### CHEESE MARKET IS HOLDING HERE COAST Grain Bags Will Be Smaller

Washington, June 13. — (WASHINGTON BUREAU OF THE JOURNAL) — Representative Sinnott has received assurances from Chairman Vestal of the house committee on weights and measures that exception will be made for the Pacific coast states in proposed regulation of the size of grain sacks in legislation now under pressuration. Asparagus supplies fair at \$2.25 per dozen unches.

### Wool Grower Is Advised Not To Hurry Sales

Sait Lake City, June 13.—D. D. McKny, president of the United States Farm bureau, in a statement, urged that the woolgrowers of that state use the Utah wool marketing committee as a medium for disposing of this year's clip. He declared the marketing committee had ample financial backing to advance practically every grower in vance practically every grower in the state from 8 to 12 cents a

"Some growers are not looking be-"Some growers are not looking beyond the temporary relief of a cash
advance to the lasting benefits of
cooperative marketing," he said.
"No grower need give his wool
away or sell at a loss through the
lack of financial help to tide him
over the crisis. Nor need he accept a low price because he has a
small clip of ungraded wool."

The general weakness was due largely to lack of confidence in trade conditions, as all other markets were lower, and following the decline in the east, prices slumped here. The largest receipts from outside points came from the North but there was no large surplus at any time. Storage demand for fancy butter was good all during the week, as was also demand for medium and undergrades. Storage holdings at San Francisco are 160,966 lbs. lighter than last year, while Los Angeles has 266,906 lbs. more. Seattle and Portland are over 400,000 lbs. short of last year. The closing tone was easy with some indications of still lower prices next week. Eastern Oregon millers have represented that sacks holding 60, 70 and 80 pounds should be allowed in making up standards, as with sacks holding this weight in wheat they can be used again for sacking bran and mill products, and an allowance of second-hand value can be made to the grower; by the miller.

## Cotton Is Higher At the Opening

New York, June 13.—(I. N. S.)—Cotton opened quiet and steady today, unchanged to 5 points higher. Improved labor advices from Great Britain with intimations that the troubles in coal and spinning industries were nearing an end, encouraged a little support from commission houses, in addition to which there was moderate buying for Japanese account and a demand from Wall street. This demand was supplied by the southwest and local traders.

At the end of the first 15 minutes the list was steady at about 5 points net higher. as steady at about 5 points net higher.
The market improved in the late trading.

Largest Strawberry Crop

Chehalis, Wash., June 13.—Willapa valley will harvest the largest strawberry crop in its history next week. Zack Shay, president of the Willapa Valley Growers and Canning association, estimates that there will be 4000 to 5000 crates yield this year, about 3000 to 4000 fore than last. The Marshal variety of berry is in prominence, with the Clark Seedling and Gold Dollar next. The growers are handling their crop through the association which, in turn, sells to the retailers. At least 100 more pickers will be needed in a few days. New York Metal Market
