VOU'RE right-"Up in Mabel's Room" is a comedy, all right, and-as bedroom comedies go-a very good one. One may laugh and laugh through the whole of the farce, as one distracted gent after another dashes in looking for a rose-pink chemise, and one jealous bride after another dashes in to look for a supposedly erring hubby.

Yet one wonders after the laugh is over if just as much fun could not have been had from a theme that is a little farther from "the line." All of which, however is a matter of taste, as the feller said If one accepts the subject as a legiti mit that the laughing is good at the Baker theatre this week.

All the characters are comedial. No hissing villain slinks in to kidnap the papers; no one crosses the ice to get away from the Airedales; no one shoots the faithful old family servitor. Everything is beautiful, especially the nighties worn by the ladies. Funny thing about that—not a single masculine pajama appears in the whole show, though every variety of feminine dishabille can be seen. It is almost like a bargain day at a lingerie counter.

In simple language, the story is about a once lovesick youth who sent his, then, inamorata a gorgeous bit of rather intimate apparel with his name embroid ered on it.
