Simplified Forms For Filing Income Taxes Received
Revised and simplified forms for filing individual income returns for the year 1921 have been received by Clyde G. Huntley, collector of internal revenue. These blanks are being mailed to every person in the state outside of Portland who filed a return last year. Blanks will be mailed taxpayers residing in Portland as soon as received from Washington, probably early next week. It is expected that blanks for the use of corporations will be received within a few days.

Income tax returns must be filed not later than March 15," explained Collector Huntley this morning. "Taxpayers may pay their tax in full when they file their returns, or they will be permitted, as was the case last year, to pay in four equal installments, due March 15, June 15, September 15 and December 15. In any event, the return must be filed not later than March 15 and, unless the tax is paid in full, must be accompanied by the initial payment of 25 per cent. "Failure of a taxpayer to receive blanks from this office upon which to make his return does not relieve the taxpayer from his obligation to file his return, neither will it exempt him from the payment of heavy penalties provided for by the law upon failure to file his return within the prescribed time."

Great Future Ahead
 buoyed up by high ambitions, Lewis moved his family to their new home and began work. It did, indeed, appear just the opening he had always wanted. "What a fool I was," he said to himself as he thought over the past. "I was content to hang on to that little job all those years when a little pep and initiative on my part would have got me here years before. Big affairs hinge on small events, just by getting the new suit and overcoat at Cherry's I mustered up confidence just at the right moment and got this job. Cherry's, at 449 Morrison, have done a lot for me. Cherry's have the entire second floor at Park and Morrison, entrance 249 Morrison, center of block. Take elevator."

Opportunity
Opportunities may sometimes "just happen," but the ability to grasp them is never accident. It is the end of a chain of predetermined circumstances which began with the willingness to work, study, or save a little bit more than the other fellow.

Never a day passes but some patron of the United States National Bank is finding both the opportunity and the means of accepting it.
