

GREETINGS SENT TO PORTLAND BY MEXICAN CHIEF

To step across the border from the United States into Mexico is stepping backward and not forward, in the opinion of J. Aronson, one of the Portland members of the Mexican industrial and trade tour party piloted into the southern country by the California Industries association. This opinion is expressed in a letter received by Mrs. Aronson Saturday.

"The backward step is one of almost 2000 years," writes Aronson, who says the dwellings are squalid and people traveling first class travel about like cattle do in this country, while those traveling second class are roped into dilapidated cars and handed food through the windows.

ROADS LIKE SCRAP HEAP
Aronson writes from Mexico City, where the trade excursionists were scheduled to stay 10 days. The letter was written last Sunday.

Although the party of Americans were traveling in their own cars from the "states," Aronson said that the party almost became stuck traveling over the "scrap iron" that served as railroads. He is of the opinion that had the rails in Mexico been in the United States 100 years ago, they would have been declared scrap iron and consigned to the junk heap.

Between the border and Mexico City the Americans traveled over some of Villa's old "dumping grounds" and tracks which had been torn up were but roughly relayed.

PRESIDENT GREETING PARTY
Soon after crossing the border one of the members of the party from San Francisco became ill and Aronson said that Dr. A. W. Moore of this city, who was one of the members of the party, diagnosed the case as smallpox. Every one in the car—all San Franciscans—were vaccinated.

At Mexico City the party was royally received, says Aronson, and official receptions were accorded the trade excursionists on all sides. General Obregon, president of Mexico, seemed particularly anxious to impress the Americans that they were welcome.

OREGON SENDS GREETINGS
After visiting a number of other cities in Mexico the party will return to the United States, March 4.

Members of the party from Portland were Aronson, Dr. Moore, J. P. Jaeger, O. B. Ballou, H. A. Speer, Dr. H. C. Jeffers, H. M. Papst and Dr. C. L. Booth. J. A. Mason joined the party en route.

Mason Saturday wired this bulletin to The Journal:

"In an interview granted your special correspondent at Chapultepec castle, President Obregon sends greetings to the people of Portland and the Northwest as follows:
"I send a message of friendship from Mexico to you. I wish that you receive the best impressions through the visit of your industrial representatives and hope it will bring beneficial results to both countries in the future."

Seven Big Barrels Of Wine and Much Alcohol Unearthed

One of the biggest raids in the history of the moonshine industry in Multnomah county, and probably in the entire state, was made by deputy sheriffs and members of the police department's dry squad about 7 o'clock Saturday night, when they swooped down upon an old barn on the Fisher road just east of the city limits, and caught a woman and two men operating the still.

Seven 50-gallon barrels of wine, 25 gallons of diluted alcohol, 14 barrels of mash and a 40-gallon capacity still, in operation, were taken by Deputy Sheriffs Schirmer and Knapton and Police Officers Russell, Huntington and Smith, who participated in the raid. Mrs. Antonia Bralich, wife of Michael Bralich of 292 1/2 North Sixteenth street, Tony Polich and Elijah Copich were arrested and locked up in the county jail.

The arresting officers believe the still

is the source of supply of Michael Bralich, who has been convicted several times of violating the prohibition laws. Bralich's soft drink license was revoked by the city council early in the clean-up campaign made by the city commissioner, at the time Commissioner Bigelow was presiding, while Mayor Baker was touring California.

Mill at Wheeler To Provide Light For Two Towns

Wheeler, Or., Feb. 21.—A new power plant installed in the Wheeler United mill will furnish light for both Wheeler and Nehalem. Owing to the closing down of the mill which previously furnished power for lights both towns have been unlighted for several weeks.

Miss Elizabeth Burr of North Dakota has been employed as industrial club leader for Tillamook county. Miss Burr is a graduate of Northwestern university.

The Columbia hotel, owned and operated by Mr. and Mrs. Edward Kelly, has been sold to Mr. and Mrs. John Korpala of Astoria. The Columbia was built by the Kellys in 1914 and operated by them since that time.

County road work in this end of the

county includes much needed repairs on the Mohler bridge, a short distance east of Wheeler. A new span is being built on this bridge and the entire bridge will be redecked.

The Wheeler Shingle mill, which has been closed down for some time, has resumed operation under new management and has put on a double shift.

Acting upon the advice of loganberry specialists, several ranchers are making preparations to plant a number of acres to these berries. Among those planting are: Frank Rowe four acres, Rhinehart & Mattley three acres, Bert Tilden five acres, James Moore 10 acres and Kuppenbender 20 acres.

Baker Votes Money For Public Works

Baker, Feb. 21.—On February 17 the taxpayers of Baker voted a \$70,000 bond issue to finish the natatorium, the tourists' camp grounds and the Madison street bridge. When these improvements are completed Baker will have a natatorium second to none in the state, filled with water from a warm spring at such a rate that the pool, 45x130, and from 3 to 8 feet deep, can be filled every 10 hours. It will drain by the overflow. An auditorium with a seating capacity of 2000 is to be finished.

A German scientist believes that the artificial lakes that have been built in this country decrease the temperature and increase the number of foggy days.

Children love the Victrola

After all, music is the very birthright of happy childhood.

Let your children grow up with the love of good music. Let them grow up in the sunshine of a Victrola.
