# In Making Laws

OREGON women have probably never before evinced so great and so intelligent an interest in the making of laws and the amending of existing ones as they are showing during this session of the state legislature. Indi-vidually and as organizations the women are making a study of the various measures and are registering both personal and organization approval or sapproval. The women are, naturally, chiefly concerned with the humanitarian bills, those dealing with child welfare and educational matters, and of these they are making a comprehensive study Outstanding in this week's events is the visit of five national officers of the Woman's Christian Temperance union. who will be heard here in various meetings. The most important club gathering of the week will be the monthly

urday at the Hotel Portland. Much interest in both women's and men's organizations is evidenced in the visit of the Persian scholar, Jarabe Fazel Mazandrani, who will appear before a number of organizations, speak-ing on ethical and educational topics. An interesting visitor in the city is Mrs. Martha Spangler, a member of the staff of the New West magazine, who is seeking to interest club women to act as leaders in the movement for a Western consumer's week, when people will be urged to buy commodities made in their own city, state and section.
