

RECORD SHIPLOAD OF OREGON APPLES WORKING AT DOCK

The British ship Northumberland, one of the largest ships that ever entered the Port of Portland, is loading at terminal No. 4 the largest cargo of Oregon apples and pears ever dispatched in a single ship from the Northwest to Europe.

She will carry a total of 75,000 boxes. The apples are from Hood River and White Salmon. The pears are from the Willamette valley and Southern Oregon.

While the Northumberland, Norton, Lilly & Co., is loading for London, it is likely that the fruit she carries will be distributed over a considerable part of the United Kingdom.

Every box carries the name of Oregon to the English retailer and every wrapper is said to carry the name of this state to the person who buys an apple.

The fruit is carried in refrigeration space. The Northumberland has room for fruit in storage of approximately 3000 tons, measured.

Many Portlanders have visited terminal No. 4 that they might watch the boxes of fruit swung aboard in huge slings. It was long ago stated that with the completion of the Panama canal Northwest fruit would be sent in ships equipped with refrigerating facilities to the United Kingdom and Europe.

The war disturbed former plans which are now being realized in such a cargo as the Northumberland will carry. The opening of European markets to Oregon fruit is expected to stimulate fruit growing in Oregon and the Columbia basin generally.

A MESSAGE

The forthcoming special city election, November 15, 1921, for determining the first financial expression in support of the 1925 exposition, should command the attention of every patriotic voter of Portland and loyal resident of the state of Oregon.

Whether for or against the measure to vote a 2 1/2 mill levy for exposition purposes, it becomes the duty of every voter to register, that Portland may record its expression wholeheartedly and without equivocation, thereby removing every doubt as to the intention of the people respecting the progress of the state and its ability to act as host to the civilized world in 1925.

For public convenience, the registration books at the court-house will remain open until 9 p.m., Saturday, October 22, 1921. Register! Then vote on election day.

GEORGE L. BAKER, Mayor.

Done at the city hall this 21st day of October, 1921.

SCHOOL TAX VOTED

Vancouver, Wash., Oct. 21.-County School Superintendent Bennett has received notice that Yacolt voted a special 10-mill tax for school purposes in addition to the 10 mills levied by the county commissioners.

The vote was 58 for to 39 against. An election held August 9 on the same proposition resulted in its defeat by a vote of 43 for to 58 against. Yacolt has a four-year accredited high school course in addition to the grades.

Portland Man Buys Interest in Sawmill; Will Resume Soon

Ridgefield, Wash., Oct. 21.-(U. S. S.)-Harold O'Neill of the Peck-O'Neill Lumber company of Ridgefield, has disposed of his one-half interest in the sawmill to H. C. Claiborne, Jr., of Portland. The deal was consummated last week and the new manager assumed his duties Monday.

Mr. O'Neill has been connected with the concern for the past one and one-half years and came to this place from Portland. The mill has a daily capacity of about 55,000 feet of lumber and when running full blast furnishes employment to about 20 men. It is located on the Oregon-Washington Railway & Navigation company's spur and Lake river, a tributary to the Columbia.

The mill has been idle since last June, but will resume operation shortly. Mr. Claiborne is president of the Ridgefield Light & Power company. The O'Neill's will spend the winter at Portland and next spring will enter the lumber business again. The new member of the firm, Mr. Claiborne, is the son of H. C. Claiborne of Portland, manager of the Clarke County Timber company. The name of the local lumbering industry was long known as the Ridgefield Lumber company.

Special Round-Trip Fares to Football Games Given by O. E.

Proposal has been made by W. D. Skinner, traffic manager of the S. P. & S., to place in effect special open fare rates of one and one-half times the one-way rate for the round trip to all football games in Oregon this fall.

The first game to enjoy the benefits of this rate would be the Oregon-Washington game in Portland, October 29. The rate would be made applicable to the Oregon Electric from Eugene. The second game to obtain special rates would be the O. A. C. U. of game at Eugene, November 13.

Skinner says he has made this proposal but has made up his mind that the rates will be made effective, whether other roads agree or not.

USE BOX CARS TO TRANSPORT APPLES BUILDING GAIN IS GOOD AT CHICAGO

Although the Great Northern railroad has decided to accept box cars loaded with apples at the carrier's risk of over-heating and freezing, the Union Pacific and Southern Pacific systems have not found it necessary to make a similar movement as to their shipments.

The Union Pacific has been sending out several trainloads of box cars loaded with apples but they are handled at the shipper's risk. The Great Northern has been the first to depart from this method of handling so that relief may be afforded the Wenatchee valley shippers.

"Such good performance has been maintained by our refrigerator service that it will probably not be necessary for the U. P. to assume the risk on such shipments," said H. E. Lounsbury, general passenger agent of the O-W-R. & N.

Wenatchee, Oct. 21.-"It seems almost too good to be true," was the way President Lounsbury of the Great Northern Valley Traffic association described his view of the decision of the Great Northern railway to accept box cars loaded with apples at the carrier's risk as to over-heating and freezing.

This same sentiment was echoed by practically every other apple shipper or grower in the city who was interviewed here. All of them united in giving full credit to the officials of the Great Northern for the sincere efforts being made by them to solve the apple transportation problems of the district.
