CHERRY MARKET ELSEWHERE PROVES SOMEWHAT LESS INVITING

UNEASINESS SHOWN JAPANESE BERRY CHERRY PARADISE | CROP MONEY WILL IN BUTTER TRADE GROWERS BOOSTERS IS NOT FULFILLED

New York 36c Chicago 32 1/2e San Francisco ... 271/se

There continues to be a showing of uneasiness in the butter situation lo-cally. Demand is not nearly as keen as it was a week ago, this being reany long period.

No shading of prices is at present reported although there is an accumulation of offerings, which has a tendency to merely delay the day when prices must be cut. At least this is the way the retailers are looking at the situation. They are purchasing only for today's requirements and are very careful about their ordering.

sumers by the crate on the Yamhill street market.

On the East Side Farmers' market the Japanese interests appear to have some sort of working arrangement with Tamhill street houses. The latter dictate the prices that the Japanese shall ask the wholeasier, this price being as high is the consumers.

The East Side Farmers' market has been manipulated in this way for some days and its prices have been out of line with the market is generally. For that reason many of the dealers, who have been inclined to purchase the bulk of the stock would be sent to the canners, according to information received in their berry requirements there in the early morning are now secure direct shipments from the wholesslers who secure direct shipments from the country.

Last year the Japanese interests were dominated by a local canning company and the prices were feititious.

The Japanese were asking \$1.25 for the best berries Friday morning, while sales were made along Frent street at that price and on the public market as much as 15c lower for good quality.

Cherries Too Cheap Cherries Too Cheap

Roseburg, June 24.—Because of the lack of canning facilities and the low market price for cherries, between 10 and 25 per cent of the Douglas county cherry erop will not be picked this year, it is estimated. A few growers are shipping their cherries, but other claim that the market price is not high enough to warrant shipping. The majority of the crop will be sold on the trees to presons who will visit the orchards and pick the fruit there.

Average Crop of Wheat in Union

La Grande, June 24.—Present indications are that the wheat crop in Union county will be an average crop, providing another heavy rain falls. The fall wheat is heading out and will come through without another rain, but spring grain needs more moisture.

While the yield appears to be unusually heavy when the fields are viewed from the road-side, the grain is very thin in the center of many fields, indicating that there will be only an average crop. many fields, indicating that there will be only an average crep.

Because of more rainfall than usual, the crop in the North Powder section promises to be heavier than for many years, but in other places it will probably only be average. Rye sown in the fall in the North Powder section is seven feet tall in places and spring sown wheat, which is heading out now, is more than becaused.

Take All Serious In Wheat Fields Of the Valley

Take-all, the most dreaded wheat disease, is rapidly spreading in the vicinity of Junction City, according to Ira P. Whitney, county agricultural agent. It is a disease that at-tacks the roots of the plants and kills them quickly. It is thought to have started in Europe. Whitney recomemnds crop rotation as a cure.

market.

General situation indicated here is one of steadiness with a \$9 top in the swine alleys. In view of the fact that killers here continue to secure hogs from the Midwest and are paying more money to land such stock here, prevailing market values at North Portland are considered about \$1 too low.

Developments indicate that it is going to prove difficult to secure money for crop moving this season and most of the grain interests are therefore husbanding their resources to tide them over the difficult part of the season.

Wheat market is at this time showing a firmer tone, although recent local bids on the Portland Merchants Exchange have not reflected this situation. Cash markets in the East and Midwest are reported as in a healthy condition, with premiums available over the options, and export business is shown in both the East and in the West.

Yakima Cannery to Can No Cherries

Yakima, June 24.—While definite announcement has not been made, it is practically certain, that the Libby, McNeill & Libby cannery, located here, will be closed at least through the cherry season. The cannery opened Monday, offering the growers 4 cents for Royal Anns, but few would sell at that figure, and the cannery has been running on ishort supplies since the opening. Following a visit from W. H. Geisler of the San Francisco office and a conference here between him and George B. Kile, the local superintendent, it has bee upractically decided to close the plant through the cherry season. Manager Kile says that an announcement will be made today of the policy of the company in operating the plant this season. For several years the plant has put off a pack valued at \$1,000,000 to \$1,500,000 and has had from 250 to 400 employees on the payroll. Closing of the plant will cut off the earnings of hundreds of women and girls employed there.

Growers' Offers for Berries Is Refused

Brownsville, Or., June 24,—Roy Graves of the Graves Canning company, that has canneries at Woedburn, Silverton and other places, met with the herry and fruit growers of this vicinity and made the proposition that if Brownsylle people would erect a building he would supply people would erect a building he would supply machinery, can up this year's crop and market it at the best possible figures.

Tuesday evening the growers again assembled after Mr. Graves had gone and concluded not to accept his offer. Instead, they appointed a committee, consisting of Oren Stratton and R. H. Robertson, to negetiate with the Eugene Cannery and try to establish a market for Brownsville fruit there. The Graves company had a cannery here, but it was destroyed by fire last fall. all.

Raspherries and loganherries are beginning to ipen in this vicinity, and growers stand to lose hundreds of dollars unless a market can be sund immediately. The strawberry crop is a inancial failure, and the only sales have been o local buyers for family use.

ral Benson, then chairman of the shipping board, practically forced the shipboard vessels from competition foreign bottoms. Danish, Swedand Japanese jumped into the game and charters were opened at from 5 to 10 shillings less than the board rate. As a resul there has been a large number of board craft tied up at coast ports. The rate named for the Yosemite has not been made public, but is evidently under the established one of 65 shillings set by Benson. The Japanese have been taking grain for Europe as low as 55 shillings and four are now under charter for Portland loading.
