

### DEBATE JAVELINS ARE DRIVEN HOME, TOPICS OPPORTUNE

Washington, Jan. 4.—Here are some splinters caught from the timber of recent congressional debates dealing with timely topics.

#### PACKERS' CONSENT DECREE

Representative Schall, R., Minnesota—Now that the packers' control bill is a law, and by its federal trade commission and its incriminating evidence against the packers' control bill, the packers are seeking to destroy the consent decree around which the control bill was framed. Congress in passing this consent decree, if we do not stop this thing now it will not be very long before the packers will be in a position to install a chapter of the Elks lodge, the figure jumped to \$300.

#### CANALS AND RAILROADS

Representative Griffin, D., New York—No canal in the United States pays today. There are four reasons against the parcel post. They were the American Express company, the United States Express, the Adams Express and the National Express. Now, there are 400 reasons why the canal do not pay, and if you take a list of the railroads of the United States you will find those reasons in detail.

#### AMERICA'S FOREIGN LOANS

Senator Harris, D., Georgia—I grow up in a part of the country devastated by war, and I sympathize with the people of those foreign countries in the condition in which they find themselves, but the people are not going to consent to those debts being canceled, and I think the sooner those who owe us this money understand that we are not going to cancel those debts or any part of them, the better it will be for those countries.

#### TAXES IN WASHINGTON CITY

Senator Caraway, D., Arkansas—Why should a man in my state be required to pay three times as much tax as a man living in the District of Columbia, in order that we may relieve the man in the District of Columbia? It is an infamous outrage, if I may be permitted to say it, to require people in the states to pay taxes for property in the District of Columbia. The federal government controls the affairs of the District, actually owns at least half, if not more than half, of the property in value in the District of Columbia. That property is not taxed at all. It would be wholly unfair and absolutely unreasonable to expect the taxpayers of the District to bear the entire expense.

Senator McNary, R., Oregon—I believe, and I think any senator who gives it any thought will concede, that the people of the District do not pay half the taxes that people owning property in any of the states and municipalities pay. This was a cow pasture before the government came in with its activities, and it is the government activities and investments that have given private property its value. I think the people of the District should give the government a subsidy instead of having their taxes paid by appropriations out of the federal treasury.

#### BARFOOT BOY NO MORE

Representative Hudspeth, D., Texas—It was a superintendent of a flock of sheep for eight years. That is what they call it now, but in my day they called them herders and "paseoras." I was barefoot most of the time, but it had my choice to go back to that flock of sheep on the honeycombed hills of West Texas, I think I would remain right here, and I hope the people will respect my choice.

#### NEWBERRY

Senator Heflin, D., Alabama—This man Newberry bought a seat in this body. You might go around and say he expended too much money, he resorted to this means of getting a seat which was reprehensible, but stripped of all its smoke-screen devices, he has bought a seat in the senate and the question is, are we going to become a party to the crime?

Senator Moses, R., New Hampshire—Truman H. Newberry was then a self-glorification, modest, high-charactered, successful in the business world and with a fine record of public life. He was at the moment enlarging by donating for the second time the blue of the navy. He was on duty in a distant stage; he was engaged in the responsibilities which his position laid upon him; he was not seeking political preferment; he was striving only to serve his country.

#### JUDGE LANDIS

Representative Larson, D., Georgia—Judge Landis holds another very responsible position, supreme umpire of the baseball league, for which, I am informed, he receives a salary of \$2,500 a year, an addition to his salary of \$7,500 a year as district judge. The press of the country indicates that he is giving a great deal of attention to the position which pays the most money.

Representative Mann, R., Illinois—I go to a baseball game whenever there is a chance for me to do so. I love to see it played. I know it does me good, and I know it does the little fellow good from the time he is four years old up to the time he plays the game and then in after years, to look at it. And some of the old fogies here ought to go to the game instead of putting in their time here attacking Judge Landis.

### All Lebanon Turns Out for Funeral of Mrs. Sherman Miles

Lebanon, Jan. 4.—The funeral of Mrs. Juanita Miller Miles was conducted here Tuesday afternoon. A short ceremony was held in the Presbyterian church, of which Mrs. Miles was a member. Mrs. Miles, only daughter of former Internal Revenue Collector Milton A. Miller, was born and raised here and was killed Saturday evening near St. Helens in an automobile accident.

She was the wife of Sherman Miles, banker of St. Helens, and is survived by her husband and two children. Mrs. Miles was a member of Marguerite chapter No. 69, Order of Eastern Star.

The entire population of Lebanon attended the funeral. The mile-long route between church and cemetery was lined with automobiles. The service was read by the Rev. John J. Conley.

Among those attending the funeral from Portland were Mrs. Effie Montague, stage of Misson, Order of Eastern Star; Mrs. Miles, Mr. and Mrs. Thomas R. Wilson and Mr. and Mrs. Harry Albert. Many from Salem, Albany and other valley cities attended.

Sherman M. Miles passed through Portland today on his way to St. Helens, remaining with his father-in-law during the morning. The father and husband of the accident victim have received messages of sympathy from every corner of the state and through the Eastern and Southern states. Sherman Miles was accompanied to Portland by Dr. J. H. Flynn of St. Helens.

### Ketchikan, Alaska, Boasts Population Of 5300 Persons

Ketchikan, Alaska, has an increased population of 2300 over last year, says C. T. Gardner, supervisor of the Tongass national forest, who is spending a detail of 19 days at the district forester's office. The population of 1920 was 2900, but when another census was taken in 1921 to see if there were sufficient people to install a chapter of the Elks lodge, the figure jumped to 3300. The town is waiting for a revival of

### the fishing industry, which slumped last year, and the resumption of the lumber industry in dependent upon fishing, since the output of the lumber mills is largely used locally for boxes and piling.

The first pulp and paper factory, the Alaska Pulp and Paper company, operating at Fort Snodgrass, has suspended operations because of the large overhead, making it impossible to produce at a profit and ship the raw product to San Francisco, the headquarters of the company. Operations will be resumed as soon as a larger amount of machinery has been installed which will reduce overhead. The Alaska American Pulp and Paper company will commence operations on Shrimp bay, 45 miles from Ketchikan, soon.

### Doctrine of Thrift Has Big Appeal Journal Savings Campaign Popular

The Journal's January thrift campaign has started off with a rush. It bids fair to surpass the big success of December, when hundreds of new savings accounts were opened at the Lumbermen Trust Company bank. A large number of Journal readers clipped the coupons that appeared for the first time in yesterday's

edition of The Journal, and many Journal readers visited the Lumbermen Trust company bank this morning to open savings accounts.

"I fully expect that the number of savings accounts that will be opened during the Journal's January thrift campaign will far exceed that of December," said Carl Deering, cashier of the bank. "The reason for this," said Mr. Deering, "is that the people are waking up to the fact that today's dollar, if saved, will have a much greater purchasing power a few years hence. The first of the year is always a good time to begin saving, and this will also tend to increase the number of new accounts."

and Oak streets. The bank will credit Journal again tomorrow and will be good you with \$1 on a new savings account. In starting a new savings account, the coupons will be printed in The Journal.

### JOURNAL THRIFT COUPON—Worth 50c to \$1

The Journal has arranged with the Lumbermen Trust Company Bank, Broadway and Oak street, to help every Journal subscriber and member of his family to start a bank account. This coupon is worth 50c to you now and \$1.00 if you save regularly every month for six months. Take it to the Lumbermen Trust Company Bank and you can open a \$1.00 savings account. Each depositor will be loaned a Nest Egg savings bank.
