Centralia, Wash., June 11.—Fire of undetermined origin broke out this afternoon in the Centralia Mill Work & Supply company building, burning that structure to the ground, taking with it two small residence buildings adjacent and the mill office, causing damage estimated at \$40,000. The company was incorporated in February, with \$100,000 capitalization and the following six trustees: C. H. Post, N. E. Greenleaf, Frank Montgomery, J. L. Pitts, C. A. Doty and Roy W. Hedrick. It carried with it insurance on the building, machinery and equipment. William Smith and son, Neb Smith, owned the residences, which were insured at \$7000. The Centralia fire department kept the blaze from damaging numerous wooden buildings closely crowded together in the east of the N. P. tracks on Diamond and Gold streets. A strong wind caused the burning debris to fall blocks away from the buildings, and property within several blocks was kept watered with garden hose. This is the second large fire the city has suffered in two weeks, the first destroying the Sirtokin undertaking parlors and the Baptist church.
