## WEST HAS ALREADY SHIPPED MORE APPLES THAN LAST SEASON NORWEGIAN CRAF

## **CUBE BUTTER IS** STILL ADVANCING

EGG MARKET STIFFENS Because of the great scarcity of eggs here, leading private operators secided at noon to offer a sharp advance for eggs for delivery Thursday and Friday. One firm was offering to pay shippers 35c for selects or 30c for current receipts. The former is 3c a dozen above what the poultry association is asking for its supplies.

Further advance of it a pound was quoted for cube butter during the day, although no price change was shown in contemplation for prints. Fact of the matter is that prints have been somewhat too high considering the price of subest therefore, as advance in the latter will be the strength that the strength of the price of the strength of th Once extras were sold as high as 31c a control during the last 24 hours in the local market, thin being 1c above general sales of russiay. Shortage of good quality offering, due to the cold weather, is the only explanation

With most of the foreign butter out of the way the local trade has received somewhat ever though the season's output has been the great est on record. 

Those desizing special information regarding y market, should write the Market Editor, egon Journal, enclosing stamp for reply.

WEATHER AFFECTS EGG PRICES Market for eggs continues to advance and a further rise of 2c was shown in both buying and selling values by private firms with as high as 25c asked for selects. Current receipt purchases mow around 27c, with some quoting above this. CHICKEN MARKET IS STEADY While some reports were of a slower tone in e chicken trade, prices in general appear about

By Hyman H. Cohen Consumers can easily save money on their meats these days if they will pur-chase boiling beef. It is soup time, and

their meats these days if they will purchase boiling beef. It is soup time, and materials for soup making are remarkably low priced.

Consumers should be very careful about buying potatoes for awhile, as there is no doubt that some stock has been frosted recently, and some of this stock will be available in the market. While it is impossible to fool anyone with frozen stock, still frosted stock is not so easily discovered by the average person until it is cooked. Then it will have a sweet taste. eBiter buy only for immediate requirements until sure. Egg prices continue to climb because of the cold weather, which has practically caused the hens to stop, laying. In the meantime the public market master is quoting at old low prices, but there are few eggs for sale there. Those that have eggs want more money, and are getting it.

Many complaints are coming that even the maximum prices on the public market mask there are not respected by some sellers, and higher prices are demanded. Consumers will find that in many instances it they can purchase more cheaply at their long stores.

There continues a most excellent call for club wheat, with only limited country offerings at the moment. Purchases at country points during the 24 hours continued around \$1.09 \overline{\text{continue}}\$ to the moment. Purchases at country points during the 24 hours continued around \$1.09 \overline{\text{continue}}\$ to the moment. Foreign demand appears to be practically the only factor of importance in the wheat trade at the moment. Sales of parcel lots continue to Europe.

Foreigns crops reports are much less favorable than first reported and, while this is usually the case, speculative interests are always swayed more or less by these early reports of huge production.

Flour and milistuffs held steady, with the former dull, while hay continues to be offered in abundance at low level.

Baker, Jan. 18.—William Cola of the Gold
Reef Mining company at Cornucopia is asking
application for a patent on an attachment to be
used on mine hoists for clearing muck from
tunnels and incline shafts. Mr. Cola has been
using his first model and attachment in operation at the mine for more than a year and,
though tried on all conditions, is considered
practical. Mr. Cola also says the attachment
can be put on engines where used for logging
and will greatly simplify the present methods
where logging is done by doukey engines.

The proposed mill will have a capacity of 1,000,000 feet per day, according to officials of the company. The concern also operates lumber plants in the vicinity of Klamath Falls and in Northern California. LONG-BELL COMPANY PARTY INSPECTS PLANT AT KELSO

Kelso, Wash., Jan. 18.—To get first hand information of the progress of preliminary work upon their vast mill and timber development project in Cowlits county, R. A. Long, chairman of the board of directors of the Long Reil Lumber company, and a group of operating officials of that company arrived in Kelso, Tuesday, and, accompanied by Wesley Vandercock, chief engineer for the company, made a tour of inspection of the mill site south of town Since Long's last visit here 3000 acres of land on the Columbia river, just south of Kelso, has been acquired for mill site and townsite purposes, and nearly 1000 acres of this land, which was in brush when he last visited it, has been slashed and is being cleared of stumps in readiness for construction work.

Long said the date of actual con struction is indefinite, being dependent upon a return to normal building costs Lumber, he said, is the only building material that has reached a normal price and machinery and other structure material is still entirely too high to warrant building. The saving made by waiting for lower priced material, he said, will more than compensate for the delay. He denied that any deal has been made for the Hammond Lumber company interests.

Other officials of the company accom panying Long are: F. J. Bannister president; J. D. Tennant, vice president R. F. Davis, traffic manager; W. L. Prickett and W. F. Ryder, as well as secretaries and stenographers. Several days will be spent here by the party, with all details of the development project, which, when it is under way, will

Bend, Jan. 18.—The North Canal pany has offered through Secretary Os-wald West to complete the 15,000-acre Tumalo project for \$541,800, if Crescent lake storage is used, and for \$577,800 if the dam is built at Crane Prairie, and will take the district's bonds at 90 cents West said. The directors are considering the possibility of reducing the specifications that West's offer may be reduced to a figure which will be within

Offers of the North Canal company to furnish water to the Tumalo district will hold good only on condition that John H. Lewis is removed from the position of district engineer was the statement of Oswald West, secretary of the company, in making the offer. "A competent man must be placed

in charge," West declared, but made no direct charges against Lewis, who was state engineer under West's administraase tion. Directors of the district said that there would be ittle opposition to Lewis removal.

West also said the company will not as much emphasis on colonization as on reclamation, with the idea of "a family on every farm," not only for its own district but for the others mentioned. Barr & Cunningham, Portland en-

gineers, have been retained by the Tumale district to check the estimates of John H. Lewis, district engineer, which were less by \$50,000 than the latest offer of the North Canal company. Barr & Cunningham will report their findings in two weeks, and Oswald West has increased the time for the district to answer his offer, so that this report may be taken into account.

Hoquiam, Wash., Jan. 18.-A 95-foot submarine, rumored to have carried a cargo of liquor and to have been the flagship of a fleet of three similar craft, landed at low tide Saturday afternoon in the mouth of the Quincuit river, six miles north of Moclips. Remaining in the craft until nightfall, members of the crew are said to have gone ashore for water just prior

disappeared. Indians on their way to Moclips were the first to notice the craft, almost completely submerged, and with only a periscope, which they thought was a mast, visible, in addition to a section of the bull. The object appeared to be a wrecked schooner, with masts broken off and only a spiriter of one showing. The Indians spent the afternoon attempting to get lines on the ship, but were sful on, account of the sising ide and break

HEATER FUMES LAY OUT TWO Baker, Jan. 18 .-- A Mexican and a young man about 25 years of age were brought to a Baker hospital from Hunt-ington, having been found in a refrigerator car almost lifeless from fumes from the oil stove heaters. It is said they boarded the train at North Powder. They were penniless.
