

MANUFACTURERS' NEWS IS VICIOUS, STATES HAPGOOD

By Norman Hapgood
Universal Service Staff Correspondent
Washington, Oct. 12.—Tastes differ. Some people like to play bridge. Others follow the batting average of Mr. Sabers.

I like to read Ross and pamphlets, the Congressional Record and other documents in which those who suit you and me express their innermost thoughts or hide them. There is now on my desk a copy of the Manufacturers' News of Chicago. It says:

"The people of the United States are tired of labor unionism and trimming by persons in authority. We are almost to the open shop when it comes it is going to come with a big rush, but it may not come until after bloodshed, suffering and starvation have been brought upon our unfortunate people."

That is big business talking. It is going to have the shop that is closed to unions, euphemistically the open shop, and if bloodshed, suffering and starvation are incidents of getting it, why that is too bad, but of course such things will happen in war.

IT TAKES COURAGE
It takes courage to put this program through. The Manufacturers' News says: "Nearly every line of business needs men with backbone men who have the courage of their convictions—men who are not afraid."

There is no danger that the editors of the Manufacturers' News will be put in jail for inciting to violence. That is not the way the industrial conflict works. Mr. Daugherty told the newspapermen the other day that this administration does not spend all of its time talking about the Debs case. The observation was profoundly true. In fact I do not think the attorney general has said anything more indisputably true since he has been in office.

TO TAKE IT UP LATER
Some time—oh, a long time from now—I mean to go deep into the philosophy of all this. I mean to analyze the conduct of government whether by politicians or by classes, and illustrate by such picturesque cases as those of Mr. Debs and Mr. Debs. I think the difference will lead us far.

Just now I ask my readers to consider what would happen if a labor leader were to use such language as has just been quoted from the Manufacturers' News. Suppose that instead of a peace-at-any-price Christian-like Debs, we had a real bold fellow such as the Manufacturers' News, only on the other side.

This real bold fellow would say: "The people of the United States are tired of capitalism and trimming by persons in authority. We are almost to the closed shop and when it comes it is going to come with a big rush, but it may not come until after bloodshed, suffering and starvation have been forced upon our unfortunate people."

Halfway Interests Plan to Irrigate Malheur Acreage

Salem, Or., Oct. 12.—The Clear Creek Water Users' Association of Halfway has filed with State Engineer Copper an application for permission to appropriate water from the west fork of Clear creek and Clear creek reservoir for the irrigation of 473 acres of land in Malheur county. The estimated cost in improvements contemplated by the association, including a dam and reservoir, is given as \$4500.

Other water applications have been filed as follows: George W. Freer, Lake creek, covering the appropriation of water for the irrigation of a 10-acre tract in Jackson county. F. Stockwell, Cannon City, covering the appropriation of water from Blue gulch. Cold creek and other small streams for irrigation in Grant county.

J. M. Eads, Watson, covering the appropriation of water from the Owens river for irrigation of 30 acres in Malheur county at a cost of \$2000. William H. Crisp, Harper, covering the appropriation of water from Cottonwood creek for irrigation of 25 acres in Malheur county.

J. J. Nickerson, Speaker, Josephine county, covering the appropriation of water from Scotch creek and Spanish gulch reservoir to be used for power fluming purposes. The cost of construction of the reservoir and distribution system amounts to approximately \$2000.

The Cedar Creek Water company, Res. Yamhill county, covering the appropriation of water from an unnamed spring for municipal purposes at a cost of \$2300.

L. H. Fisher, Ironside, Malheur county, covering the appropriation of water from Cottonwood creek to be used for irrigation. Larsen & Forcia, Nul, covering the use of water from Elk creek for log pond and in fluming lumber in Lane county.

Municipal Judge Roseman Tuesday ordered three of the Chinamen arrested Friday night in connection with the long shooting which resulted in the death of Wong Ge, released after hearing the evidence, which he stated was insufficient to warrant murder charges.

Four other Chinamen who had been ordered held by the coroner's jury were bound over to the grand jury without bail. The four held are Toy Chong, alias Lee Sing; Harry Toy, Joe Sang and Huey Thee. The three released are Harry Wong, Harry Chin and Lim Gee.

A Supreme 3-Day Demonstration of Values!

A Sale of COATS

That Will Interest the Woman Expecting to Pay

\$75 to \$85

These We Offer for Three Days at

\$56.95

The Values Beggar Description! See Them in Our Windows!

The Smartest Sailors
\$5.98
Handsomely beaver-faced—there are ten smart styles to choose from—trimly banded with grosgrain—black, brown, navy, henna.

Carriers to Report Failure to Provide Proper Mail Boxes

Some Portland mail carriers take 600 steps a day. If one of these carriers were to be delayed 30 seconds at each stop he would be five hours late in reaching the last of his routes.
Of course, it is not likely that he ever will be delayed to such an extent. But Postmaster Jones, furthering the nationwide campaign of Postmaster General Will H. Hays, seeks to have Portland mail boxes arranged so there will not be any delay whatsoever.

S.O.S. cleans and polishes

The dirtiest, grasiest or most badly burned pot or pan is cleaned and polished with S.O.S. almost as easily as wiping it off.
S.O.S. Mfg. Co., S. F., Cal.

Hotchkiss Delivers First Man to Island

Archie Donsom, automobile thief, bears distinction of being the first man to be delivered to the McNeil island federal prison from Oregon since Major Clarence Hotchkiss has been United States marshal. Deputy J. K. Ross delivered Donsom there Monday, where he is to serve 18 months. Ross says the name Roy Gardner is a "sore spot" among the guards at the prison, and that there is no conversation any more about the escaped criminal.

Market Roads May Give Tramps Work

Fendleton, Or., Oct. 12.—Tramps will take a wide berth around Fendleton when passing through the country, if the action of the Umatilla county court has effect. Establishment of a chain gang to work market roads is the method adopted by County Judge J. M. Shannon, who declares too many prisoners choose the jail sentence instead of paying the fine.

Marion School Has Only Two Students

Salem, Oct. 12.—The Redne school district, near Detroit, is the smallest school in Marion county with an enrollment of only two pupils, a boy and a girl. The teacher, Miss Choral Ball, receives a salary of \$30 a month. In the Harmony district, just north of Monitor, the teacher receives \$100 a month for instructing three pupils.

Josephine County Rainfall Is Less

Grants Pass, Oct. 12.—The year from September, 1920, to September, 1921, brought the general average rainfall for Josephine county, according to reports kept at the county agriculturist's office, up to 29.97 inches. The average rainfall for this district, taken from figures since 1897, is 20.68. November of last year had the heaviest rainfall, with 7.25 inches recorded.
