By J. Bart Campbell Washington, Nov. I.—(I. N. S.)—A sarge by Senator Watson (Dem., Ga.) that American soldiers were summarily ordered hanged by their officers during the world war, day after day, and with-out court-martial or any form of trial, plunged the senate into a turmoil of acrimonious debate today and halted con-sideration of the pending compromise tax bill.

Challenged by Senator Wadsworth (Rep., N. Y.), chairman of the senate military affairs committee, as to the accuracy of his charge, Senator Watson accused him of "assuming a supercilious and discourteous attitude," and defied him to disprove the charge. him to disprove the charges. Watson dramatically displayed a photograph of what he declared to be "one of those gallows, upon which 21 white boys already had been executed at sun-rise when the photograph was taken and there were others waiting in the camp jails to be hanged morning after

A motion (made by Senator Lenroot (R., Wis.) that five senators be appointed as a special investigating com-mittee to invite Senator Watson to fur-nish proof of his charges was adopted by a viva voce vote. Watsen also alleged that "a private soldier was frequently shot by his officers because of some complaint against

the officers' insolence." OFFERS EVIDENCE "'Hard Boiled' Smith was not alone in his savage treatment of the men in his power when he was so far away that he did not believe his atrocious treat-

to America." Watson added. "Do you mean to charge that American soldiers were hanged from gallows by their officers without court-martial or any other form of trial?" inquired Senator Spencer (Rep., Mo.).

"I stand ready to offer evidence to sustain the charge," Watson replied. SENATOR'S SERIOUS CHARGES

POSTAL CO.'S SUIT **AGAINST HIGHWAY BODY COMMENCED**

suit brought by the Postal Telegraph company against the state highway comnission, started this morning in Federal Judge Wolverton's court. A. B. Richards of San Francisco, superintendent of the Pacific division, testified that the present telegraph line between Port-land and Astoria is not able to handle

the volume of business.

He declared it would be impracticable for his company to construct a line of poles along the lower Columbia river highway on the same side of the highway now used by the Pacific Telephone & Telegraph company, as the poles would have to be placed so close to the

pavement as to make them a hazard to automobile traffic. The telegraph company seeks an injunction against the highway commission to prevent it with interfering with the erection of a pole line from Astoria to Goble on the river side of the highway. The commission contends that erection on the river side would man the beauty of the roadway. The tele phone line now occupies the south side Both the commission and telegraph
