

# WOERNLE'S ACT DISLOYAL TO U. S., FEDERAL CHARGE

Joseph Woernle, former Austrian consul at Portland, is charged with sacrificing the interests of the United States to the interests of Germany in a memorandum which United States Attorney Humphreys filed Tuesday with Federal Judge Bean. The government is asking cancellation of Woernle's citizenship, because he is alleged to have assisted Hans Boehm, a German spy, in securing passports to Germany during the early stages of the World war.

"Woernle was willing in order to aid Germany to put the United States in a difficult and dangerous position," says the memorandum. "This was a clear act of disloyalty to the United States. His act in lending his name, his passport and his cloak of American citizenship to a German agent then in this country, who desired to enter the belligerent zone, was a clear breach of his duty to the United States. . . . No reasonable American can doubt but that his oath of allegiance was mere lip service and had no responding echo in his heart."

The action against Woernle is merely civil. He cannot be tried criminally for his alleged acts, owing to the statute of limitations.

## Many ex-Service Men Interested in Land Settlement

More than a dozen applicants for additional information about the State Chamber of Commerce plan for making the loan features of the state bonus act available for ex-service men without funds have visited the State Chamber already this week. Each of the applicants was anxious to return to the farm, but did not have funds or property available to permit him to take advantage of the loan feature. The Squaw Creek irrigation tract is the only one which has been provided for the settlement plan, although several other large land owners have agreed to cooperate in making the plan a success. The State Chamber and the land committee of the American Legion are joining in an effort to bring other districts into the settlement plan.

## Eastern Railroads Approve New Rate

Eastern railroad lines have concurred in the new rate of \$1.20 per hundred on the plate moving from Eastern territory to the Pacific coast, according to advice received Tuesday by the freight department of the Union Pacific system. This is a reduction of approximately 80 cents per hundred on present rates. R. H. Countess of the transcontinental freight bureau will make request for short notice application of these rates so they will be effective in-time for the canning season.
