MOHAIR SEASON TO OPEN WITH PART

THURSDAY DAIRY PRODUCE Butter. Eggs. Cheese.411/20 San Francisco88 c New York40%c

Those that have been most persistent on the bear side of the egg market up to this time have new turned to be bulls because they have accumulated some eggs. While no cards were reported out of the day by local houses, the higher price was being offered to those that wired or called.

One house was reported to be paying 21c a dozen for current receipts during the day, but this price was not general, therefore is not quoted in the regular report.

Portland has been the lowest egg market of standing in the United States recently, thanks to the bear interests who are now boosting the price because of the fact that they have plenty of eggs on hand.

There is no life at all in the market for mohair at the moment. Prices are considered around 20 @ 25c a pound, but these figures are on a nominal basis, in fact have no sales to substantiate them.

Rather liberal supplies of the 1920 shearing remain in the local mohair territory and this, added to the 1921 output, is not having the effect of stimulating prices or demand.

Wool market situation continues very disappointing not only in the West but in the East. While some business continues to pass in the Atlantic territory, practically all of it is at unsatisfactory values. Mills are buying, but only for immediate requirements, or for the orders for goods now on hand.

Liverpool a Buyer Of N. Y. Cotton

New York, March 24.—(I. N. S.)—Liverpool was a large buyer again at the opening of the cotton market today and chiefly responsible for an advance of 17 points in first prices here. The demand for the later months was supplied partially by brokers who act for Japaness interests and by room traders who had long cotton for sale. Private cables reported further improvements at Manchester.

At the end of the first 20 minutes cotton was only about 5 points over last night's close.

Offerings became heavy late in the day and prices broke to a new low ground. The close was steady at a net decline of 20 @ 33 points.

It is estimated that from ght to ten carloads have been shipped in this ay since the first of the month. It costs 56 way since the first of the month. It costs 56 cents to mail and insure a box of apples to any place in the state. The insurance is 3 cents a package. While the greater amount of the shipments have been in apple boxes, J. S. Dunbam has sub-tituted bushel baskets for a portion of the shipments he has sent out and finds it very satisfactory. The sontainer is a little cheaper and the cost of postage a little less, and the purchaser seems pleased to get a serviceable basket along with his bushel of apples. Mr. Junham has sent out about 2000 baskets, the first ever used in the Yakima valley for apple shipments.

Engene Eggs 15 Cents

Fugene, March 24.—For the first time in an unknown period of years, the shipping price of eggs in this city has gone down to 15 cents a dozen, while in some of the stores eggs can be purchased at 20 cents a dozen. At the same time butterfat has reached a record bottom price, the creameries offering 39 cents a pound, while a good grade of creamery butter can be bought in some stores at 43 cents a pound.

Spring Seeding Retarded McMinnville, March 24.—The frequent rains are retarding work in this section. Seeding of spring oats is late, and many farmers believe that April 1 is the latest date that oats can be sown and a good crop guaranteed. Boad work is also retarded, and orchardists are using the time between showers to do their pruning and spraying.
