

JUVENILE CLUB BOYS TO SLEEP IN SHOW PAVILION

Sleeping accommodations for 75 boys, members of juvenile livestock clubs in Oregon and Washington, are being prepared by George H. Buckler, superintendent of construction for the Pacific International stock show pavilion. Buckler is building three tiers of compartments, arranged like Pullman berths, along the wall of the mezzanine section in the new exhibits annex.

"There will be nearly as many girls as boys from the juvenile clubs," said General Manager O. M. Plummer last night, "and we are making provision to take good care of them and to extend every courtesy and encouragement to them. The girls will be cared for in private homes or hotels under proper chaperonage, and the boys will sleep in the berths now being built on the grounds. Meals will be served to the club boys and girls in a special section of the stock show restaurant, and a program of various educational features is being arranged under the supervision of State Club Leader H. C. Seymour. We look upon the splendid work of the boys and girls' livestock clubs as an invaluable factor in the development of the pure-bred livestock industry."

The stock owned by the juvenile club members will be displayed in a special section, and an attractive array of cash premiums and trophies will be awarded. Most of the youngsters who will attend have won the privilege of a week at the Pacific International Livestock exposition with all expenses paid, by scoring high points in livestock culture in judging contests staged in their home districts.

The Oregon Greeters, at a meeting in the Hotel Benson Tuesday night, pledged the aid of all the hotel managers and clerks in the state in the stock show management's campaign to increase the attendance this year to the 200,000 mark. The hotel men will call the attention of guests to the stock show and horse show attractions.

Two Evangelists of Presbyterian Church Named at Session

The Rev. J. M. Paxton, who has been supplying the pulpit of Amabel Presbyterian church for several weeks, was licensed as a local evangelist for one year in the Portland Presbytery, at the fall meeting Wednesday at the First Presbyterian church. Fred W. Davis, who has been doing ministerial work in logging camps for 13 years, was ordained as a general evangelist. The Presbytery also heard the report of the board of education in which small colleges were endorsed.

"It is the growing sentiment among the leading thinkers of our land that there is real value in Christian education, and a real danger in an education lacking positive religious grounds," the report stated.

Work on Highways Leading to Oregon Caves Progressing

Development of the Oregon caves of Josephine county has reached the state where one-third of the new road leading to the caves from Holland is complete, and materials have been packed in for the improvements on the cave itself this winter, reported Forest Examiner John D. Guthrie, who has just returned from Southern Oregon.

Two hundred men are now working on the cave road, says Guthrie. The road is complete a mile and one-half above Lynd's ranch. At present efforts are being concentrated on the upper portion so as to get as much accomplished as possible before the snow flies. It is expected the crew will be kept on until near the close of November.

Superintendent Daniels is rushing in the packing of ladders and other equipment for the caves. During the winter work will be carried on inside the cave, where workmen will be unaffected by the storms outside. Many of the wooden ladders are to be replaced by steel ones, openings are to be enlarged and other improvements made that will tend to the facility of viewing the caves.

During the season 1976 persons visited the caves, many of them from California.

Tourist Auto Camp At Rocky Butte Site Indorsed at Meeting

Establishment of a permanent auto tourist camp on a portion of the proposed Rocky Butte exposition site was indorsed at a meeting of the Columbia Highway Butte Site association Wednesday night by Dr. J. W. Morrow, president of the association. The proposed site consists of several hundred acres lying along Columbia river highway adjacent to and including Rocky Butte. Dr. Morrow also recommended that a large area of the site be purchased by the city and distributed among exhibiting states for building purposes.

Herman Blaesing and P. E. Struck, secretary of the association, were among the speakers at the meeting. It was announced that another meeting of the association would be held Friday night at Arleta library.

Contract Awarded For Structure at Park and Yamhill

Contracts were awarded Wednesday for the erection of a two-story concrete building with tile and terra cotta exterior at the northwest corner of Park and Yamhill streets for Kelly, Brantbarth & McLeod. The building will be 50x100 feet in dimensions. The ground floor will be divided into five retail shops and the second floor will be arranged to suit tenants. Plans for the building were prepared by John V. Benne and cost of construction is estimated at \$30,000. Lease on the site was negotiated by W. F. Merry.

LIQUOR POSSESSORS FINED
Geldendale, Wash., Oct. 13.—Dick Tuttle of Toppenish, Wash., and John

son Spedia, an Indian jockey, were each fined \$25 and costs after pleading guilty to a charge of having intoxicating liquor in their possession.

Alumni Homecoming Committee Is Named

Washington State College, Pullman.

Wash., Oct. 13.—Plans for the entertainment of W. S. C. Alumni at the annual homecoming day, November 5, are in the hands of the following committees: Entertainment—C. L. Hix, Dr. E. E. Wegner, Miss Hulda Schwoer; reception—Prof. N. J. Aiken, Daniel DuPuis, D. W. Thorpe; luncheon—Dr. E. F. Gaines, Bliss Dana, Miss Lella Hunt.

POOR PIANOS

You must live with your Piano a long time; choose it carefully. Look well into its character, for almost the meanest thing in the world is a mean Piano.

We know Pianos as we know people—better, in fact. If forty-six years of earnest, intensive study can teach us anything, then, we know Pianos.

We haven't a Piano that you can't trust, that we haven't been intimately acquainted with for many years, and we haven't a price—save for the addition of Eastern freight—that is higher than the same identical Piano would cost you on the floors of its manufacturer in Boston, New York, or Chicago.

THE LUDWIG PIANO

You may safely trust the Ludwig. More than twelve thousand families on the Pacific Coast have investigated, tested and compared the Ludwig with other Pianos of equal or higher price and after investigating carefully, bought it. Ordinarily, a jury of twelve citizens tries the case, finds the verdict. Cannot you, then, rest your case upon the unanimous verdict of twelve thousand?

Do You Look Forward To a Good Night's Rest?

Do you regularly anticipate a refreshing sleep? Or do you dread going to bed, only to stare, sleepless, at the walls? The difference between sleeping and staring is simply a matter of nerves.

When your nervous system is in a sound condition, you are certain to sleep well. But when your nerves are worn out and beyond your control, your rest is broken and your awakening leaves you languid and irritable.

Doctors know that much of the nerve disorders result from tea and coffee drinking. The drugs in these drinks over-stimulate, often causing the serious ills which result from disturbing the regular bodily functions. It is for your health's sake that many doctors now say you should quit

tea and coffee. Drink Postum, the delicious meal-time beverage instead! In flavor it is much like coffee.

Postum is fundamentally a nerve strengthener because it lets you get sound, restful sleep. Postum is a skillfully-made cereal beverage, and the secret of its popularity is its protection to health and its delicious flavor.

Ask your grocer for Postum. Drink this hot, refreshing beverage in place of tea or coffee for 10 days and see what a wonderful difference it will make in the way you feel.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health "There's a Reason"

Made by Postum Cereal Company, Inc., Battle Creek, Michigan

FREE At Your Druggist's THIS WEEK

Your druggist will give you a 15-cent trial bottle of Palmolive Shampoo. Accept it for your own sake and watch how your hair improves.

We Blended Palm and Olive Oils To beautify your hair

This free 15-cent trial bottle contains ample quantity for one luxurious shampoo, no matter how heavy your hair. Use it and watch results.

See how soft it makes your hair, and how fluffy. Admire the attractive, well-groomed gloss.

Notice how clean it leaves your scalp, how all scurf and dandruff are completely removed. Ordinary shampooing doesn't get these results. They are due to palm and olive oils.

Softening cleansers

Olive oil possesses softening qualities which neutralize the drying effects of washing. Palm oil contributes body, richness and lasting qualities.

In combination they produce a thick, mild, profuse, penetrating

lather which softens the scalp and reaches every root and hair cell. This lather loosens the dandruff scales, dislodges and dissolves them, leaving the scalp and hair free to function healthfully.

Prevents Baldness

This thorough removal of dandruff, which doctors call seborrhea, is most necessary, as even the accumulation on healthy scalps injures the hair.

The dry, oily scales clog the roots of the hair, preventing proper nutrition. Soon the hair begins to fall out. Ordinary washing has little effect, often seeming to make the condition worse.

The blend of palm and olive oils you get in Palmolive softens and penetrates the scales, loosening the cap-like accumulation.

Gentle massage forces it into the tissues of the scalp, leaving it healthfully purged and clean.

Silky texture and satiny gloss

Such scientific shampooing is the basis of beauty, for it keeps both hair and scalp in perfect health.

It stimulates circulation, which carries proper nourishment to your hair. It regulates the minute oil glands which give your hair gloss and luster. Hair shampooed with Palmolive is neither brittle nor oily, but soft, glossy and silky.

Present the coupon at once and prove that these statements are true. One shampoo with the blend of palm and olive oils begins the transformation.

FREEFLEX is the registered name of a soft wool canvas used in the fronts of our Hickey-Freeman Suits. Crumples without creasing, bends without breaking, flexible as a silk handkerchief and yet as smooth as the stiff canvas it supplants.

Just one more example of the Hickey-Freeman talent for creating something both new and necessary.

Adds to the cost of the making, but negligible in the price of the suit.

Ask to see a Hickey-Freeman Freeflex.
