

CANCER CURABLE IF TAKEN IN TIME, SAYS DR. COFFEY

The difference between curable and incurable cancer is the question of a minute," said Dr. Robert C. Coffey at the health institute at the Multnomah hotel this morning. "If the lymph containing the cancer cells can be removed early in the game, the cancer is curable, but if a single cell gets into the blood, then there is no hope."

A cancer cell differs from a tumor cell only in that it is lawless and will build up in other parts of the body. The lymphatic system is a filter and holds the cancer cells for a time. During this period cancer is just as curable as a wart. But once the cell drifts out of the lymph and into the arteries, then it is carried to the liver, kidneys, brain or some other remote part of the body where it cannot be reached and where it carries on its destructive work that results in eventual death.

INFANTILE PARALYSIS

Dr. Paul Turner, health officer for Washington, spoke on the symptoms and treatment of poliomyelitis, or infantile paralysis, and of the experiments that have been carried on in an effort to determine the cause and the effect of virus at different stages.

H. B. Thomas, sanitary engineer, from San Francisco, spoke on "Water and Sewage Disposal," going into the technical and engineering phases of the problem.

This afternoon Dr. de Valin talked on "Rural Sanitation." Other speakers were Dr. John G. Steinhilber and Dr. Edward John Lohde.

A number will be held at the Multnomah hotel tonight.

Dr. A. V. McCormack will give his last talk tomorrow morning at 11 o'clock on "The Family Doctor." This talk is said to be one of his best.

INSTITUTE CLOSING SATURDAY

Industrial hygiene, school hygiene and education and public health nursing will be the subjects discussed Saturday.

The health institute will close Saturday noon and in the afternoon the visitors will be taken for an inspection of the isolation hospital, which is being built on the University of Oregon medical school.

Dr. William House, speaking Thursday afternoon on "Overwork and Strain," warned against overwork when middle age has been reached, especially when it is attended by worry. Dr. McCormack spoke on the need of the state board of health continuing in office and the elimination of political control in the selection of health leaders.

Seize Schooner With Cargo of Whiskies

New York, April 14.—(U. P.)—A British schooner was overhauled and seized by a police motor boat patrolling the bay off 49th street today. Fifty-nine barrels of whisky were found on board.

Although sailing under an assumed name, the schooner "Red" was seized by the U. S. Coast Guard. The vessel was registered in Nassau, Bahamas. Captain Herman Hildesheim said he was bound for Saint Pierre, Canada.

No New Sore Throat Cases Are Reported

That the acute sore throat infection has been permanently checked was the belief today of Dr. J. C. A. Abbott, health officer, who, making reports showed no new cases and no additional deaths.

Women's Suits for Ten-Fifty!

Coats for Two Dollars—Dresses for Five and Seven-Fifty—Waists for a Song—Fixtures for Sale—The Holiday Store to Quit Business in a Hurry

SOME of the garments are fine—Others are wonderful. Many will have to be altered, But—goodness Teresa They're worth it!

Look at the all-wool suits at ten dollars fifty cents. Look at the silk dresses for five and seven-fifty. And the coats for \$9.85 and \$18.50.

More, there are some Cheviot Suits for two dollars!

AND there are suits in this sale that were bought to sell at five times the present prices.

The store can't be made to pay. I am to close out the stock. Rent the store—Sell the safe, the carpets, the chairs, and all the fixtures. And it's all got to be done in haste.

Come early in the morning and bring all the money you can get with you. You'll want to buy the whole store when you see how the prices have been mercilessly slashed.

I thank you.

NOTED TENOR RECOVERING FROM SERIOUS ILLNESS

JOHN MCCORMACK, TENOR, IMPROVED

New York, April 14.—(U. P.)—John McCormack, noted Irish tenor, who for three days has lingered near death at his apartment here, was cheerful this morning after a comfortable night, and the crisis in his illness is believed passed.

The improved condition of the singer was announced at 7 o'clock this morning by Mrs. McCormack.

"Mr. McCormack spent a very comfortable night and seems very cheerful this morning," the singer's wife announced.

The singer has been suffering with streptococcal infection of the throat, otherwise known as septic sore throat, his physicians declare.

His throat is almost closed and McCormack is able to speak only in a whisper. However, according to his physicians, his vocal chords have not been seriously affected and his illness will not injure his voice.

His return to the public concert stage, according to his friends, will not be before three months.

Despite indications of his recovery today, prayers are to be said in every Catholic church in New York archdiocese.

Despite his illness, friends say McCormack has directed to a certain extent the efforts of doctors who are attending him. He has persistently fought suggestions that his tenor should be removed, steadily insisting that the organ were put in his throat by nature for some purpose and he would not permit anyone to remove them.

McCormack will be 35 years old June 1.

A trip abroad, planned by him to leave May 2, has been postponed because of his illness.

Chamber Committee Is Host on Jaunt in Portland's Harbor

Under auspices of the committee of 100 of the Chamber of Commerce, many professional men, merchants and city visitors started on the river steamer Undine for a trip through Portland harbor at 11:40 o'clock this morning, the object being to acquaint the people with the great strides the port has made in shipping facilities.

A. M. Prentiss was in charge of the excursion. The program included an inspection of the docks, waterfront, warehouses, mills and grain elevators, including special attention to the city's municipal terminal No. 4 at St. Johns, where the steamer was served. G. E. Hayward, for the dock commission, and E. L. Hudson, for the Port of Portland, explained the sights of the harbor.

FIRE PROTECTION IN FORESTS GOAL

To discuss the maintenance of fire protection organizations and cooperative protection by the federal government of \$400,000 under the Weeks law, Colonel William G. Greeley, United States forester, has called a conference in Washington, D. C., on April 23. E. E. Carter, assistant United States forester from Washington, who is attending the allotment conference, said this morning.

Special invitation will be extended to F. A. Elliott, state forester of Oregon, and to R. H. Chapler, forest examiner, in charge of the forest service cooperation under the Weeks law.

"We expect representatives from most of the 25 states which receive this cooperation will attend," said Carter, "as well as representatives of the forest service from the western districts. The purpose of the conference is to discuss the basis on which the Weeks law appropriation is allotted among the several states since those states which are doing a great deal of work themselves in spending large amounts of money in proportion to the total amount needed. It is the present basis which determines the amount of effort made by the state is unfair."

"Some states spend only as much money as the amount of the Weeks law allotment which they receive from the federal government. Others spend many times the amount of the federal funds received in cooperation."

5 Injured and Loss Of 2 Millions in Standard Oil Fire

Whiting, Ind., April 14.—(U. P.)—Five were injured and \$2,000,000 worth of property damaged today in an explosion and fire at the Standard Oil company plant here.

The cause of the blast, which started in one of the stills, is unknown.

The explosion was felt as far as South Chicago.

Ambulance from East Chicago, Indiana Harbor, and other nearby towns were rushed to the scene.

Volunteer firemen searched the debris, believing that some workmen may have been buried.

A \$2,000,000 explosion occurred here last July at the Standard Oil company's plant.

Harding's Letter Opposes Proposed Reduction in Navy

Washington, April 14.—President Harding appealed to congress this afternoon in a letter to Representative Longworth, Republican of Ohio, not to reduce the personnel of the United States navy below 50,000 men.

"I would be disappointed, and I know that the country would be disappointed if the enlisted personnel of the navy should be cut below 50,000," the president said in the letter which Longworth carried to the house during the debate on the navy appropriation bill, which contemplates reducing the personnel to 40,000.

'Cap' A. C. Anson of Baseball Fame Dies

Chicago, April 14.—(U. P.)—Adrian C. "Cap" Anson, famous old-time ball player and one of the most noted stars of the national pastime, died here this afternoon. He had been ill for several days following a seizure on the street, and underwent an operation several days ago.

"Cap" was one of the greatest players of all time. Back in the '80s when there was only one major league, he played first base for Chicago. He was a wonderful fielder and a hitter like of which the national game has seldom known. In 1879, 1880 and 1881 he was conceded to be the greatest first baseman in the game.

Famous Alaskan Dog Is Buried at Berkeley

Berkeley, Cal., April 14.—(U. P.)—"Beauty of Nome," most famous of all Alaskan dogs, was buried today. The dog, which three times led the Darlington teams to victory over the snows in the Alaskan sweepstakes, was buried in the garden of "Beauty" Allen, who drove him in the days when he was the monarch of the Arctic trails.

Porto Rico Governor Might Be Impeached

Washington, April 14.—(U. P.)—Plans are being made to launch impeachment proceedings in the house against Governor E. Mont Rely of Porto Rico if the administration does not recall him today. The plans are being formulated by a group of house members who are supporting the demand of Resident Commissioner Davila that Rely be ousted.

HAIL HITS COOS AGAIN

Joffre Meets Man Who Served Under Him in War of 1870

Denver, April 14.—(U. P.)—Frank Senchal met his former colonel, Marshal Joffre, after 46 years.

Senchal served under the Marne hero when the latter was commanding the 37th French infantry in the Franco-Prussian war in 1870. For years Senchal, who came to America in 1877, has waited for another glimpse of his former commander, and last night the two met.

Joffre had concluded his address at a mass meeting of the American Legion here. Senchal stepped up to the marshal and snapped a salute. Joffre returned the salute and the two chatted in French.

"I am the happiest man in Denver," said Senchal after the meeting.

Boardman Schools Observe Arbor Day

Boardman, April 14.—The Boardman schools held a special assembly in honor of Arbor day, giving a program of musical and literary character followed by tree planting. Each grade of the school planted a tree and pledged itself to care for it and see that it is kept if it should not live. In the evening the junior high department gave its first annual play, "A Man Without a Country," directed by Mr. and Mrs. Gray Lee. Grade pupils assisted with special numbers between the acts.

**WITNESS SEES POST
OF GOVERNOR OF OREGON**

Salem, April 14.—Full Withcombs Tamhill this afternoon joined the race for the governorship of Oregon, filing his declaration for the Republican nomination. His candidacy, he said, is dictated to a desire on his part to have enacted into law important legislation which his brother, the late Governor James Withcombs, contemplated but was unable to complete. Withcombs favors an income tax, but is opposed to a poll tax.

GIRL'S DEATH IS TRACED TO POISON

Rockford, Ill., April 14.—(U. P.)—An analysis of the contents of the stomach of Miss Grace M. Hoffman, 17, a student at Rockford college, for woman, who died early Thursday under mysterious circumstances, was made today by Kenneth Jones, city chemist. Traces of strychnine already have been recovered and the analysis will be continued to determine the nature of other contents of the stomach.

Miss Hoffman, whose home was at West Branch, Iowa, was found in convulsions in bed by her roommate, Miss Evelyn Saxauer of La Crosse, Wis. Dr. Robert Soriano, the college physician, was summoned but Miss Hoffman died shortly afterward without making a statement.

A postmortem examination was conducted by Dr. Clarence Boersell, according to friends, Miss Hoffman took aspirin tablets to relieve a headache. Several of the tablets were found on a dressing table in her room and they will be analyzed to determine if that triumph have been strychnine tablets obtained through error.

Friends of the dead girl say that she was cheerful and light hearted and, as far as is known, she had no love affairs.

Coroner Fred Hoffman announced today that an inquest would be held Tuesday and that meantime a searching investigation would be made.

Soviet Says First Victory Is Won by Its Agents at Genoa

Moscow, April 14.—Soviet officials announced today the Russian public that the Russian delegates have secured the first victory in the international economic conference at Genoa. The soviet officials regard it as an important triumph that Commissar Tchitcherin forced the French to make a flat refusal to discuss limitation of land armaments.

The proceedings at Genoa are being watched closely by all classes of the Russian people. Long lines of men and women stand in front of the newspaper offices starting at the bulletin board.

The Moscow newspapers charge the "bourgeois press" with partiality. They declare that the "bourgeois press" did not give Tchitcherin's speech sufficient recognition.

Commissar Stekolov of the soviet government, writing in the newspaper Ivestia, said:

"All interest centers about the Russians who are representing at Genoa all the oppressed peoples of the world."

Poindexter Makes Attacks on Tariff Bills Discussed

Washington, April 14.—(U. P.)—Charging that spokesmen and lobbyists for the "steel trust" were allowed to "sit in" with Republican members of the senate finance committee, while the removal duties of steel products were boosted in secret session from 25 to 75 per cent over those in the house bill, Senator Poindexter, Republican of Washington, today started a fight from an unexpected quarter upon the senate tariff bill.

President Harding wants the tariff to be taken up by the senate before it gives consideration to the bonus bill passed by the house. It was stated at the White House today.

Harding feels that the tariff situation requiring immediate attention, it was said.

Northwest Beauty Spots to Be Shown At Elks' Jubilee

Pictures of Northwest beauty spots will be shown at the Auditorium during the Elks' Golden Jubilee, May 15 to 21. Offer to show these films was made by William McCormack, general passenger agent of the O-W-R & N., and Samuel C. Lancaster, Columbia river highway engineer. Many of them never have been publicly exhibited.

The Pendleton Round-Up will be shown in four reels. Columbia river scenery will be depicted in both moving and still pictures. Other slides will show Mt. Hood from different points, the Pacific ocean beaches and Eastern Oregon points of interest. There also will be views of the Puget Sound country and other sections of Washington.

These pictures will be shown each day in connection with the "Fountain of Peace, Progress and Prosperity" at the Auditorium.

Purposes of County Hospitals Are Lauded By Kentucky Doctor

A prediction that the foresight of the founders of the Multnomah county hospital and its purpose of benefiting the people of the county will eventually make Portland famous as one of the health capitals of the world was made by Dr. A. T. McCormack, state health officer of Kentucky, to the City club at its luncheon Friday. Dr. McCormack, who was chief health officer of the Panama canal zone when the building of the "big ditch" was in progress, made an eloquent plea for more intensive work in preservation of the health of the people of the state.

S. L. Joshi, professor of philosophy in the University of Bombay, addressed the club on the aims of the Hindu leadership. Joshi, a non-cooperationist, Dr. Joshi explained, wished particularly to secure for India economic independence, arguing that the people of India had first right to the revenues of the country. The people, said Dr. Joshi, wish to regulate taxation, and are most
