# STORE FOR DAIRIES

Oregon Agricultural College, Corval lis, Dec. 30 .- A bright future was predicted for Oregon dairymen by Dr. Hector Macpherson of the bureau of markets at O. A. C. at the Farmers' week general assembly. He predicted that the dairymen will form an organi-zation to take the place of the Oregon Dairymen's Cooperative league.

The immediate future is chaotic, he admitted, but the movement is not going to "down" by any means. Eight reasons for failure of the league

as given by Dr. Macpherson, were: Impossible marketing situation for fresh milk and cream in zone 1, delay in getting a decision on the marketing agreement, financing of the by-products corporation, poor management, defects in the plan of organization, keeping the membership in the dark, organized opposition and storage problem. MEMBERS NOT SATISFIED .

"The league was first incorporated five years ago as an association of dairymen producing for the fresh milk ganization was able to bring the price up to \$2.80, and, somewhat later, \$3,20 per 100 pounds.
