FASHION'S REALM

New York—The new dancing frocks leave much to the individuality of the wearer, but little to the imagination.

New York—A well turned feminine ankle is usually followed by a quickly turned masculine head, provided the ankle is attractively clothed in sheer silk.

New York—Green makes the best possible background, as any ballplayer or marksman will tell you. It is easy on the eye. Perhaps that is why, so many of the evening frocks now being worn here are so "easy to look at."
