

OREGON HOTELMEN DEMAND REHEARING ON PHONE RATES

Hotel men of the state had their inning this noon. Meeting at a luncheon in the Portland hotel, the Hotel Men's Association of Oregon discussed the increase of telephone rates when all other lines of business had been forced to take losses, and branded the action of the telephone company as "rank profiteering and a trick to get all their coal from the people on a policy of the 'public be damned' basis."

C. E. Hickman, commercial division superintendent, and C. E. Siegel, engineer, represented the Pacific Telephone & Telegraph company.

REHEARING URGED

They tried to show the hotel owners why the raise should be sustained, but failed. A resolution introduced by Phil Metachan of the Imperial hotel, for a rehearing in the rate case was unanimously adopted.

Arguments flew while the two factions fought for their claims. The telephone officials stated that no one was forced to use a telephone and that if they did not like the service the company would be only too glad to remove the telephone from their premises.

George Mansfield of the Oregon farm bureau branded this as a policy of the "public be damned" variety and stated that he as president of the bureau would cooperate in any way with the hotelmen to force the reduction of rates.

NOT WORTH PRICE

The farmers of the state, he stated, were unable to pay for the use of rural telephones at the new rate, as they did not consider the service worth the price asked.

"It deepens the suspicion of the farmers, and everyone for that matter," he said, "that this is one of the rankest pieces of profiteering on record—profiteering when all others in business have had to take losses and have taken them. Now comes the telephone company with a rate that they must have more money to pay for, and they raise the rates at a time when the country is in the process of deflation. It is merely a trick and device to get as much out of the people as they can while the getting is good."

ONE INSTANCE CITED

By the maintenance of booths, the hotels have rendered the company a service they have not received any credit for, was the general opinion of the hotel men. On the contrary, they have had to pay the telephone company for the revenue they have given it. Metachan showed that the new rates at his hotel, by the pay phone business, would give the company a profit of \$10,000 annually. The cost of the actual business from the hotel and its guests would be about \$5000, he stated.

"This means we have to pay the company \$5000 for the privilege of turning \$10,000 into their coffers," he said. "They are under no expense in this business, for we charge them no rent to place the booths in our lobbies. Rather, we put them there as a convenience, not only to our guests, but to the public at large."

Showing that hotel rates had been raised from 50 to 225 per cent, instead of the announced average of 30 per cent, the hotel men maintain that they are the victims of discrimination.

PASS RESOLUTIONS

"There is no reason why we should have to pay the company for rendering service both to it and the public," said Manager Foley of The Dalles hotel. "We will take our telephones out first and I believe the people at large will follow our lead."

The resolution for rehearing read as follows:

"That the association does hereby protest against the enforcement of the order of the public service commission in granting unjust and unlawful increases in telephone rates in the state of Oregon, and especially as an unbearable discrimination against the members of this association.

"Be it further resolved, that the attorney for the association prepare and file a petition for rehearing upon the application of the Pacific Telephone & Telegraph company, either independent of or in conjunction with the city of Portland or any other municipality or agency asking for a rehearing."

Gordon Advocates Check on Bodies Levying Taxes

"Provision must be made to check the expenditures of tax-levying bodies or we will soon have a 5 per cent tax in this country," said Herbert Gordon, chairman of the house ways and means committee, at the recent session of the legislature, in appealing for support to the organization of a tax supervision commission at the forum luncheon of the Chamber of Commerce at noon today.

John H. Stevenson, former municipal judge, fired the opening guns for the Community Chest drive. He announced the mass meeting which will be held at the Auditorium Tuesday evening. He said that drive will be the first attempt to place public charities on a scientific basis and that charitable organizations will draw their money claims from the centralized fund.

Masonic Offices to Be Consolidated; Club Thrown Open

Consolidation of the offices of various divisions of the Masonic order will take place April 1 when the Portland Acacia club, the Masonic board of relief and the Masonic employment bureau open headquarters in the Multnomah hotel. The Grand Lodge of Oregon and the Grand Chapter of the Eastern Star as well as the Grand Commandery of Oregon already have rooms in the hotel.

The consolidation was approved by Masonic bodies in January as the most efficient system for keeping the business of the order. Heretofore the various offices have been scattered over the city.

One of the new features is the opening of the Acacia club membership to all Master Masons. The club has been composed of those whose members have been chosen from the body of the order. By a recent vote of all lodges all Masons are eligible. This new order affects some 7000 Masons in Portland alone.

The cards of visiting Masons will give them the use of the club rooms for one month after their arrival. Then they must pay membership dues.

Effort Is Made to Take Damage Suit From U. S. Court

Because less than \$2000 is asked by Henry Ross from the Pacific Steamship company, in a damage suit, counsel for Ross sought this morning to have the case removed from the federal court to the state court on the grounds that the company had no right to claim diversity of citizenship and keep the case in the federal court when the amount involved was less than \$3000. Ross is seeking \$2500 damages for injuries received June 12, 1920, when he was struck by a load of merchandise on the steamer City of Topeka. The Pacific Steamship company is incorporated under the laws of Maine.

Men in Professions Represent Choicest Minds, Says Bishop

"Men in the professions are members of the group of choicest minds. This is manifestly so when one stops to think that one who reaches a professional vocation has, through selective processes, outrun his fellowmen through the high school, college and professional school and reached a high point of mental training."

Bishop Sumner so introduced his subject, "What Religion Offers to Those in Professions," at the Hellig theatre today at the first of the noon-day services to be conducted daily by the Brotherhood of St. Andrew.

The bishop divided professional men into two groups, those who come most intimately into human life relationship—the ministry, teaching, medicine and social service—and lawyers and journalists—who have most to do with mass relationships. He pointed out that because of the personal touch with men, much might be expected of them not only in responsibility to the community but in professional honor and professional integrity.

"The former is based on absolute integrity, personal sacrifice and regard for human need," he said. "The second has to do with all that goes to make up moral relationships."

The bishop maintained that there can be no permanent influence or gain on the part of those professional life without a background of character and that there can be no real character without some form of religious experience.

Indictments Voted In Sugar Cases Are Dismissed by Court

Grand jury indictments charging violation of the Lever act were dismissed this morning by Federal Judge C. E. Wolverton against L. M. Starr, the Star Fruit Products company, Richard Adams, Parrot & Co., William Ehrman and Messon, Ehrman & Co., also an individual indictment against the Star Fruit Products company charging them with selling sugar without a license.

The dismissals were made by Assistant United States Attorney Lusk at the direction of the attorney general, in keeping with a recent decision of the supreme court, which held the law unconstitutional. The officials and their companies were alleged to have unlawfully purchased sugar in the California market, ostensibly for use in the Portland market, and then to have resold the sugar in the East in violation of the provisions of the Lever act.

By Daniel O'Connell
Dublin, March 21.—(I. N. S.)—Twenty-nine persons are known to have been killed in the bloodiest week end in Ireland since the present "campaign" began.
