AUTOMOBILES—FOR SALE 800

AT THE COVEY MOTOR CAR CO. PLANT

How easy it is to pay from $150 to $200 too much for a used automobile through the simple factor of not getting a rebuilt and refinished car.

An exclusive used car dealer cannot afford to rebuild his cars and sell them at or below market prices.

It is only because we are depending on our new car sales for our profit and operate an elaborate used car department to further the sale of these new cars that we can afford to give so much value for the money expended.

Good cars priced so as to give good value sell with bargain store ease and the volume of business obtained this way does not limit the number of cars we can accept in exchange on our new car business. Our new car business, therefore, is brought to a maximum volume and our eventual profit is accordingly satisfactory.

DODGE BROTHERS MOTOR CARS

There is really no used motor car value at the present time to compare with that to be found in a used, rebuilt Dodge Brothers car. The present low prices as compared with the sterling quality involved establishes this enviable position.
