Early in January the British commission announced that cereal business would be suspended until charters have been announced and no business would be suspended until March 1 and that order has blocked all foreign trade.

Tonnage is being offered to exporters at as low rates as 65 shillings, but with no sales the vessels are lying idle. A decided drop in the price of wheat has had an effect and exporters are playing close. ### LIBELED STEAMER ASTORIAN IS SOLD BY GOVERNMENT

The river steamer Astorian was sold at public auction this morning to the Tacoma Savings & Trust company for \$5000, Unitetd States Marshal George Alexander conducted the sale, which was attended by over 40 river men. From the manner in which the bids were made Marshal Alexander said he judged that the various creditors had made private arrangements to have the Tacoma bank buy in the boat at that price. The amount received will more than satisfy the expenses incurred by the government for dockage, a watchman and proper care of the engines, and also pay the salaries of former employes of the vessel. The government expense is said to be about \$1200 and other preferred claims, including wages, bring the total to about \$2000. About 10 libel suits were filed against the The value of the vessel is approximated at \$50,000.

### PORT DOCK SITE DONATED TO PORT OF THE UMPQUA

Roseburg, Or., Feb. 25.-The people of Reedsport and vicinity have taken up the matter of securing a port dock which they have found necessary in order to receive government appropria tions. This was reported to the port commissioners of the Port of Umpqua by J. H. Napier, who was sent to Washngton, D. C., as a special representative of the port. When it came to the matter of a site for the dock, Warren P. Reed, who has made many donations to the city, offered a deed to the port of a tract of land having a frontage of 520 feet on the river. The property is valued at \$20,000 and Mr. Reed made the do-nation with the provision that the port improve it to the extent of \$6000.

# FIT FOR CABLE ONLY

The Island of Yap is really worthless except as a place for a cable landing because the distances in the Pacific are so great that to reach the Far East, the cables are landed first at Honolulu, then the Island of Midway, then Guam, and finally Yap, where the northward cable goes to Shanghai and the southward cable goes to the Dutch East Indies by the way of the Philippines.

The point is made that the American government had thus clearly made known its position before the mandate to Japan was formally ratified by the league council at its meeting in Geneva,

## TREATY RATIFIED BY THREE

It is pointed out that while there is no time limit set for ratification of the treaty, the treaty specifically states that the entire treaty becomes of force following the ratification by three powers. Furthermore, say the league lawyers, America forfeited her right to be consulted on the mandate question when she

declined to join the league. After conversations this morning with both league and American embassy officials, I am able to state authoritatively that the league council will suggest that the whole matter be postponed to a future meeting at which American representatives will be present.
