automobile at Third and Gilsan streets Saturday afternoon, and his right leg and back were severely injured. He was sent to St. Vincent's hospital. No report was received at the police station from the driver of the car.

WOMEN PAY BIG INCOME TAX SUM

Single Women Carry Largest Burden and Most of Them Are Wage Earners.

Washington, Nov. 27.—(I. N. S.)—Women's part in carrying the nation's tax load, as indicated by revenue figures issued today, reveals that they are paying into the treasury on a basis of net incomes totalling \$1,064,000,000.

This amount, according to detailed figures of 1918 returns, applies only to single women, who are supporting themselves or relatives, from their own earnings.

The indicated earnings of women are still further increased if returns filed by wives, entirely apart from husbands' returns, are considered. Wives are shown to have net incomes amounting to one-third of a billion dollars.

Thus women pay into the treasury on a basis of about one-tenth of the total revenues collected, although they constitute only about one-eighth of the 5,000,000 who returned in 1918. Officials stated women taxpayers include large wage earners, although the lists include women of wealth.

London Paper Is Bitter Commenting On Irish Question

London, Nov. 27.—(U. P.)—Sir Edward Carson tonight curtly denied an invitation to testify before the American commission on investigation of Ireland.

The Globe was bitter in commenting upon Carson's invitation. "It is an impudence," it said. "Let the Americans mind their own business and leave us alone. When we want advice regarding Ireland we will ask for it."

Stanfield Faces Big Task Job Hunters Are Active

By Ralph Watson

The fleeting days that have passed and gone since the election have been busy breeding an ever increasing crop of federal office seekers. Clyde C. Huntley of Oregon City, on the other hand, has an entirely different view of the situation. He contends that Clackamas county stood as a bulwark in the late conflict and that it would be nothing more fitting for the lightning

SEARCH FOR MAN WELL

Scores Leave The Dalles in Effort to Find and Give Succor to Voice That Begged for Aid.

Mrs. Charles A. Adwen, Portland, Who First Heard Pleadings, Tells of Weird Experience.

The Dalles, Or., Nov. 27.—Scores of men and women were in searching parties that hunted vainly in the upper Mill creek district, 17 miles southwest of here, Saturday, for a man who is supposed to be injured and helpless in the bottom of an abandoned well.

Sheriff Chrisman and a party searched for hours Friday evening in the storm. Volunteer parties from the neighborhood participated. The sheriff's office was besieged with scores of calls Saturday from persons who wanted to join in the hunt and who inquired for directions to the location.

Mrs. C. A. Adwen of Portland, who first heard the calls for help Thursday evening, when she was searching for aid to extricate her automobile from the mud, went on to Portland late Friday. She was unable to locate the cries, which she declared seemed to come from underground, because of the fog, although she spent several hours in the vicinity. Her tracks were evident to members of the posse in the region Saturday.

A number of abandoned wells exist in the neighborhood where the accident is supposed to have happened. Most of these wells are overgrown with brush and are difficult to find. The country is rough and brushy, said Sheriff Chrisman, and searching could pass within a few feet of the man, if he were unconscious, without finding him.

"Never in my life have I had such a weird experience," said Mrs. Charles A. Adwen, 334 Fremont street, Saturday night, when discussing her wandering through the dense fog from which came the voice of the man lost in a deep hole. "I have never seen such a dense fog. It was shortly after noon, but I could see scarcely 20 feet ahead of me. My husband and I have been on a month's automobile trip, down through Southern Oregon, to Northern California points and then back here."

Wednesday morning, but had engine trouble and finally got on the "wrong road and our car was stalled."

"My husband began to work with the car, and I sat there, but about five miles away there was a farm house that had telephone connections by which Portland could be reached. I could do

LAWMAKERS JOIN TO RESIST JAPS

Governors and Congressmen of Pacific Coast Openly Indorse California Campaign.

Sacramento, Cal., Nov. 27.—(U. P.)—Eleven governors, senators, or congressmen of Pacific coast states were on record tonight as in sympathy with the movement launched by the California Anti-Japanese association for organization of the Western states into an association to work for restriction of Oriental immigration.

The list included Senator William E. Borah of Idaho and Senator Poindexter of Washington.

Their positions were stated in their answers to the call for a conference to organize the proposed association which was sent out two weeks ago.

"Speaking for myself individually and as a citizen of the West, I am in full sympathy with your plan and your purpose," declared Senator Borah. "If in my capacity I can be of any service to you I should be glad to do so."

"The matter should be taken out of the field of federal government and diplomacy and put upon the basis of the law of the United States," Senator Poindexter of Washington declared in his reply to the call. "I think the suppression of the white race on the Pacific coast is involved."

Representative C. N. McArthur of Oregon wrote:

"I wish to assure you of my entire sympathy with any reasonable and proper plan which may be adopted for dealing with the Japanese menace on the Pacific coast."

Ben W. Olcott, governor of Oregon, wrote a very cordial letter, submitting a report on the Japanese situation in Oregon and urging that the matter unduly would come before the Oregon legislature in January.

Others who pledged to support the movement were Senator Charles B. Henderson, Nevada; Congressman M. H. Welling, Utah; Congressman Burton I. French, Idaho; Congressman Carl Hayden, Arizona; Governor Thomas E. Campbell, Arizona, and Governor Emmet D. Boyle, Nevada.

Reading Employees Threaten Walkout

Washington, Nov. 27.—(I. N. S.)—Union employees of the Philadelphia and Reading railroad are threatening a walkout, alleging that the company has recognized the American federation of railroad workers, which the union asserts is a "run-up" organization formed to disrupt the standard railroad unions, according to word received here today from Bert M. Jewell, chairman of the 16 associated railroad labor organizations.

Accordingly, he is said to be preparing to tell the many and varied applicants for jobs that no recommendations will be made by him until after he has conferred with his colleagues and there has been a meeting of minds between them.

This arrangement is not at all pleasing either to the political forces or ambitions of Ferdinand E. Reed, according to inside whispers, for McNary and Reed do not like at all. What Reed wants done will in all probability be not pleasing to McNary, while what McNary suggests will very probably not meet with the approval of Reed.

SMALL KILLED BY KIDNAPERS, SAYS MESSAGE

Mystery Surrounding Disappearance of Toronto Theatrical Manager Said Near Solution.

Three and Possibly More Arrests Promised—Doughty Said to Have Had No Part in Killing.

(By Universal Service)

Montreal, Que., Nov. 28.—Confidence was expressed here tonight that the mysterious disappearance last December of Ambrose J. Small, Toronto theatrical magnate, will be cleared up within a day or two.

Word came tonight from the train bearing Detective A. R. Mitchell and John Doughty, Ambrose's secretary, from Portland, Or., to Chicago, that the fate of the theatrical man "is near solution." The private wire continued: "Jack Doughty is the key that will unlock the door. There will be three and possibly more arrests, if they have not already been made. One of them, a woman, the others well known in theatrical circles on this side. Enough is known to acquit Doughty of actual part in the murder, for Small is dead."

Small was practically the first word that Small was killed. The circumstances, it is learned, do not suggest that Doughty had anything to do with the actual death and there are indications that the plot which ultimately resulted in the theatrical man's death was primarily conceived as a kidnapping. In the excitement attending the capture of Small, it is reported, the rough handling of the Toronto man caused his death.

The police until the last few days, it is declared, have been working merely on the theory that Doughty and Doughty and the piecing together of the information he supplied the case is almost complete.

It is a question if Doughty really knew when he fled from Toronto that

Blue Sunday Fight Takes On Warmth

Knights of Columbus Head Favors "Sane Reform"; Gompers Denounces "Puritan Drive."

New York, Nov. 27.—(U. P.)—The fight for "blue Sunday" legislation in 30 state legislatures, fanned by the Lord's Day Alliance, became more bitter today in various organizations lining up for or against the question.

James A. Flaherty, head of the Knights of Columbus, announced that the organization did not oppose "sane reform," but said the Knights of Columbus was against prohibition of Sunday sports.

Samuel Gompers, head of the American Federation of Labor, today denounced those back of the "Puritan drive" for asserting they are working in behalf of the laboring man.

"Labor has not called on them for assistance and they cannot speak for labor," said Gompers. "The man who works has a right to spend Sunday in wholesome recreation."

Many leaders of the Anti-Saloon league, which played a big part in making the country dry, have joined in the new movement. Dr. E. C. Dirwiddle, who is centering his efforts on the District of Columbia, said it was the plan to have congress pass strict Sunday laws for the district and for insular possessions, army and navy reservations, as the first step in the fight.

Later, it is understood, agitation will be made for an amendment to the constitution, which will form the basis for strict Sabbath laws. Putting the ban on Sunday theatres, cigar stores, soda fountains, gas stations and newspapers is contemplated.

Dr. Harry Bowby, general secretary of the Lord's Day Alliance, asked heads of New York transportation lines to curtail service on Sunday so as just to meet the needs of churches. Similar requests will be made in other cities.

Arrangements meanwhile were concluded for the funeral of Hamon on Monday afternoon. Scores of prominent Republicans, including Governor Frank O. Lowden of Illinois, will attend.

His funeral service Monday will probably surpass any similar ceremony in Oklahoma's history.

Thousands of visitors and friends of the dead man are expected to crowd the little town of Ardmore to pay their final respects to the oil magnate.

Search for Mrs. Clara Smith Hamon, charged with shooting Hamon, was being vigorously prosecuted today all over the nation.

SAY SHE WAS SEEN

Authorities charged they were convinced the woman had fled to California. Reports were freely circulated, however, that she had not left Ardmore. Two men notified county officials today that they had seen the woman here.

County Attorney Brown, who filed charges of shooting with intent to kill against Mrs. Hamon on the face of the victim's claim he accidentally shot himself, announced today no further legal action would be taken until after the funeral. He intimated an inquest might be ordered. Brown said he was considering charging the charge against the woman to murder.

Portland - Seattle Train Schedule Is Rearranged Today

Great Northern train No. 457, operating between Portland and Seattle, will arrive at the Union station at 4:40 o'clock today instead of 7:10 p. m., and will continue this schedule in the future, according to announcement made by Harry Dickson, agent of the Great Northern. Saturday, November 28, also announced that train No. 459 from Vancouver, B. C., and Seattle will arrive here at 8:30 p. m., instead of 10:30 p. m. at 4:45 a. m. and 10:30 p. m. The new schedule will give a wider range in arriving schedules.

HAMON CASE KEEPEEED BY LAMB KILLING

Friend's Body, Drilled Through Heart, Found Near Ardmore 36 Hours After Magnate's Death.

Mystery Suggests Two Supposed Murders May Be Connected; National Search for Woman.

Ardmore, Okla., Nov. 27.—The finding of the body of J. E. Lamb, millionaire oil operator and close friend of J. E. Hamon, multi-millionaire promoter, lying along the Santa Fe tracks just outside the city limits, gave police a new murder mystery to solve late today. Lamb had been shot to death.

Police attached no significance to the fact that Lamb met his death from a bullet wound just 36 hours after Hamon died from effects of a similar wound. A bullet had drilled Lamb through the heart and he apparently died without a struggle. According to police, the spot where the body was found was unfrequented.

SUICIDE THEORY SCOUTED

Investigation late today had not determined whether Lamb had been shot to death or slain by his body carried to the tracks for disposal after he had been murdered somewhere else. The suicide theory was not given much thought by officials, as no revolver was found near the body.

Arrangements meanwhile were concluded for the funeral of Hamon on Monday afternoon. Scores of prominent Republicans, including Governor Frank O. Lowden of Illinois, will attend.

His funeral service Monday will probably surpass any similar ceremony in Oklahoma's history.

Thousands of visitors and friends of the dead man are expected to crowd the little town of Ardmore to pay their final respects to the oil magnate.

Search for Mrs. Clara Smith Hamon, charged with shooting Hamon, was being vigorously prosecuted today all over the nation.
