EASTER

Easter is four weeks from today. The splendid assortments of new spring and Easter apparel ready now in the Fashion Salons provide women with unusual incentives for making selections now and new lower prices add to the joy of Easter buying—a woman may satisfy that innate longing to appear at her best this Easter without a feeling of extravagance. We invite early inspection of:

Easter Dresses
For women who think in terms of frocks there never was a more interesting spring. Many different versions of the newest mode are here in new silk and cloth dresses. Lovely Easter frocks of Canton crepe in the new grays—dresses of taffeta with eyelet embroidery—dresses of twill—the variety is of the widest. Dresses at new lower prices of \$19.50 up.

Easter Suits
Easter and spring suits—the two are inseparable. Variety abounds in the new suits shown in such lavish assortments at this store. One may select garments in semi-tailored, three-piece, box jacket and other favored styles for all types of figures. Lavish use of embroidery, braid and heading make many of the new suits things of beauty. Distinguished suits of twill cord, pique, covert, etc., in the new tan and olive shades and a splendid stock of new combination tweed and jersey suits ready here in all sizes. New lower prices of \$39.50 to \$150.

Easter Wraps
The wrap's the thing this Easter. You'll want one to wear over your new frock. Designed for early spring protection and yet not too heavy for wear through the summer, many graceful affairs are here—beaded, bedraped and bedecked with embroidery. Marvellous fabrics in new wraps, new shaggy wool capes and smart coats for general purpose wear are here at new lower prices of \$35 to \$98.50. See Fifth Street windows.

Easter Blouses
Our Blouse Shop has outdone itself in providing assortments of new Easter styles exemplifying the smartest creations of blousedom. There are so many gay blouses of Canton crepe, crepe de chine, georgette and satin that description is impossible—and simpler models are not forgotten. New colors in fungus, new grays and tomato reds are conspicuous in the assemblage. Ornamentations of bead and embroidery motifs add to the distinction of many. Again the new lower prices are in evidence. See Fifth Street window.

Pattern Hats
We have assembled exquisite selections of pattern hats from the best designers—not from one or two but a representative collection of authentic models from the foremost authorities. The collection is too charmingly diverse to permit of any listing. Patrons, rather, are invited to see for themselves this showing of new models, which we believe to be unsurpassed.

French Adaptations
—faithful copies by our own designers of the newest French hats—may be chosen at surprisingly moderate prices, as also a large and desirable assortment of popular price millinery. See Fifth Street window.
