

LABOR TROUBLES IN DENMARK MORE ACUTE THAN EVER

Stockholm, March 2.—Prospects of an early settlement of the labor troubles in Denmark, which seemed bright last week, are less encouraging now that leaders have conducted an intensive campaign aimed at plunging the country into a general strike.

A former Danish cabinet minister, Stauning, who is in Stockholm to attend the northern interparliamentary meeting, declared today that the outlook was extremely dark. He strongly sympathized with the Danish workmen in their fight against the power of the employers' association.

"I believe that the Danish employers are making a big mistake in using this terrible lockout weapon against the labor unions," said Mr. Stauning. "The employers declare that competition from Germany must be met by lower wages and longer hours of work. They ask Danish workmen to accept wage reductions of 10 per cent, and the eight-hour day and forego the overtime wage scales. The workers are willing to accept a 10 per cent reduction in wages, but refuse absolutely to accept the eight-hour law or give up overtime. Attempts at arbitration have failed."

"More than 100,000 persons are now unemployed in Denmark and the suffering is becoming intense through lack of food and fuel. It is estimated that the lockout during the first two weeks cost Denmark \$5,000,000 (normally \$11,400,000). Merchandise from Germany and other countries having low manufacturing costs is now streaming into Denmark, increasing the danger from competition which the employers claim they must avoid."

MARCH BRINGS NEW WAVE OF STRIKES IN GERMANY

(By Universal Service)

Berlin, March 2.—The month of March is already beginning to justify the fears of the government that it would bring trouble. March, which ever since the revolution has been known as the "crazy month," opened today with a new wave of strikes sweeping the country.

The metal workers are striking today in Bavaria, while the bricklayers and building trades workers went out in Central and West Germany. The bookbinders and the transport workers started strikes in Saxony and the miners in Middle Germany are out.

In government quarters it is said that strong radical efforts are being made to unite the various movements into a general strike as a protest against the high cost of living.

LABOR CRISIS INVOLVING MILLIONS THREATENS BRITAIN

London, March 2.—(I. N. S.)—A labor crisis affecting nearly 1,000,000 in the engineering and shipbuilding trades threatens Great Britain today. A lock-out of unionized engineers on March 11 has been called following the breaking off of negotiations between the men and their employers. The workers have rejected proposals for bonus reductions, effective March 15.

Alleged Swindler Used Society Teas To Defraud Women

New York, March 2.—Alfred E. Lindsey, held in jail in default of \$50,000 bail, and charged with defrauding women out of approximately \$700,000, used society teas to help him sell spurious securities.

Miss Florence James, popular in the younger society set, told the district attorney that Lindsey paid her 10 per cent commission on sales she made to women friends. Miss James also admitted that she gave a tea at which she introduced Lindsey to several society women. Lindsey paid the cost of this tea, she said.

Leading financiers here scouted the idea of a "Domino club" of which Lindsey said he was a member. Charles H. Babin and W. Averill Harriman said no organization, such as the embezzler described, ever existed.

Lindsey's wife is ill and has refused nourishment since her husband's arrest.

McAdoo Lured by Coast; Los Angeles To Be Future Home

New York, March 2.—Former Secretary of the Treasury W. G. McAdoo has yielded to the lure of the West and is going to Los Angeles to live and to practice law.

Mr. McAdoo gave out the following statement tonight:

"During the past seven years Mrs. McAdoo and I have spent our vacation whenever possible in the West. Our frequent visits there have given us a wide acquaintance with its delightful people and notwithstanding our love of the East and our best of friends here we find ourselves obliged to surrender to the irresistible lure of Western life."

"So we have decided to carry out an idea we have entertained ever since we spent the winter of 1919 in California following my resignation as secretary of the treasury and make our home in Los Angeles. I intend to practice law there, but I shall in the nature of things come to New York frequently."

Mr. McAdoo's son, Francis N. McAdoo, will continue as a member of his father's law firm here, the firm being re-organized under the name of Cotton & Franklin.

Berlin to Observe 400th Anniversary Of Luther's Coming

Berlin, March 2.—Several delegates of the National Lutheran Council of America will attend the 400th anniversary next Sunday of the arrival of Martin Luther in Wittenberg with the first translation of the New Testament into German, which eventually led to the reformation movement. Many delegates from all over the world will be present at the celebration. Among those expected are the Rev. Thomas F. Bornblaser of Chicago and John A. Morehead, president of the Roosevelt college and European commissioner of the National Lutheran council.

Bread Price Again Increased at Berlin

Berlin, March 2.—Consternation was caused here today by the announcement that the price of bread is to be increased another 40 per cent. Only about two weeks ago the price was increased 15 per cent or from 12 to 14 marks, a step which stirred up a good deal of antagonism and bitterness against the government. The new price increase will make bread a luxury beyond the means of a large portion of the population unless wages are increased correspondingly.

Careless Shampooing Spoils the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Mulstified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can get.

Two or three teaspoonfuls of Mulstified in a cup or glass with a little warm water is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rises out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, shiny and easy to manage.

You can get Mulstified coconut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulstified.

READ THIS FROM "LIFE"

"Comparisons are necessarily odious, but 'The Birth of a Nation,' 'Hearts of the World,' the grandiose paintings of David Warf Griffith and Cecil B. DeMille—appear pale and artificial in the light of this new production."

"The Four Horsemen of the Apocalypse" is a living, breathing answer to those who still refuse to take motion pictures seriously. Its production lifts the silent drama to an artistic plane that has never touched before."
