

**CONSUMERS PAYING MORE FOR GOODS**

By Myron H. Cohen  
Higher priced butter greets the consumer today. The wholesale price advanced to a pound during the day which means at 41 cents a pound for plain wrappers with cartons 1 cent above this. Considering this price retailers will advance their quotations to 56 cents a pound on the established creamery brands, but for cube stock of just as good quality, sales will be made several cents below this.  
Retailers are already selling eggs below the wholesale price basis, therefore the expected drop in wholesale values will not for the moment affect the bigger retailers.  
Sugar prices are being marked higher by some retailers as a result of

recent wholesale advances, but some of the cash houses are still offering bargains. While wholesale cheese prices are slightly higher no change is shown at retail just now.

**You always have "luck" with Albers**

Just follow the simple directions on every package of Albers Flapjack Flour.

In a jiffy the batter is ready for you to bake tender, light cakes—the kind that fairly melt in your mouth!

Albers Flapjack Flour is known for quality. It's the popular hotcake flour of the West.

Your Grocer Recommends Albers Quality

**Money SKAGGS Cash saving UNITED STORES stores**

The "Lead" conceded SKAGGS' STORES in the business of selling groceries is by no means an accident. Our organization, our sales volume and purchasing advantages are much greater than most concerns; our sales per store unit and per man unit are many times that in ordinary stores.  
The economic advantages that are so largely responsible for SKAGGS' PRICES were not acquired by accident or "good luck," but by practical application of a thorough knowledge and understanding of modern food distribution, careful and waste-less store management, long hours of hard work, and a willingness and genuine desire to serve.  
These factors distinguish SKAGGS' STORES, distinguish SKAGGS' SERVICE, and distinguish SKAGGS' PRICES from the ordinary.  
Visit SKAGGS' STORE and SAVE.
