Garitson will be used as a test, Sidney Teiser, attorner for Garitson, told the members of the city council at a meeting held this morning.

Garitson was refused a license on the grounds that while he was an ablepodied man he claimed exemption from military service in the late war and remained in Portland.

He was subsequently arrested for operating without a license. FAVORS POLICE CLEAN-UP Teiser appeared before the council ask-

this kind I have found that the Greeks and Austrians were the most dangerous offenders of all our laws," Frank S Grant, city attorney said, "and I would like to have an expression from the federal courts as to whether the council can or cannot deny application on the grounds of not being a citizen of the United States. I am in favor of a police clean up of these people."

Perhaps this arises from the elaborate- day and this morning. ness of preparations being made to handle the conference itself, possibly from the great amount of attention being given it by the newspapers. "President Harding brought the cabinet and the empire into a conference on disarmaments and the opposition party of Japan, which I had urged to figh for disarmament, lost the greatest opportunity it has had for the overthrow

of the ministry." Ozaki said the Japanese delegation to Washington would be more influenced by the army and naval chieftains than by disarmament sentiment at home, or by any wish for world peace. Japan, since the Chinese war, has been suffering with egotism, Ozaki said. people still keep this egotism and many of our people, fanned in their opinions by such papers as the Kokumin and the Mancho, see imaginary enemies.
