

U. S. CONTROL OF FISHING URGED AS BAR TO 'POLITICS'

Government control of fisheries as the only way of eliminating politics from the fishing industry and affording proper protection for salmon is advocated by Andrew Naterlin, member of the executive committee of the American purse seine fishermen's league, who made a statement today regarding purse seiners' conditions off the mouth of the Columbia river.

Purse seiners have been the subject of attack from the state fish commission for several months. The contention has been made that unless purse seiners are removed the salmon industry will be killed in the Columbia just as the industry has been killed in the Frazier river.

Naterlin contends in reply to Carl Shoemaker, secretary of the fish commission, that the primary interest of the commission is to obtain revenue and not to obtain protection of the salmon. "Licenses issued to purse seiners in Washington are issued to individuals operating boats, while in Oregon they are issued in bunches of from 30 to 40 to some canneries," says Naterlin. "The state fish commission permits licenses to be issued to canneries which it knows are sending out foreigners to gillnet, troll or trap for them."

Special Rail Rate Offered Delegates To G. A. R. Meeting

Final arrangements are being made for the delegation of the G. A. R. from the department of Oregon to attend the national encampment to be held in Indianapolis September 25. The railroads have granted special rates for members and auxiliary organizations. Members, their wives, widows, dependents and army nurses of the Civil war will be allowed a rate of 1 cent a mile. Daughters of Veterans, Ladies of the G. A. R., Sons of Veterans and the Woman's Relief Corps have a rate of fare and one half. Tickets will be put on sale September 22 and will be good for 30 days from time of departure.

It was announced at the headquarters in the courthouse that all members wishing to take advantage of the rate must get identification certificates countersigned by the assistant adjutant general. The certificates are available now. It was also stated that the railroads had agreed to allow stop-over privileges en route home from Indianapolis and that a different route can be taken home with the exception of through California.

Trout Netter Fined \$75; Nehalem River Violations Halted

Netting trout in the Nehalem river will not prove such an enticing pastime for citizens of Tillamook and Clatsop counties following the arrest and conviction of Walter Nystrom of Birkenfeld on that charge. Nystrom was arrested at Birkenfeld last week by William Brown, district deputy game warden, and following trial at Astoria paid a fine of \$75. Brown reported the case at person at the office of the game commission Tuesday.

Ohioans Take to Portland Decide on Locating Here

J. G. Schenleiter and family have been wandering the country over the last year seeking a location. They came to the Portland tourist camp a week ago in their comfortable cottage-on-a-Ford and have located at 91 East Twenty-eighth street north. They left Toledo, Ohio, last September and think they have found the best place on earth.

George Shuler and wife and three boys started out from Yakima, Wash., last month for Portland. They tarried with friends at Olympia a few days and are here looking for a permanent location and want to put their three boys in school as soon as possible.

Labor day there were 40 new arrivals at the Portland tourist park, and every one was made welcome and speedily found a comfortable location within its hospitable enclosure.

G. W. Roylance, with his wife and five children, arrived Sunday from Salt Lake. They would have gotten to Portland sooner but they stopped to pick blackberries at several spots pointed out to them along the Columbia river highway, and it was such fun that they stayed along the roadside longer than they otherwise would have tarried had they known what a nice place the park in Portland is, and that they can run out to any one of a dozen patches nearby and get berries.

J. A. Hampton and wife from San Francisco came by way of Bureka and Trinity mountain river some of the worst roads in the state of California are said to be located. Mrs. Hampton drove over day, and said that he was gratified with the results obtained, as netting of trout was becoming altogether too popular along the Nehalem. Brown reports game conditions excellent in the two coast counties, and an exceptional number of Bob-White quail this year.

Exposition Is Best Advertising Magnet, Says F. Branch Riley

National advertising is the greatest need of the Northwest and the 1925 exposition at Portland is the greatest opportunity ever offered for focusing the attention of the world on the Oregon country, according to Frank Branch Riley, who returned Tuesday from a tour of several thousand miles through eastern and middle western states. Riley went to Chicago in July to secure the indorsement of the

FEELING AGAINST DEER SLAYERS IS HIGH, SAYS WARDEN

Charges of killing female deer and dogging deer has again been postponed, according to F. N. Brown, chief deputy game warden, who returned from a trip through the Willamette valley Tuesday.

Brown made the trip primarily to be present for the hearings against the five men, Harry Winkley, C. B. Irvine, A. A. Hull, Ray Reynolds and James Gallagher, all prominent in business life of Corvallis, and C. H. Reynolds of Bend. The process of obtaining a jury was delayed, so the case was postponed until September 15.

So that he would not feel that he had made the trip in vain, Brown filed a new case against the men, the charge being

disguising the sex of a deer. The chief deputy said that feeling is running high through the valley and that if convictions are not obtained against the more influential men who have been reported as violators of the law, Brown believes it will be almost impossible to obtain a conviction on any game violation case in the Willamette valley.

SERVES FINE IN JAIL. Kalamia, Wash., Sept. 7.—Walter G. Forth was fined \$35.00 on a charge of petty larceny and is serving out his fine in the county jail. G. Forth lives at Kelso.

TRIAL OF THE FIVE MEMBERS OF THE CORVALLIS ROD AND GUN CLUB WHO WERE AR-

rested near Philomath two weeks ago on charges of killing female deer and dogging deer has again been postponed, according to F. N. Brown, chief deputy game warden, who returned from a trip through the Willamette valley Tuesday.

Farmer Kills Wife, Self, With Shotgun; Jealousy Is Motive

Sacramento, Sept. 7.—(U. P.)—Earl A. Early, Fair Oaks farmer, blew off his wife's head with a shotgun and then turning the weapon upon himself blew off half his own head. The bodies, clad in their night clothes, were found in the kitchen early today by one of their children, 8 years old.

Jealousy was the motive, according to notes left by Early. In these he charged that his wife was intimate with a man when they lived in Montana and has corresponded with him since that time.

Early, 35, was arrested by police officers at Fair Oaks, 10 miles from Sacramento, after a search of the neighborhood.

Early's wife, Mrs. Mary Early, was found dead in the kitchen, her head blown off by a shotgun bullet.

Early's body was found in the kitchen, his head blown off by a shotgun bullet.

By-products of Thrift

Aside from material benefits of thrift in the form of accumulated funds for extra comforts and investments, there are some by-products that the United States National considers very important.

These are freedom from worry and anxiety; Self-dependence; efficiency in work, and general character development.

The spendthrift is often charming, but he lacks the strength of character engendered by denying himself now for future benefits.

"One of the Northwest's Great Banks"

The United States National Bank
Sixth and Stark

A Portland family was away on a two weeks' vacation. When they returned a quantity of valuable jewelry was missing. That's a warning to others to put such things in a United States National Safe Deposit Box.
