This has been a new experience for the citizens of this country, who, before the great war, put their money in everything except government bonds.

ion when I knew public opinion was wrong and sure to be merciless. --Horace Greeley.

IF PORTLAND WOULD-

CFFORTS were made to have the late newspaper conference at Eugene indorse the 1925 exposition. But they failed.

There were differences of opinion among the 75 active newspaper men Some favored the exposition even to the extent of having it financed in part by the state at large. But the preponderance of sentiment was against formal participation by the up-state in the form of property levies or gasoline tax. This is made very clear by the fact that all efforts to have the exposition indorsed were defeated by the resolutions commit-

than was the non-action of the legislature. The opposition of the upstate newspapers is a more definite reflection of the sentiment of the various communities. And it is a far more difficult opposition for the backers of the exposition to counteract.

These things should be considered by the committee that is at work on the problem of financing the exposition. Does the committee think it impossible for Portland to finance the exposition without asking aid from the up-state?

Under the original plan Portland proposed to assume a \$4,000,000 exon that basis, the up-state to add \$2.to spend \$4,000,000 on the plan and that not a guarantee that Portland big ones go unwhipped. can do the job alone?

Here is one thing which the upstate communities talk about: They may that practically every resident of THE mathematics of the Chicago position, and that all the ready in Portland, is tremendous. well consider.

Nor is it certain that the limit of the fair.

After all the expenditure of time and money already made, and after once or twice. These were some of the the showing in the vote that Portland features last season. This year, with people want a 1925 exposition, the Mary Garden still as directress, there project ought not to fail. It is cer- is a more economical management. tain that there are already activities but still with a guarantee by rich and enterprises going forward that backers of a minimum deficit of would not be in motion except

through expectancy that an exposition is to be held. It is entirely probshie that much of the building activity is predicated upon 1925.

It is not a discouraging thing that some of the plans have gene awry. The great mistake was that up-state delegates who came to the statewide conference did not know the mantiment of their respective communities, and their reports misled the conference into mistaken action. But one mistake or half a dozen mistakes no more settles an issue than one swallow makes a summer.

children and adults to continue the practice of thrift, which has been increasing steadily for at least two vears.

The \$1000 limit has been raised to \$5000, making the treasury certifleates attractive to those who can invest as much in safe, moderately

yielding securities. These certificates sell at \$20 for the \$25 certificate, with the \$100 and \$1000 certificates selling at \$80 and \$800. All mature at full value in five years. 200
