ISTORY has been dramatically colored by the contrasted origins of persons Opportunity has elected to positions of world power and prominence. She has drawn from the humblest of peasants and from among those endowed with every advantage of circumstance. France ruled for a period by a little Parisian milliner. Washington, wealthy, accomplished, the flower of intensive and aristocratic culture, discerning the flash of Opportunity while enduring bitter hardship throughout the terrible winter at Valley Forge. The destinies of the great British empire directed today by the "little Welshman," Lloyd George, who has pugnaciously fought his way up from the most obscure antecedents.
