By David Lawrence

(Copyright, 1922, by The Journal) Washington, Feb. 28.—President Hard-ing told Commander Hanford MacNi-ler and a delegation from the American Legion that he is with them, heart and

Smiling and happy, Mr. MacNider and his associates walked from the executive office confident that they had accomplished something by their visit to the White House.

The president authorized us to say there would be no delay-that he would sign a bonus bill," said John T. Taylor, chairman of the legislative committee of the American Legion.

'Did the president say how the money was to be raised?" he was asked.
"No, not a word, and we didn't ask

"Have you any idea where the money situation, "No, but there isn't going to be any delay. The president is in hearty sympathy with us. He told us so."

LETTER PROVOKED HARDING

deak and decided to think some more of ing to Longworth. the subject. Those who claim to know what Mr. MacNider wrote say it prob-ably irritated Mr. Harding. Anyway.

The interview was a pleasant one and was devoted almost entirely to an explanation by Mr. Harding to the Amer-He had always favored one-he made the pledge when a candidate in the presidential primaries in 1920. The president told his callers that he believed

Ongress favored a bonus.

The revenue phase of the matter has been carefully excluded from discussion by the American Legion men, who feel that congress should find its own solu-

SENATE FOR SALES TAX

The general impression following Mr. MacNider's visit is that the house will report out and probably pass a bill favoring the bonus, but not specifying when it is to be paid. This means in-definite postponement of the cash feature. It may be that the senate, where a sales tax is much more popular than in the house, will affix a sales tax provision. It may be that the whole matter will get tied up in the senate on the expectation that the revenue problem had better wait payments from British Unquestionably Mr. Harding is for a bonus and so is congress, but the president himself is not committed to any definite date of payment. Unless the Legion demands immediate payment the chances are the whole question will drag on beyond the congress sioned elections. The house passed bonus bill in May, 1920, but no funds were provided to pay it. An identical measure is being urged again. COMES TO REPEAT DEMAND

"We simply run down every once in a while to reiterate our position." remarked Commander MacNider as he left the White House, "The American Legion is waging a fight for the future-not against this congress. Whether funds are available at once or not, it wishes to keep the bonus issue squarely before the government so that ant any funds do become avail able through any source the same will be promptly applied to pay the soldiers.

HOUSE IS PREPARING TO By John Gleissner

United News Staff Correspondent Washington, Feb. 28.-The house is preparing to sidestep the soldier bonus

This will be done, best information indicates, by delaying the bill until the government's financial situation has improved. The alternative is to report out a bill containing no provision for raising revenue, a course to which the president has said he is unalterably opposed. The effect of this procedure likewise would be to impose delay.

URGES POSTPONEMENT Representative Mondell of Wyoming, Republican leader, said Monday he thought it might be well to postpone the bonus bill. Mondell's opinion carried ndued weight because he had just visited the White House with Representative Fordney of Michigan, chairman of the ways and means committee, to confer

aith the president "The problem of meeting the payments is a trying one," said Mondell, "as most of the suggestions for obtaining the money have not met with general ap-We are still hoping for some gap between expenditures and income.

If the general conditions of the country knows. It was thought that \$250,000,000 improved, we have every reason to believe that the government's income, in ish bonds, a sum insufficient by \$100,the not far distant future, will in-

"In the near future also we can secure funds through the sale of foreign securities. Taking that into consideration, it would not be such an extrasecurities. Taking that into considera-tion, it would not be such an extraordinary thing at this time if congress felt it was not called upon to make all the provisions needed for the purpose of meeting all the demands of the treasury for adjusted compensation, PREDICTS PASSAGE

'Congress, at least the house, will, in my opinion, pass the bonus bill. My own notion is, since it is well understood that the house will pass the legislation, that it might well be the part of wisdom not to press the matter for immediate consideration, as the situation in the near future will clear up.
"I do not have in mind any long

postponement. I am not prepared to say what the house would do on the Fordney reiterated his declaration that

hat form the bill will take. nfluential member of the committeesaid that in his opinion to report out a bill without provisions for raising the revenue would be "arrant political cowardice," and an attempt to dodge the

FASY WAY OUT

He said, however, that considerable sentiment existed in favor of doing this. Such a bill, according to Longworth, Commander MacNider had written the bonus from funds in the treasury Harding a rather forceful letter pot otherwise appropriated, and no such which the president was tempted to funds exist. Talk No. 6 On

Applied Psychology —

"One's life, personality and environment is determined by his fixed habits of thought."

The substance of the entire subject of Psychology is summed up in the above sentence. It contains material for hundreds of sermons, as many books and a complete knowledge of human nature. knowledge of human nature. Whether you believe it or not, it is a scientific fact that people are popular or unpopular, sick or well, happy or unhappy, rich or poor, a success or a failure because the impressions that they unconimpressions that they uncon-sciously create upon others is colored by their own subconsclous thinking. scious thinking.

To achieve personal liberty
one must assume the personal
responsibility that goes with
it. So far as the conscious
mind is concerned most people are totally unaware that
down deep in their beauty

down deep in their hearts, hidden even from themselves, are desires and impressions that prevent them from at-

taining that happy state of being that their conscious minds desire. They deny minds desire. They deny themselves "Life more abun-The life of everyone is ruled by the thinking down in his heart. It is the determining factor of personality and environment. These deep thoughts come to the surface in the most unexpected ways and places. If your person-ality and environment is not what you would have it learn how to change these predominant mental impressions that are buried deep within you. If you can know these deep impressions in the minds of your employes and associates you can forecast definitely and exactly what they will

to under any given set of

circumstances.

The Practical Way to Save

The science of Applied Psychology teaches the method of reaching the subconscious mind and changing its predominant mental impressions so as to enable you to make a success out of your present handicaps. It also teaches you how to ascertain these impressions in the minds of others and know thereby what manner of man you are dealing with. It furnishes you with a road-map for the journey of life and a yardwith a road-map for the journey of life and a yard-stick by which to measure human nature.
Our course of six lessons in Applied Psychology differs from other courses in that it confines itself strictly to principles and methods that principles and methods that are provable and definitely workable. It provides detailed and easily understandable instruction on every phase of the subject. It is of incalculable value to anyone who deals with the pubone who deals with the pub-

ing the hiring and handling men in Portland who have proven the value of this course, to themselves, in dollars and cents. Their names and addresses may be had for the asking. In addition we have a standing offer to we have a standing offer to refund, on demand, at the end of the course, the tuition fee of any student who feels that he did not get his mon-ey's worth. Under this arrangement you have every-thing to gain and nothing to lose. In your own interest,

MRS. GRACE PALMER CRAIG.

Announcement

Mrs. Craig's classes in Applied Psychology meet each Monday. Wednesday and Friday evening from 8:00 to 10:30 in Suite 1107 Hotel Benson. Business and professional people, executives, department heads and those in positions of responsibility and authority, desiring further information or names of local business men who have benefited inestimably by this course, are invited to phone Mrs. Craig's Secretary, Broadway 411, or call at Suite 1107 Hotel Benson.

Man Who Mulcted New York Women of

(By Universal Service.) Philadelphia, Feb. 28.-Alfred E. Lindsay, who is under indictment in New York charged with mulcting 11 society women out of \$700,000, was arrested last night at Overbrook, a suburb of this city. -And embroideries-from the narrowest bit of insertion to the widest flounces-a showing of exquisite patterns, and Fashion calling for every one.

Second Floor-Lipman, Wolfe & Co.

150 Army Cots in a Sale Here Tomorrow

May Be a Long, Long Time Before Such Selling Again Is Possible

Officers' Steel \$2.95 All in the Army Cots \$2.6x6 Ft. Size

-Buy them especially for use in the cottage at the beach, or on the sleeping porch in the town house-buy them now, for the government has disposed of all the cots it had for sale, and nobody can expect to be able to buy such cots soon again at a price as low as \$2.95.

-These are the officers' cots, made of steel and with full-link spring attached with heavy enameled coils. They are in the 2.6x6-foot size and in the folding style-flat, compact and easy to carry when folded. All in the same style. See the illustration.

THIS STORE USES NO COMPARATIVE PRICES—THEY ARE MISLEADING AND OFTEN UNTRUE -----

MANY people wear themselves out trying to earn more than they spend, rather than spend less than they earn. In other words, they go at thrift backwards. Instead of buying extravagantly and

trusting to luck that his income will be big enough to cover his purchases, the wise man adjusts his expenditures to his income as it actually is. By that method there is always a sur-

a United States National Savings Account, with its safety and regular in-

plus to invest. And where better than in

"One of the Northwest's Great Banks"
