FAVORABLE TO ALMOST ALL CROPS N. PORTLAND HOG MARKET BASKET <text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text> RETAIL PRICES . PRICES ADVANCE AIDS GRAIN CROP FAST IN OREGON Cantaloupe prices should be chapper to the consumer as wholesalers reduced their prices 50 cents this morning on states containing 12 melons, or about 4c apicon. This should make about a 5-cent reduction in the retail price, as WEDNESDAY LIVESTOCK MARKETT

ESDAY DAIRY PRODUCTS Butter Eggs. Choose. 380 340 270 391/30 281/30 16 (50 411/20 411/20 220 380 556 556 420 500 18340 420 500 18340

Local butter market is very firm and indi-tions are that if may advance soon. Demand very good at present for high grade butter, aking dealers feel as though the price is too w. If local prices are not raised outide mar-its will take all the good butter off the Port-nd market, and nothing will be left here ez-t the off-score, undesirable stock. Eag market is also firmer, a 2-cent advance price being quoted by some houses. The the off-score, undesirable stock. Eag market is not well supplied. Dheese market is the same as Tuesday, with trade still watching Wisconsin closely. Poultry was score on the street during the Prices were unchanged.

Persona desiring information regarding any rket should write the Market Editor, Oregon Irnal, enclosing stamp for reply.

CANTALOUPE PRICES DECLINE The long expected and overdue decline in the price of cantaloupes came this morning when prices on flat crates declined 40 @ 50c each. A liberal supply of fancy ripe stock came for-ward. Standards and ponys are still scarce. First car of cantaloupes this season from the San Joaquin valley arrived in the city this morning.

ADVANCE IN DRESSED MEATS

firmer tone was displayed in the dressed markets, both weal and hogs showing a advance. A few more yeal were received usual, but the scarcity of the past few caused butchers to pick them up quickly, r than face another shoriage. Top yeal for 13 % @ 14 % c and top hogs from 13

BRIEF NOTES OF PRODUCE TRADE Dinuba watermelons for season pooled along street. Opening Car of

Aprice 3c pound. Apricots from The Dalles moving briskly, at \$1 in lugs and \$2 in four-basket crates. Raspherry market or 10c today. Berry mar-ket has been very irregular this year.

WEATHER NOTICE FOR SHIPPERS bureau advises Wednesday: Protect luring the next 36 hours against the aximum temperatures: Going north, northeast over S. P. & S. R. R., east to Baker, 90 degrees, and south 90 degrees. Maximum temperature tomorrow about 76 degrees.

San Francisco Barley Market San Francisco, July 18 .--- (U. P.)-Barley-Spot feed, per cental, \$1.10@1.15; shippin \$1.20@1.35.

Grangeville—Hot weather and good soil con-litions have produced crops, which in the eyes of growers, have never looked better, all over the plendid shape. Harvesting should begin short y and a bumpt crop is freely prdicted. Haying s now general all over this locality. General verage is considered as above normal.

inte spring. Drville-Rain is desired now by this territory, who state that ball

iy and a sumpt crop is freely prilicited. Haying is now general all over this locality. General average is considered as above normal. Metolius—Almost perfect weather conditions were reported in this territory of Central Oregon for the two weeks just past. Two light rains have fallen and farmers are now assured of one of the largest crops on record. Harvesting preparations are now general and should begin next week, ending a most successful year for Central Oregon growers. Ouiver—Condition of growing grains contin-us most favorable. Early spring sown grain is heading out well and a large crop is ex-poeted. A rain would materially assist some late worm grain which shows every evidence of good yield but is backward in seasonal aboving. Rye fields in some localities are being cut for hay and are returning splendid yields. A record breaking season can be expected from all the territory served by the Oregon Trunk. **Oregon Electric Raivers** is presend by the Oregon Trunk. **Oregon Electric Raivers** for all growers in this section. Haying is well under way and crop will be safely under cover next week. Fine crops are reported. All grain of be are splendid, with heary yield. Marketing although the acreage is smaller. All berry crops are well headed and are turning color and will be creage for cutting soon. Late positions are isoking better than at the same time a pear ago, although the acreage is smaller. All berry crops are splendid, with heary yield. Marketing some slight damage to hay is reported, due to a strain, but this damage to other by the benefit accruing to grain and berry fields. Better than are weakly engaged in handbrain this season's are reselved for those that are offered fromes and walluts are the isolendid condition, and are baily engaged in handbrain this season's are average errop is new indicated. Woodburn—Cameries and fruit pulse planta are baily to grain and berry fields. Better than a stering to grain and berry fields. Better than a stering to grain and berry fields. Better than a stering t the late spring. Orville-Rain is desired now by hopgrowers in this territory, who state that baby hops are beginning to muffer somewhat. All other arges would also be benefited, although no reports of damage have been received. No lice has been noted on hops and scarcely any spraying has been done. Dry weather can be thanked for that at least. Some cherries have been picked. but in general the crop is not heing harvested. due to the low prices current. All fruit looks well and if the market will steady down should return well to growers. Albeany-No change in good growing condi-tions is noted here. All grain, both fall and spring grown, show strong stands and color of the gest. The harvest new under way is show-ing better than normal yield, with exceptionality fine guality. Berry yields costinues very fine. With canners and packars busily engaged in put-ting up the roop. Hops are in the best possible condition arid only a low price can defeat cer-tain profitable returns to growers. Correllis-Growers continue scaling good re-ports from this territory. Both small grains and fruit crops, from present indications, should return fair profits to -farmers. Berries have been abundant and of good guality, and all puckers are working overtime to take care of the inge of the shares. A rain would establish, almost a total failure. A rain would destablish, almost a total failure and of finest quality. Bar-tering. Orais and should poter and othe reality erop indications premage an average part. Bar as marmal yields if present conditions con-tions. Corn books well, about all other ter-bar arges Desta and should return batter thas marmal yields if present conditions con-and will be heavy and of finest quality. Bar-Bar is to be expected. No damage to hay from rains a interported. Strawbartis returned an eccep-tionally large yield thi provided in the provided and the provided and the provided of the provided and the provided almuts are likewise light crops, due searly spring. All grain and hay et, are in solendid condition, and mforesen, should return better than Gardens in general are very good, unsurpassed. Hop yards indicate

anformer, eld. Gardens in second Hop Justable ality unsurpassed. Hop Justable s yield and with price now stable return a profit to growers. A heavy pro-trop is now safely under cover. woodburn-Optimistic reports still con-woodburn-Optimistic reports atill con-woodburn-Optimistic reports atill con-wide heavy and tree winnage a later All oth crop of splendid quality. Waconda-Hops in this neighborhood are re-ported as running lights in yield but of very rood quality. Very little lice in evidence, Clover own for seed, from present indications, absuld return an accellent crop. Hay of all kind yielded wary heary and is mearly all hearwested. Gmin copps are looking fine and rapidly turn-
