

NEW PREMIER JAPAN CHOICE OF LIBERAL PARTY

Opposition, Inactive at Present, Said to Be Planning Attack; No Immediate Cabinet Change.

By Clarence Duboss
Tokio, Nov. 12.—The opening of Baron Korekiyo Takahashi as premier means a victory for the Setyukai, or Liberal party, in Japan.
The cabinet will not be changed for the present, it was learned today, although it is thought probable that a number of cabinet changes will be made later on.
At best, however, the political situation in Japan is uncertain. Although the opposition is remaining inactive at the present time, it is known to be preparing an onslaught on the new premier and his cabinet.

OPPOSED BY PRESS

Even in event of the success of this move on the part of the conservatives, it is not believed that Japan's foreign policies will be changed, but domestically such success would have far-reaching effects.

Considerable newspaper opposition is being voiced to Takahashi. Several papers are blaming him for the present financial and economic depression.
Noda, leader of the southern Setyukai, and Takahashi, leader of the northern group, are each struggling for control and leadership of the complete party—something which only Premier Hara possessed heretofore.

This is regarded as a most hopeful sign by the conservatives who are planning to make the most of the opportunity.

KNOWN AS ECONOMIST

Takahashi, who was finance minister in the Hara cabinet, is recognized as one of the foremost economists in the Far East and has opposed the plans of Japanese militarists regarding China.

The new premier is well known in the United States, having visited that country in 1918 to handle negotiations for Japan growing out of loans made during the Russo-Japanese war. At that time he was vice governor of the Bank of Japan.

The political complexion of the government, which has been functioning under Acting Premier Uchida since Hara's assassination, are expected to be changed to any great extent.

making an indescribable din. Horns and bells will puncture the night.

RED FIRE GALORE

Red fire will throw a lurid light in the heavens. It will blaze from the tops of prominent buildings as the parade passes by, a fireman in charge as each great candle is lighted. The Red Fire is donated by the building owners and this feature of the parade has the sanction of the fire marshal.

Chairman Hofmann has made extensive preparations to handle the crowds Wednesday night. There will be 120 police along the line of march. Besides, Sheriff Hurlbut has assigned his motorcycle men to handle any unruly group of 25 officers will assist, together with the constable's force.

Foreign groups will be prominent in the parade. The Scandinavians, Swiss, Italians, Greeks and Chinese are already preparing unique entries and others of foreign birth will join. Civic clubs, too, are active and committees are searching the shops for novelties in noise-making devices. The stores are already ordering new consignments to be rushed here for the occasion. Railroads, too, are giving the fullest cooperation to make the parade a big success.

COMMITTEES NAMED

Chairman Hofmann has as assistants on the parade committee W. C. Long and Harvey Wells, while Mayor Baker is grand marshal. Mr. Hofmann has named the following chairmen in charge of the various parade divisions:

HARDING SOUNDS KEYNOTE IN HIS TALK AT PARLEY

Washington, Nov. 12.—(I. N. S.) President Harding delivered the following address at the opening of the Arizona conference here today:

Mr. Secretary and Members of the Conference—Ladies and Gentlemen: It is a great and happy privilege to bid the delegates to this conference a cordial welcome to the capital of the United States of America. It is not only a satisfaction to greet you because we were lately participants in a common cause, in which shared sacrifices and sorrows and triumphs brought our nations more closely together, but it is gratifying to address you as the spokesmen for nations whose convictions and attending actions have so much to do with the weal or woe of all mankind.

It is not possible to over-appraise the importance of such a conference. It is no unreasonably boastful disparagement of other nations which, though not represented, are held in highest respect, to declare that the conclusions of this body will have a signal influence on all human progress—the fortunes of the world.

SEES AWAKENED CONSCIENCE

Here is a meeting, I can well believe, which is an earnest of the awakened conscience of twentieth century civilization. It is not a convention of remorse, nor a session of sorrow. It is not the meeting of victors to define terms of settlement. Nor is it a council of nations seeking to remake humankind. It is rather a coming together, from all parts of the earth, to apply the better attributes of mankind to minimize the faults in our international relationships.

Speaking as official sponsor for the invitation, I think I may say the call is not of the United States of America alone. It is rather the spoken word of war-weary world, struggling for restoration, hungering and thirsting for better relationship; of humanity and crying for relief and craving assurance of lasting peace.

WORLD'S ASPIRATIONS

It is easy to understand this worldwide aspiration. The glory of triumph, the love of liberty, the devotion of country, the pang of sorrow, the burdens of debts, the desolation of ruin—all these are appraised alike in all lands. Here in the United States we are but fresh from the burden of an unknown American soldier, when a nation sorrowed while paying him tribute. Whether it was spoken or not, a hundred millions of our people were summarizing the inexcusable causes, the incalculable cost, the unrepeatable sacrifices and the unutterable sorrows and there was the ever-impelling question: How can humanity justify or God forgive? Human hate demands no such toll; ambition and greed must be denied. If misunderstanding must take the blame, then let us banish it, and let understanding rule and make good will be rampant everywhere.

All of us demand liberty and justice. There cannot be one without the other, and they must be held the unquestioned possession of all peoples. Inherent rights are of God and the tragedies of the world originate in their attempted denial. The world today is infringing the enjoyment by arming to defend or deny, when simple sanity calls for their recognition through common understanding.

Out of the cataclysm of the World War came new fellowships, new convictions, new aspirations. It is ours to make the most of them. A world staggering with debt needs its burden lifted. Humanity, which has been shocked by wanton destruction, would minimize the agencies of that destruction. Contemplating the measureless cost of war and the continuing burden of armament, all thoughtful peoples wish for real limitation of armament and would like war outlawed. In soberest reflection the world's hundreds of millions who pay in peace, and die in war, wish their statesmen to turn the expenditures for destruction into means of construction, aimed at a higher state for those who live and follow after.

PEACE NEEDS LEADER

It is not alone that the world cannot readjust itself and cast aside the excess burdens without relief from the leaders of men. War has again progressively cruel and more destructive from the first recorded conflict to this pregnant day and

Hawaii's School Enrollment Grows

Honolulu, T. H., Nov. 12.—An increase in the enrollment for the school year of about 3000 pupils for the entire territory and about 2250 for the city and county of Honolulu over last year's figures is estimated by local officials of the department of public instruction. Enrollment in the Honolulu public schools for the last school year was 12,745 and in the entire territory 41,151. There is also an increase of 100 teachers for the territory, bringing the total up to 1400 for the year.
