Conference to Be Held to Consider P.R.L.&P. Program

Salem, Sept. 3 .- Engineers of the pubwork checking up maintenance and reconstruction work of the Portland Rail way, Light & Power company, will complete their task about September 10. As soon as the data thus gathered can be compiled a conference will be called for consideration of the company's rehabilitation program, past and future,

Such, in brief, is the reply of Fred G Buchtel of the public service commission to the demand sounded by Frank S Grant, Portland city attorney, that the street railway company be compelled to carry out its improvement program, as contemplated in the 8-cent rate order, or reduce its fares to the former status.

With a view to supplementing the work of the commission's engineers, Buchtel has also requested Franklin T. Griffith, president of the street railway company, to file with the commission a complete statement of the reconstruction and maintenance work completed, contemplated and in progress since June 15. 1920, together with the number of men so employed, the number of jobs at present actually under way and "such other data as is pertinent or determinating in relation to the matter at hand."

City Officials Get Notice to Clean Up Weed-Scarred Lots

And now the scythe and the rake for the horny hands of Dr. George Parrish, city health officer; George R. Funk, city auditor, and L. E. Latourette, deputy city attorney. They must cut their weeds on vacant lots or a fine or jail sentence stares them in the face. These three prominent factors in the municipal government were in the list of property owners whose lots were posted for clean-ing by the bureau of maintenance this

up process is in progress—eighth grade pupils are to be given a respite from any examination on the subject of agriculture. J. A. Churchill, state superintendent

of public instruction, in a letter to county superintendents throughout the state, calls attention to the fact that agriculture is still in the course of study heretofore would-be teachers have not been required to pursue this subject, a great majority of the teachers-especially in the rural schools—are not quali-fied to impart any knowledge on the particular subject to those under their instruction.

"We are very much interested in the teaching of agriculture, so much so that we would not like to have it so taught that the work is simply a farce,"

"I am sure that out of your experience you know that if any kind of a searching examination based on the text book in agriculture were given to eighth grade pupils it would mean a slaughter of the Innocent.

"The large majority of teachers in rural schools are high school girls who have never had a course in agriculture. It is manifestly absurd to require a pupil to pass an examination in a subect when the teacher who teaches that subject has not been required by law to make a preparation to teach the subeighth grade examination next January May or June in agriculture.
