

RAILWAY UNIONS READY TO REOPEN FIGHT ON WAGES

By Alexander F. Jones
Special News Staff Correspondent
Chicago, Nov. 15.—Railroad brotherhoods are ready to re-open the fight with the executives over wages and working rules at the drop of the hat. Two of the big transportation unions made this clear here in two hot meetings, at which it was said that the declared intention of the carriers to post notices of wage cuts this week is a challenge to the men to strike.

TO NOTIFY BOARD

The Brotherhood at the second meeting also framed a resolution which is expected to be adopted, notifying the railroad labor board of an "irreducible minimum" that will be acceptable to the men on working rules.

Many of the general chairmen at the meeting spoke with great bitterness, severely criticizing Warren G. Stone, chief of the engineers, and W. S. Carter, president of the firemen, for accepting the truce offered by the rail board when the strike order was withdrawn five weeks ago. Both Stone and Carter were present.

Much of the time of both meetings was devoted to discussion of the rules which, according to speakers, the railroads are gradually modifying until "we soon will be back where we were 30 years ago," according to speakers.

STRIKE THREAT SEEN

The calling in of general chairmen of the big unions from all parts of the country is considered in railroad circles as being indisputable evidence that the unions are preparing for a revival of the strike threat. The resolution to notify the railroad board of what will be accepted as working rules which had not been brought to a vote here Monday night, was also regarded as a war threat, as none of the rules affecting these organizations has yet been handed down.

The haul was set by Deputy District Attorney Stockman at \$1000. Myers' Claim for Back Salary Will Soon Get Hearing

Washington, Nov. 15.—(WASHINGTON BUREAU OF THE JOURNAL).—The case of Frank S. Myers, formerly postmaster of Portland, Or., who seeks to compel the government to pay him back salary from the time he was ousted from office, is expected to be called for argument in the United States court of claims in a week or 10 days. Myers' contention is that he could not legally be "fired" without the consent of the senate before the end of his four-year term, and that he is therefore entitled to pay until that time. A supplemental complaint filed by his counsel covers the time between the date his complaint was originally filed and last July, when the four-year period expired. "The testimony has been taken by deposition. There is no dispute as to the facts. The government denies that he is entitled to pay until the date of his removal from office. The total of his claim is about \$10,000.

Leniency Is Shown After Indictment

Hood River, Nov. 15.—Al W. Bishop was indicted Monday by the grand jury on a charge of using a dangerous weapon on Manager A. W. Stone of the Apple Growers' association, due to altercation over accident insurance. The grand jury recommended leniency on account of the accused man's age and family. Later in the day he pleaded guilty and was sentenced to six months' imprisonment by Judge Parker. In line with the grand jury's finding he was paroled.
