Mr. and Mrs. Frederick A. The only ornamenta-tion is fine hemstitching, with a few embroidered circles, a bit of Madeira, work or a segment of eyelet embroiders. The only notable exception at present to the all-white mode is in the new volle lingurie, which comes in delicate shell.

London, April 15.—In the restumes created by Raveille for the Easter holidays, an old cape, which is more properly a panel, plays an important part. But this is the first cape to be an integral part of the corage. The collar, for example, for a costume in white and blue sutting begins innocently chouse as a V neck on the blouse. At the shoulders, however, it begins to flare until finally it expands into a wide panel or cape falling to the low waistline.

ONCE a week before retiring, fill your basin with almost boiling water. Bend over the basin, covering your head with a heavy bath towel, so that no steam can escape. Steam your face for 30 seconds.

Now lather a hot cloth with Woodbury's Facial Soup and with this wash your face thoroughly, rubbing the lather well into the skin. Rimse with warm water, then with cold, and fanish by rubbing your face for 30 seconds with a piece of ice.

There is no escape from the musical charm of the Joe Thomas sax-o-tette. In refinement, technique and costuming the act occupies a commanding position on the bill. The five performers appear first in a cornet ensemble. Interspersed in the wealth of harmony is a comedy part by Thomas, the leader, who plays while he cavorts. The saxophone number caps the climax of melody and humor. For good measure, Jeanne May executes some graceful dance steps and ventures into song.

The good old days of the buck and wing enhanced with a syncopated version of the modern art terpsichorean combine in the dancing act of Carter and Cornish, two colored gentlemen, who work with lightning speed. They are well rewarded in generous applause.

Willie Brothers, equilibriets, close the vandeville. Daring feats of balancing on a high ladder feature the act.

How to Have Beautiful Hair - and Make Yourcelf More Attractive

EVERYWHERE you go your hair is noticed most critically.

A slight change in the way you dress your hair, or in the way you care for it, makes all the difference in the world in

In caring for the hair, shampooing is In caring for the hair, shampooing is always the most important thing. Shampooing brings out the real life and lustre, natural wave and color, and makes your hair soft, fresh and luxuriant.

When your hair is dry, dull and heavy, lifeless, stiff and gummy, and the strands cling together, and it feels harsh and disagreeable to the touch, it is because your hair has not been shampooed properly.

When your hair has been shampooed properly, and is thoroughly clean, it will be glossy, smooth and bright, delightfully fresh-looking, soft and silky.

While your hair must have frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why discriminating women, everywhere, now use Mulsified cocount oil shampoo. This clear, pure and entirely greaseless product cannot possibly injure, and it does not dry the scalp or make the hair brittle, no matter how often you use it. warm water.

Then use another application of Mulsified, again working up a lather and rubbing it in briskly as before.

You can easily tell when the hair is perfectly clean, for it will be soft and silky in the water. THIS is very important. After the final washing, the hair and scalp should be rinsed in at least two changes of good warm water and followed with a rinsing in cold water.

After a Mulsified shampoo you will find the hair will dry quickly and evenly and have the appearance of being much thicker and heavier than it is.

A Simple, Easy Method

FIRST, put two or three teaspoonfuls of Musified in a cup or glass with a little warm water. Then wet the hair and scalp with clear warm water. Pour the Musified evenly over the hair and rub it thoroughly all over the scalp and throughout the entire length, down to the ends of the hair.

Two or three teaspoonfuls will make an abundance of rich, creamy lather. This should be rubbed in thoroughly and briskly with the finger tips, so as to loosen the dandruff and small particles of dust and dirt that stick to the scalp.
