Oregon and Washington—Tonight and Tuesday, rain, west portion, snow east portion; warmer tonight except near the coast; moderate Southerly winds.

# WEATHER CONDITIONS

A low pressure area has made its appearance off Vancouver Island, and another is apparently central in the Guif of Mexico. Over most of the country the pressure is high, the highest readings being in the Middle Mississipui Valley. Precipitation has been confined to amail areas in Oregon, Nebraska, Tennessee and Texas. The heaviest rainfall reported was 1.06 inches at Galveston, Texas. The temperature is generally below normal, but is somewhat above normal in the extreme northern plains region, in the Guif and south Atlantic states, and on the middle Pacific const.

Eugenics Board Will Appeal-The st preme court will be asked to pass on the denstitutionality of the so-called Oregon signification law according to a decisto reached at the annual meeting of the state eugenics board held at Salem last The law was attacked so ago by Jacob Cline, an inmate of the state penitentiary, who had been designated by the eugenics board to undergo an operation for sterilization. The case was tried before Judge G. G. Bingham and Percy Kelly, who subsequently handed down an opinion that the act was unconstitutional. Since receipt of the opinion no operations of this character have been performed at the state institutions.

Portland Firm Gets Contract-Contract for furnishing pipe for Walla Walla's new water line was awarded last week by the city water commission to the Willamette Iron work of Portland. The bid of \$53,550,50 covers pipe fittings, valves, bolts and all furnishings for 24ach pipe, the line being two miles long. Actual delivery of the 11,250 feet of pipe will begin within 60 days and be finished in 90 days. This is the first contract to be awarded for the Walla Walla waterworks improvement, the cost of which will be close to half a million dollars.

Cheap buildings are temporary, and all give way to permanent structures as cities grow. It is no longer a question of a few dollary additional expense for new buildings, the main consideration being to employ skill and materials to create and erect structures that shall be enduring. Experience has likewise developed the same sentiment in the public mind in regard to pavement: the best, namely, Warrenite-Bitulithic, being generally conceded as the cheapest in the long run.
