

RECLAMATION FOR OREGON IS SCANT, DECLARES SINNOTT

Washington, Dec. 20.—(WASHINGTON BUREAU OF THE JOURNAL)—An exhibit of reclamation fund receipts and allotments, in connection with the 1922 estimates recently submitted to congress, which forebly shows how scantily Oregon has fared in comparison with some of her sister states, was prepared by Congressman N. J. Sinnott and was used by him in committee hearings in urging a more liberal apportionment for Oregon for the coming year.

The exhibit showed for each reclamation state the total estimated for each project, the total for the state, the contributions made by the state to the reclamation fund up to June 30, 1920, from the beginning, and the total allotments to the same date. Here are the figures for Oregon:

Storm Demolishes Cornucopia Train; Miners Snowbound

Baker, Dec. 20.—The fifth tramway station at the Gold Reef Mining company mine at Cornucopia was broken down by a storm. This tramway has been the only means of transportation kept open to the mine, and as a result of the break the people at the mine are snowbound.

William Colla, the mine superintendent, is attempting to reestablish the station, but with little prospect of success at this season.

R. G. Amidon, manager of the mine, has come to Seattle to see what can be done to help Colla keep the mine and mill open this winter, the first in 15 years that the company has attempted to run the mine.

Justice Gustave Anderson in a circuit court decree upheld the decree of Judge William Duly in the county court, which found the will of A. L. Brown to be valid. The contest was brought by William A. Brown against A. L. Brown, Lafayette Brown and Amos Brown, charging that the will was not legal, another having been made later.
