The "Stylish Stout" Corsets

Their Virtues and Their Matchless Features
Explained in a Special Demonstration Here This Week

—You are cordially invited to avail yourself of the advice of Miss M. J. Crandal, corsetiere from the "Stylish Stout" manufacturers in New York.

—Miss Crandal will prove to you that any figure has stylish possibilities if properly corseted.

—"Stylish Stout" corsets are the result of years spent in perfecting a new principle. These famous corsets are constructed

to mold the longer, more slender lines.

—It is asserted that they make a woman look twenty pounds lighter and three to five inches slimmer—yet the women who wear them say that these are the most comfortable corsets made.

—Bring your corset problems to Miss Crandal and you may be agreeably surprised by the transformation she can make in your appearance.
