

IMMIGRATION BILL IS AIMED AT JEWS, DECLARES SIEGEL

By Hudson Hawley
United Press Staff Correspondent
Washington, Dec. 8.—Racial issues were injected into the fight over the immigration bill which has just been introduced into the house when Representative Siegel of New York, following Tuesday's adjournment, declared in an interview that anti-Jewish propaganda, sponsored by Henry Ford, automobile magnate of Detroit, was the main cause of the present day agitation in favor of restricted immigration.

Siegel had previously given notice on the floor of the house of his intention to fight the measure reported out by the house immigration committee, of which Representative Albert Johnson of Washington is chairman, and had obtained unanimous consent to have consideration of the bill go over for two days in order to allow him time to complete and file a minority report. This permission he secured after a brief parliamentary skirmish with Johnson and others, in the course of which he charged that the bill was "being forced through."

"The point about the whole proposition," Siegel said, "is the fear that a large number of Jews will come in. Otherwise we would have a full bill, a complete bill reported. This is the first report in the history of congress that ever approached the subject of immigration from such an angle. The committee's report reads just like Ford's propaganda in his personal organ, 'The Dearborn Independent.'

Declaring that there were 2,500,000 Jews now in this country who had given 2 per cent of their number to the army and navy during the late war, and asserting that the battle death rate among that 2 per cent was more than that of any other race and creed, Siegel intimated that the alleged anti-Jewish trend of the committee report was due to a fear that foreign born Jews were likely to be agents concerned with the spread of Bolshevism. That fear he pooh-poohed.

RED DANGER MINIMIZED

"We are raising a big cry against the Bolsheviks and the reds," he went on, "while our big cities actually show a decrease in their crime statistics. Why, there are three times the number of murders in a city the size of Washington, D. C., in the course of a year that there are in New York city, in proportion to the population. While there is less crime in this country than ever before the trouble there is more publicity given to crime. And there would be even less crime if there were less tinkering with the immigration."

Siegel's idea is that it is the first duty of congress to see that the present immigration restrictions are enforced before it starts to legislate further. He declared that glaring instances of laxity are to be found on the Canadian and Mexican borders. On the former, he says, there are 76 points of entry with only 23 doctors on duty all along the frontier to prevent the entrance of immigrants having communicable disease.

WANTS MORE POLICE ON LAND

"We should encourage the distribution of aliens into the interior of the country," Siegel went on, "and take them away from the big cities, carrying on welfare and naturalization work at the same time. We should start the process of Americanization the minute that a man or woman arrives over here morally, mentally and physically fit for citizenship. That would be much more sensible than putting down a restrictive ban on all immigration for two years, the way the majority's bill proposes."

"While we are on the subject of aliens we ought to legislate so that it will be impossible for anyone not a United States citizen to cast a vote. In Indiana, Missouri, Texas and Arkansas any foreigner who has taken out his first naturalization papers can vote in an election, even though he has been in the country for only a year."

DEBATE PROMISES FIGHT

The debate over the immigration bill, which is due to come up under a special rule in the house Thursday, promises to be a battle royal. The rules provide for a general debate of not to exceed four hours' duration, one half of the time to be at the disposal of Representative Johnson, supporting the measure and the other half to be controlled by the bill's opponents.

After the general debate's conclusion the bill will be considered under the "five minute rule" and a vote will be taken upon the "moving the previous question" unless the house should vote to recommit the measure to the immigration committee.

Timbermen Score High Taxation of 'Cut-Off' Lands

Spokane, Wash., Dec. 8.—Timbermen of the West severely scored the taxation laws of the Pacific states for their high rates on cut-over land, at the annual convention of the Western Forestry and Conservation association, Monday. The timber land holders declared that reforestation in Washington, Oregon and other Pacific coast states by private owners is "not ever to be thought of" as long as the high tax on the land continues.

George H. Cecil, district forester of Oregon, said that if the timbermen hope for a second growth of timber on their land to grow free from the dangers of fire "the operators must get in the habit of considering slash disposal a routine part of their season's work, and all must be on the same basis in this requirement."

Robert Logan Gets Stay of Execution

An additional stay of execution until January 24 was given Robert Logan Tuesday by the federal court at the request of Assistant United States Attorney Lusk Logan, who was recently released from the state penitentiary, after serving a five year sentence, has been sentenced to 18 months at McNelly's island for conspiracy to commit perjury in the Zella Becker homestead contest case. The present stay extends until the date of the trial here of Zella Becker.

Marriage Halted

The white slave complaint filed against Jasper LeRoy Foster was dismissed Tuesday morning by Federal Judge Bean at the request of United States Attorney Hall Lusk. Lusk told the court that the defendant and principal witness, Ella Wade, 16 years old, intend to get married.
