By George Bertz

Nearly 100 shooters faced the traps, despite the inclement weather, and under the conditions some very good scores were registered.

THREE TIES FOR SECOND

P. H. O'Brien, National doubles champion and holder of the Montana state championship; Harry B. Quick of Chehalis, and Mark Rickard of Corvallis, tied for second place in the registered event, with scores of 92.

J. Blaine Troeh shattered 91 targets, and Dr. O. D. Thornton and W. W. McCornack broke 90 targets each.

The winners in the four classes in the 100-bird race were:

Jack Nelson of San Francisco won the Frank M. Troeh sliding scale handicap, with a score of 25 straight. Second honors were won by P. J. O'Brien, after a shoot-off with H. G. Lacey.

Troeh was the only shooter who succeeded in making a long run, a run of 51 being registered.

H. H. Field of Seattle was high gun among the shooters of the trade, with a score that tied Dr. Seeley's mark. Frank Rich of Tacoma was second, with 31, and Al Cook was third, with 27.

RECORD ATTENDANCE

Nearly 100 spectators attended the shoot and partook of the lunch prepared by Ed "Ole" Morris, who was assisted in serving by the wives of several members of the club.

The attendance exceeded the expectations of the club officials. Several of the professionals made the remark that the shoot would probably be the biggest of the season.

Gleason Has Hopes for '21 Ball Season

NEW YORK, Jan. 17.—"Don't shed tears for us. We're not asking for alms. We don't want to build up on charity. Give us time. That's all we want and we'll get a team."

LOOK FOR STRONG TEAM

Where do they get this stuff that the Indians and the Yankees have a hold on each end of the rag? You just watch the Sox. We'll be there. We haven't a lot right now, but we have a good foundation to build on. Just watch us," the Kid said.

Gleason merely raised his brows and shrugged his shoulders when the manager of the American league magnate, who loudly proclaimed their intention to rebuild the shattered Chicago team, were brought into the conversation.

"If they don't want to sell, I guess it's their own business," he snapped.

Not only the disincarnation of the American league owners to trade surplus material, but their rush to outbid Comiskey for promoting recruits has around the hot stove league.

WANT SIX STARS

"We could trade of course, but every one we talk to wants Schalk, Dick Kerr or Eddie Collins. When they talk like that the conversation always ends," he said.

Gleason wanted to talk business with Clarke Griffith for Bobby Roth, but he found that the Yankees were in ahead of him.

"We're not worrying, though. We're lining up a bunch of good youngsters and we'll get there. Just give us time," and the squatty little leader walked away.

High School League Will Be Reorganized

C. E. Cleveland, temporary chairman of the Portland Public High School league, has appointed Hopkins Jenkins, principal of Jefferson high, chairman; William T. Fletcher, James John high, and S. F. Ball, Franklin high, to compose the committee on reorganization.

Because of the fact that next week is the last week of the present school term it is highly likely that the committee will submit the new by-laws and constitution until after February 1.

As soon as the principals of the league act on the matter, the whole affair will be placed before a committee from the school board for final ratification or rejection. The name for the new circuit will be settled at that time.

Pope Starts Weight Work

University of Washington, Seattle, Jan. 17.—Captain-elect "Gus" Pope of the 1921 Sun Dodge track team answered the first call for weight and field men issued by Coach Clarence "Hec" Edmanson here today. Pope is the ranking discus thrower in the United States and placed third in that event at the Olympic games at Antwerp last July. He intends to specialize in the discus again this year. A call for sprinters will not be issued until after February 1.

England Not Objecting to Big Ring Go

By Forbes W. Fairbairn
Universal Service Staff Correspondent.

LONDON, Jan. 17.—Rumors that the British government would not allow the Dempsey-Carpenter fight to be staged in England were definitely quashed Wednesday by C. B. Cochran, who, with Tex Rickard and William A. Brady, is promoting the championship contest.

"For weeks the London papers have been full of long articles telling in great detail why. In the first place, the fight will never come off, and, if it does, it will not be here."

"Dempsey and Carpenter are more than anxious to fight," said Cochran. "They will fight wherever we tell them to, or they both forfeit money advanced, which is more than 250,000 francs in the case of Carpenter."

EXCHANGE UNFAVORABLE

"Jack Kearns does not refuse to fight his champion in England, as I have read. There is no written clause in the contract to this effect, but he has told us singly and collectively that he has no objections to fighting here, providing his side was paid in dollars, the same amount as I stated in the contract. Of course, that is a fairly difficult thing to do, on account of the present unfavorable exchange between New York and London."

"Carpenter would just as soon fight in London as anywhere. He has told me that time and again, and so has his manager, Descamps. I have a site for a green covered arena, seating 70,000, under option, and am willing to build. In case the fight does come here, the prices will be from \$7 per seat to \$70, or from \$2 to \$20 at the present exchange rates."

NEW YORK FAVORABLE

"And you also take it from me that Carpenter is more than convinced he can whip Jack Dempsey. Personally, I don't care to express my opinion, because I have never seen Dempsey in action, but the Frenchman has, and I consider him a fairly good judge of another fighter's merits. And after that puzzling exhibition Dempsey made against Brennan, I don't know but that there are some grounds for being so confident."

"Regarding the reports that the powers that be here will not allow us to stage a fight in Britain, that is foolish and unreasonable. I am the only one in England concerned with the fight, and no one here ever approached me with the idea. It couldn't be held here. There is no reason why it cannot be, and it will be, is necessary."

Cochran explains that final arrangements for the Dempsey-Carpenter fight will be completed within the next two months. Despite the reported attitude of Governor Miller on the boxing question, he adheres to the opinion that the fight will take place in or near New York.

Michigan's Stadium Will Be Ready for 1921 Gridiron Games

Ann Arbor, Mich., Jan. 17.—(I. N. S.)—Plans for the erection of a new concrete north stand and a new west stand to complete the "U" stadium on Ferry field have been approved by the board in control of athletics at the University of Michigan and the board of regents will begin in the spring if bids are inside the \$400,000 mark.

The old wooden north stand will be torn down and part of it moved over to the baseball diamond where it will serve a much needed purpose in taking care of the baseball fans in the spring. A modern concrete structure similar to the present south stand will be placed, while another one on the west side will connect the two, thus forming the giant horseshoe.

WILL GO OVER BIDS

Plans soon will be given to the engineering and finishing touches and bids will be called for. The board in control will meet the middle of this month to accept or reject the bids. It is hoped that the new stadium, which is the new stadium will be completed in time for the 1921 football season.

It is estimated by the board that between \$400,000 and \$450,000 will be needed to do the work. If the bids prove to be around these amounts no doubt contracts will be let. The estimate is considered reasonably safe by members of the board.

The new "U" stadium will seat about 44,000 persons, thus equalling the capacity of the Harvard stadium and falling short of the Yale stadium by about 18,000. The plans were drawn up by Professor Lewis M. Gram of the engineering department.
