

C. E. HUGHES JR., SECRETARY'S SON, SEEING PORTLAND

Charles Evans Hughes Jr., a prominent New York attorney, is in Portland today on a vacation trip which is to take in the entire coast region.

Mr. Hughes, incidentally, is the son of one Charles Evans Hughes, secretary of state.

"I am proud of the family connection, of course," Mr. Hughes said, "but it would be a relief now and then to be known as—well, you get the idea."

Hence this introduction. With the New York attorney is Mrs. Hughes. They were found at the Portland hotel just getting ready to start on a trip over the Columbia river highway.

"Of course," Mr. Hughes said, "I haven't seen a great deal of your surrounding country yet, but the city alone is sufficient to make me regret that I haven't been here before."

"I am looking forward to the trip over the highway with pleasure. Everyone who has made it tells me it is one of the most wonderful auto drives in the United States, if not in the world."

The 1925 exposition was mentioned.

"It ought to do the city a world of good," said Mr. Hughes. "There are many thousands of Americans to whom it would bring the first conception of your wonderful climate and commercial possibilities."

Then he hurried away with Mrs. Hughes to see the Columbia.

STATE SECRETARY'S SON SEEING HIGHWAY

Road to Caves Will Be Ready Next Year; U. S. Lets Contract

Construction on the road from Holland to the Oregon Caves in Josephine county will begin at once, according to word received by the road and trails division of the United States forest service this morning.

The road extends eight and one half miles from the forest boundary at Holland to the Marble Halls of Oregon. It connects with the Crescent City-Grants Pass road and will open the cave district to tourist travel.

PORTLAND HAS SUNSHINY JULY

Perhaps it's a little mean to rub it in, but if you have any friends who are sweltering back East this summer you might send them these few facts regarding Portland's July weather.

The average temperature for the month was 65.7—or just .5 below the normal temperature of 66.2.

The highest temperature recorded was on July 7, when the thermometer climbed clear up to 89 for a few minutes.

The average high temperature for the month, taking the maximum each day, was 76.6.

The lowest temperature recorded for the month was July 3, when the thermometer went down to 46.

There were 14 days of complete sunshine.

There were 13 days of partial cloudiness.

There were four days which it might be called cloudy.

The total rainfall for the whole month was .54 inches, which is virtually none at all.

The mean per cent of sunshine was 81, or 10 degrees above the normal of 71.

The total number of hours of sunshine was 384 out of a possible 470.9.

Then get ready for visitors.

American Fishermen Hit by Canadian Law

Seattle, Wash., Aug. 3.—(I. N. S.)—American fishing boats owned by Seattle firms are planning either to operate out of Seattle, go out of business or change registry following unofficial announcement that the Canadian government may begin enforcement of the American-Canadian fisheries agreement in the near future barring fish from American vessels from Canadian ports and particularly from Prince Rupert, where the majority of the fishing fleet is under American registry.

Mrs. Agee Greets Her Prosecutors

Mrs. Ann Louise Agee and her father, D. J. Swine, appeared at the courthouse Tuesday afternoon to exchange greetings with the prosecutors who charged Mrs. Agee with the murder of her husband. The former defendant was smiling and apparently light-hearted.

She stated that she and her father were going "filivaring" to the coast, where they would stay for a few days with friends.

Aged Man Is Found Dead in Yard of His Home He Had 'Left'

Gottlieb Schmidke, 83 years old, was found dead under a clump of bushes in the back yard of his wife's house at 500 Miller avenue, Sellwood, Tuesday afternoon. There were no marks of violence and it is believed by examining physicians, that the old man died from natural causes.

A few months ago Schmidke is said to have had a slight quarrel with his wife with whom he had lived happily for more than a half century. He packed up his things and moved down town, where he has been living in cheap rooming houses. It is believed that he knew his death was pending and wanted to come back to the old household to spend his last hours, but false pride kept him from seeking a reconciliation with his wife.

Portuguese Revolt Brings Provincial Troops to Lisbon

London, Aug. 3.—(I. N. S.)—A rumor is current at Vigo on the Spanish-Portuguese frontier, that a revolution has broken out at Lisbon, said a Reuter dispatch from Madrid today.

The Portuguese army was reported to have occupied strategic points of the capital.

Direct messages from Lisbon, received here prior to the report of the uprising, said that extensive precautions were being taken to cope with an outbreak.

Troops were being called to Lisbon from all of the provinces. The regular troops in Lisbon were suspected of disaffection and were being confined in their barracks. Lisbon advices reported the city quiet.

Cloudburst Does Much Damage in Colorado Town

Canon City, Colo., Aug. 3.—(I. N. S.)—A cloudburst in the Royal gorge, coupled with heavy rains, sent a wall of water 14 feet high down upon this city Tuesday night. A large portion of the city is flooded and thousands of dollars in property damage incurred.

Scores of homes were deserted and their occupants forced to higher ground. Men wading in water rescued women and children from the flood.

Authorities were called upon to stop looting which began with the exodus of citizens from the south side of the city. The heaviest damage was sustained by the farmers and stock raisers.

No deaths have been reported.

RUSSIAN CHILDREN TO HAVE AID FIRST

By Ed. L. Keen United Press Staff Correspondent. London, Aug. 3.—America's food army is already mobilized, ready for its invasion of Russia to relieve the famine victims.

Supplies are stacked high in food warehouses in Central Europe, and the doors will be opened as soon as the soviet officials release American prisoners, in accordance with the demand of the United States, Lyman Brown, in charge of the relief work here, declared today.

Brown, with one member of his staff, is in Riga shortly to confer with Maxim Gorky, Russian novelist and head of the Russian relief organization.

As soon as the American terms are fulfilled, including agreement to the food administration's "bill of rights" in addition to release of the prisoners, active relief operations will start, Brown said.

"I do not anticipate any hitch in our preliminary negotiations with the bolsheviks at Riga," said Brown. "I expect we will probably feed 1,000,000 children. We are figuring now on the amount of transport necessary to transport the food from our warehouses to the famine districts."

THIRD INTERNATIONALE MAKES NEW PLOT CHARGE

London, Aug. 3.—(I. N. S.)—Offers of assistance by America and England to starving Russia "veils a desire for a counter-revolution against the soviet government," according to an accusation made in an official manifesto issued by the third internationale and printed today in the Daily Herald, organ of the British Labor party.

The manifesto adds: "Falling in a counter-revolution England and America will let the masses starve."

RED CROSS ACCUSATION DENIED

Washington, Aug. 3.—(I. N. S.)—Complete denial that the American Red Cross or any of its agents here or abroad have any assistance to the Kronstadt (Russian) revolutionists in their attempt to overthrow the soviet government, was made here today at National headquarters.

Inquiry Is Begun Into Divorces of Two Movie Stars

Providence, R. I., Aug. 3.—(I. N. S.)—Investigation by the Rhode Island Bar association of the divorces granted Pearl White and Grape Wilbur within two days of each other, will be undertaken, it was reported today.

The investigation, it is said, will hinge on the question of residences of the two picture players. If it is shown perjury has been committed against the state, Wright will begin prosecution, it is said.

One official, commenting on the divorces, said: "We don't wish to make Providence a laughing stock."

Miss White denied she intends to marry Wilbur.

Delinquent Clerks Off Linn Schools to Be Asked to Explain

Albany, Or., Aug. 3.—Eight district school clerks in Linn county have become liable to subpoena because they have failed to reply to requests from L. L. Gooding, auditor, and County School Superintendent J. W. Miller that they submit their books for auditing, according to the new state law. The delinquent clerks, it is expected, will be given three days of grace and then will be brought to Albany to answer for their failure. Gooding has completed the auditing of less than one fourth of the financial accounts of school districts in Linn county, the delay, he says, arising from misunderstandings that have led the clerks to err in making their statements.

Salem Odd Fellows To Erect Addition

Salem, Aug. 3.—Announcement of plans for a new three story and basement structure on a site adjoining the present lodge building on North Liberty street was made by Chemeketa lodge No. 1, I. O. O. F., of this city Tuesday night. The building is to cost approximately \$50,000. The other story will be used for lodge purposes, all of the remainder of the building being already under a 10-year lease to J. E. Lewis and L. R. Applegate of Seattle. Work on the new structure will be started at once.

His Child in Danger, Man Dies From Fear

San Francisco, Aug. 3.—(I. N. S.)—A three-alarm fire which swept the plant of the International Milling company at North Beach last night, caused \$250,000 damage and resulted in the death of Joe Partinico, who dropped dead from excitement following the rescue of his baby from a house adjoining the burning plant. Firemen rescued nine children from homes surrounding the blazing factory.

Bean Sustained in Columbia-Nehalem Railroad Litigation

According to word received this morning by Assistant United States Attorney Robert Maguire, the circuit court of appeals at San Francisco upheld the decision of Judge Bean in the case of the Columbia-Nehalem River Railroad company.

In August of last year civil suit was brought against the road under the provisions of the Interstate Commerce act for violation of the hours of service clause. It was charged that the road required telegraph operators to work more than the hours provided for under the act. Judge Bean in deciding for the railroad made the point that the road, extending some 20 miles from the lower Columbia river into the interior of the state was not an interstate carrier and did not come under the provisions of the act.

Aitchison Is Not to Resign, Says McNary

Clyde B. Aitchison is not to resign from the interstate commerce commission according to a message to J. N. Ford from Senator Charles L. McNary at Washington, D. C. The message denies a report published in the July 25 issue of the Daily Traffic World. "The report is absolutely without foundation and evidently was manufactured for some sinister purpose," reads the McNary telegram. Aitchison was appointed as a Republican by President Wilson in 1917.

Wilson and House Are Still at 'Outs'

Washington, Aug. 3.—(I. N. S.)—The few persons who are in the confidence of Woodrow Wilson disclaimed any knowledge today of the reported "reconciliation" between the former president and Colonel E. M. House. The impression prevails in Washington, however, that there has been no "making up." Colonel House has been in Europe for months in journalistic pursuits. There was nothing forthcoming today from the Wilson home regarding the story.

VISITORS ROBBED; SUSPECT IS HELD

"That looks like the thief," agreed Mr. and Mrs. H. H. Hostetler of Nampa, Idaho, when Walker Eccles was taken into the police station at 8:30 this morning.

An hour earlier Hostetler and his wife, who are attending buyers' week, were awakened in their room at the Briard hotel, Eleventh and Morrison. They saw a young man going out of the room.

They yelled for the police but the man got away, not before they got a good look at him, however.

Hostetler's coat with \$50 in cash and a gold watch were missing. The coat was later found in the gutter outside the hotel. Eccles was found near the hotel by Patrolman Chase and taken to the police station to face the Hostetlers.

INVESTIGATION IS SOUGHT

Washington, Aug. 3.—(U. P.)—Investigation of the drop in crude oil prices at a time when gasoline and other refined products of crude oil remain at high prices was demanded today in a resolution introduced by Senator King, Utah.

m. Sichel 331 Washington St. announces the new retail price of arrow, earl and wilson and ide collars to take effect immediately \$2.65 per doz. \$1.35 per half doz. 25c each

Why Your Engine Loses Power. If the lubricating oil film between piston and cylinder walls breaks down, power is reduced by loss of compression. Leakage of gases into the crank case also results. This contaminates the lubricating oil, and may lead to serious damage. With operating temperatures of the motor ranging from 100 to 3000 degrees Fahrenheit only an oil of highest lubricating value can maintain the essential film between moving parts. Cylcol is the new and different motor oil with greater lubricating value. Cylcol is made by the new Hexeon Process which removes destructive "sulpho" compounds. Oils containing "sulpho" compounds break down rapidly under engine heat, impairing the lubricating film. Cylcolize your motor today—flush the crank case—not with kerosene—and refill with the correct grade of Cylcol as shown by the Cylcol Recommendation Chart. Cylcol is 25c to 35c a quart according to grade. ASSOCIATED OIL COMPANY, San Francisco. CYCLOL MOTOR OIL FREE FROM DESTRUCTIVE 'SULPHO' COMPOUNDS
