

BOARD OF CONTROL LEASES STRUCTURE FOR USE OF BLIND

State Treasurer Hoff and R. B. Goodin, secretary of the state board of control, are in Portland today completing negotiations for a two-year lease on a three-story and basement house at Burnside and Grand avenue in which the state will conduct its employment institution for adult blind until the new buildings authorized for this purpose are ready for occupancy.

The building will be furnished for living accommodations for blind students and their families, in addition to the industrial training equipment which will be transferred to this institution from the Portland School for the Sightless. Twenty-five blind students will be accommodated as soon as this building can be prepared.

MYERS TO ACT

Superintendent Myers of the Portland School for the Sightless will be superintendent of the new state institution.

The Portland School for the Sightless is giving instruction to 12 adult blind students, according to Superintendent Myers. The school passed from the control of the city school board and became a state institution through the passage of an initiative bill of April, 1920. Equipment of the school in South Portland has been donated to the state by the school board, and will be moved to the new location.

The property leased by Hoff and Goodin is known as the LaFoy apartments. It is valued at about \$30,000 and is owned by M. A. Pierre.

SPECIAL FUND GRANTED

The state legislature granted an appropriation of 1-8 mill for new buildings for the school and 1-25 mill for maintenance. Funds from this source will not be available for another year, however, and a special allowance of \$15,000 was made to cover running expenses during 1921.

Superintendent Myers stated today that a 10-acre tract inside the city limits would be required for proposed new buildings. It had been suggested, he said, that the site might be donated by a public spirited owner.

There are many adult blind persons in the state who would be benefited by attendance at the school, and he urged that such cases be reported to him by phone at Tabor 9079 or by letters addressed to his residence at 1055 East Taylor street.

BODY OF MEUSE HERO TO REACH HERE TODAY

George Fuson Cook

The body of George Fuson Cook, University of Oregon boy, who was with the Fifth Marines, Company D, and who, after participating in four battles in France, was killed three days before the signing of the armistice, in the battle of the Meuse-Argonne, will arrive in Portland today for burial with military honors.

Cook was a graduate of Washington high school and was a junior in the University of Oregon at the time he enlisted. He was fullback on the 1918 football team and was a member of the Cross-Roads, one of the highest honors bestowed by the university.

In France he received several citations and decorations for bravery. He is survived by his parents who live in Portland, his sister, Mrs. J. H. Booher of Pendleton, and a brother, Lawrence Cook, who is attending the University of Oregon.

Funeral services will be held at Finley's chapel at 2:30 p. m. Saturday. A military burial will be held at Mount Scott cemetery.

W. H. Kelly Resigns

Olympia, Wash., March 31.—W. H. Kelly, chief auditor with the industrial insurance commission, has tendered his resignation, effective April 1.

MORE THAN 5000 VOTERS SIGN FOR WILLIAMS' RECALL

More than five thousand registered voters have signed the petition demanding the recall of Public Service Commissioner Fred A. Williams, according to a statement made today by Robert G. Duncan, chairman of the public service recall committee. One volunteer solicitor brought in 378 names Wednesday evening with a record of no refusals, he stated.

"Scores of citizens are asking for the privilege of carrying a petition through their communities, and the business houses are asking us to send around the petitions to them. It is apparent that the whole people have laid aside partisan prejudice and have united in an effort to obtain relief from the telephone tax."

OBSTACLES ARE MET

"Every obstacle is being thrown in our way," continued Duncan, "the latest of which is the announcement from the county clerk to the effect that the law allows him one day to check each 200 names on the petition, and that for all names checked above that number each day a charge will be made. At the rate allowed by law, it will take 200 days to check the names."

"The news that the telephone dividend has been increased from 8 to 9 per cent is the biggest boost that the recall movement could ask. The people understand that the insiders of the wire trust cleaned up millions yesterday on the fluctuations in the price of telephone stock."

Mr. Duncan expressed confidence in the recall landslide and predicted that, inasmuch as the recall committee is endeavoring to give the people who pay the bills representation, it would be through the ballot in the voting booth that this question of the telephone tax would be finally settled.

REHEARING URGED

Rehearing of the telephone rate case was recommended by directors of the Chamber of Commerce Wednesday, following consideration of a committee report submitted by David T. Honeyman, chairman.

"It is the opinion of the committee," said the report, "that the Chamber of Commerce lend its influence and, if necessary, its financial support, in joining

for a petition for a rehearing of the telephone rate case."

The sense of the committee was that every possible aid, both financial and technical, should be given by the chamber to the petition for rehearing, that all the facts be obtained, and that proper counsel be retained to handle the legal details. A letter has been sent by the Chamber of Commerce both to the public service commission and to the city council, setting forth the views of the directors.

Survey of Downed Timber in Olympics Finished by Planes

The air service has completed its mapping of the damaged timber area on the Olympic peninsula and the three forested mountains are returning from Camp Lewis to Sacramento today, according to Elmer Pendell, aerial observer from Eugene, who flew in one of the planes and assisted in the survey.

Pendell returned by train to Portland this morning and will continue to Eugene today, where he is enrolled in the University of Oregon. He was engaged in aerial patrol work for the forest service at Eugene last summer.

Pendell said the "spotted" areas showed from 10 to 80 per cent timber loss. Beginning southeast of Lake Quinault where were several patches of downed timber, the damage increased northward. On the lower part of the Clearwater watershed, the fallen timber was about 40 per cent. On the Bogachiel and Hoh watersheds was the damage the greatest and in some places, notably around Lake Tyee on the Soladuck river, reached 80 per cent.

All the way to Neah bay the aviators found fallen timber, with a considerable area down on Makah island. One of the planes did the photographing, the others did the mapping. Damaged areas were blocked out and the percentage of fallen timber marked on each block. These maps will be turned over to the forest service for use in determining the actual timber loss in board feet, and for making protection plans during the fire season.

Excitement Incident To Fight Is Cause Of Death of Bailiff

Heart disease, accentuated by the excitement at the Mickey Dempsey-Baby Blue boxing bout at Milwaukie, caused the sudden death of Thomas E. Fisher, bailiff in Judge Gatens' court, in the Milwaukie arena Wednesday night. He

apparently was in good health and made no complaint to his friends who accompanied him to the bouts and it was not until he fainted that his condition was noticed. He was carried to one of the dressing rooms by Judge Richard Deich, County Coroner Earl Smith, Frank Kendall and Dan Powers, all intimate friends. He was being revived when suddenly he relaxed and Dr. Smith pronounced him dead.

Adair Is Successor Of Marshall Hooper

Salem, Or., March 31.—The promotion of W. M. Adair to be assistant state superintendent of banks, succeeding Marshall Hooper, who recently resigned to engage in the banking business at Klamath Falls, was announced by the state banking board. O. B. Robertson of Condon, member of the state senate during the last session, was named to succeed Adair as bank examiner.

Berry Declines to Plead; To Be Tried

Hubert Berry, accused of assaulting Harry Vines, pawnbroker, with intent to rob, intended to plead before Presiding Circuit Judge Kavanaugh Wednesday afternoon, but later decided not to do so. His trial is set for April 12. Berry was originally sent to the insane asylum with the understanding that he was to be tried if he was ever set free. He escaped and was recaptured and brought to Portland for trial.

A Man Didn't Know

that he could invest such small sums. He thought he had to have about a hundred dollars, at least, before he could make an investment. He considered it an

IMPORTANT DISCOVERY and a very happy discovery, to learn that he could own the same security as the investor of great wealth, — by making small monthly payments of \$10 a share a month for our preferred stock.

Yes, he "guessed he could stand a couple of shares anyhow." You, too, will find it easy when you realize that 34c a day is enough to pay for a share in a short time.

Ask any employe of the Company or send in the coupon.
