

### FLEET ATTORNEY TRAINS HIS GUNS ON SHIP BUILDERS

Washington, Nov. 2.—(WASHINGTON BUREAU OF THE JOURNAL)—Wood shipbuilders seeking pay for plant amortization were assailed as a "thunderbolt" by the fleet attorney today before the shipping board's commission on claims.

"Let them be accountants, not pikers!" exclaimed Attorney Goldsmith, representing the emergency fleet corporation in opposing the warrenter claims. This is a conceded case. Amortization was not in their minds when they were making these contracts. They have conspired, hypnotized themselves.

Describing the conduct of some 30 shipbuilders gathered at Philadelphia during the war to obtain further contracts the shipping board attorney said they "cut up so rough" they had to be warned by Vice President Coolidge of the fleet corporation. He said they were a "hazling party" pinching, arms-length dealing" crowd.

All these impositions were denied by attorneys for the shipbuilders, who said that Hurley and Piaz and other high officials of the shipping board could testify whether the wood shipbuilders comprised a ring to hold up the government, or were actuated by patriotic motives.

A threatened controversy over their patriotism was cut short by Judge Meals, chairman of the commission.

"I do not understand that patriotism is an issue," he said. "Today's hearings were on claims of the Tampa Dock company, which built the Ferris type ships at Tampa, Fla., and has submitted claims typical of others throughout the country, so practically all questions will be considered in the one case. Affidavits of wood shipbuilders were presented representing Former Chairman Hurley of the shipping board as telling them they were assured of work for five years in the Southern yards, because applications were on file for work which would be released when the government program was finished. The hearing is expected to last several days."

**WHEREVER** you have linoleum, congolesum or oilcloth in your home, varnish it with Valspar.  
You will be delighted with the result. The Valspar will not only brighten it up, but will make it last a great deal longer because it will take much of the surface wear and absolutely prevent the penetration of moisture.

**VALENTINE'S VALSPAR**  
The Varnish That Won't Turn White

And beware of this: Don't be led into using any ordinary varnish on linoleum. You must have the washable, waterproof varnish that will not turn white—Valspar!
