

DRAINAGE COSTS FOR WILLAMETTE HEIGHTS \$18,200

The total cost of the entire sewer and drainage project for the preservation of sections of Willamette Heights from possible landslides, indicated by the earth movements of last February, is placed by City Engineer O. Laurgaard at \$18,200.

"I believe the owners of the property in that district could well afford to undertake the proposed work," says Laurgaard in a report to Commissioner of Public Works Harbur.

He recommends the working out of a tentative preliminary assessment for the various lots and parcels of land that would be included in the district, and that a meeting be called of all the property owners affected, in order that their sentiment may be obtained.

The engineer recommends a system of drains constructed in thirty-second street, carried on down to the old natural ground in such a manner as to catch the surface water as well as any underground spring water.

BERLIN NOTE HITS ANOTHER BARRIER

For interpellations, 22. The interpellations were then thrown out.

"If the German indemnity proposals are to be acceptable to France they must be larger than the offer made by the Germans at the London conference," declared Premier Briand in his speech.

Another great burst of applause greeted the premier when he referred to Premier Lloyd George's statement in the British house of commons yesterday that England would approve of the occupation of the Ruhr district of Germany May 1 if the German reparations proposals were unacceptable.

PREPARED TO SEIZE "We have taken necessary measures for seizures that are an indispensable guarantee of Germany's good faith on the matter of reparations," continued M. Briand.

"France and Great Britain were in full accord to the Hirth conference. I am fully confident that the United States only will take the initiative in transmitting the new German proposals."

The premier added: "We can no longer accept Germany's word. We must have acts. The German guarantee was addressed to the United States because Germany knew we had good reasons to doubt her faith."

After recalling that Germany had failed to disarm and try her war criminals, the premier declared: "Unless guarantees are given that this will be done, and unless payment is made by Saturday of the one billion gold marks that were due March 23, France will act."

EXPERTS PLAN OCCUPATION

French experts departed for London this morning to discuss further details of the plan for occupation of the Ruhr district. The French have taken strong hope from Premier Lloyd George's announcement in the British parliament yesterday that Great Britain will support France in the occupation of the Ruhr district if the German indemnity proposals prove unsatisfactory.

It has been definitely decided that the supreme council will meet in London on Saturday.

The first question to be taken up will be German reparations, and it is probable that the council also will discuss the Silesian plebiscite.

First Payment Is Made New Members By Oregon Dairymen

The first payment to the new members of the Oregon Dairymen's Cooperative league in zone 5, comprising Clatsop county and parts of Columbia, Waskiakum and Pacific counties, was sent out Monday, announced M. S. Schrock, manager.

The league operates on the pooling basis, whereby all members' products are sold by the league and the proceeds returned to the members after deducting operating expenses and a sum sufficient to pay for the plants in five years.

The dairymen in zone 5 became active members of the league March 1. The league makes a partial payment the twenty-fifth of the following month, this is their first pay day.

Final payment covering the balance due members on March milk and cream will be made as soon as all March cheese is sold and all accounts closed.

Tacoma Judge Gets Death Threat for Action in Bank Case

Tacoma, Wash., April 26.—(U. P.)—A threat to kill Superior Judge W. D. Askren because of his action in dismissing grand jury indictments against Ole S. Larson, president of the closed Scandinavian American bank of Tacoma, and Charles Drury, bank director, was received by the judge in his mail today.

The threat was written on brown wrapping paper and was signed, "A Depositor."

The letter reads: "Be careful with your decisions in the Larson and Drury cases. They should have heavy fines and prison sentences. Shoot straight, or I will. I can do better than the woman."

"The woman" referred to apparently is Julia Smith, now serving a term in the penitentiary for shooting and seriously wounding Askren last year while he was county prosecutor, following her conviction on charges of performing criminal operations.
